# REQUEST FOR PROPOSAL FOR BILLING SERVICES

# PART I: ADMINISTRATIVE AND GENERAL INFORMATION

# 1.1 Background

The Department of Health and Hospital (DHH) Office of Public Health (OPH) has evolved to respond to the most pressing health needs of the citizens of Louisiana. While implementing programs to prevent disease and promote health, OPH continues its commitment to protect and enhance the health of Louisiana residents.

OPH provides a wide range of preventive services to reduce illness, disability and premature death. It accomplishes its mission by enforcing the state sanitary code, testing food products, maintaining vital statistics and educating Louisiana residents. It provides preventive services in more than 60 public health facilities throughout the state and/or external personal health providers acting on behalf of OPH, including but not limited to family planning, children special health services, sexually transmitted disease, maternal child health, immunization, tuberculosis, school based health, genetics, laboratory services, and women, infants and children.

OPH generates approximately \$15.3 million in Medicaid revenue annually for clinic services billed from encounters submitted by the various clinics statewide. In addition, OPH will be billing third party billers, including but not limited to our clients, private insurance companies, members of Bayou Health Network, and any other entity that is a part of Medicaid's Managed Care Network. The current contract provides for the services of data import, data editing and validation, data management, services reporting, bill preparation, submission, reconciliation, (and iterative resubmission), and billing reports expires December 31, 2011. It is imperative that a system be in place by January 1, 2012 so that the flow of revenue to OPH will not be interrupted. In addition, revenues coming in from additional resources including OPH clients and third party payers should be pursued. These monies are an integral part of OPH's operational funding. This continuous cycle of services falls in two potentially types of service: data entry and billing.

Additionally, other data files are needed for laboratory tests generated at the State Central Lab, Newborn Screenings and LINKS that provide for data import, data editing and validation, data management, services reporting, bill preparation, submission, reconciliation, (and iterative resubmission) and billing reports. However, the contractor should anticipate that some additional files could be added in the future.

Also, the contractor will be required to do post processing on any files provided and investigate all denied claims.

# 1.1.1 Purpose

The purpose of this Request for Proposal (RFP) is to obtain competitive proposals as allowed by Louisiana Revised Statute 39:1593.C. from bona fide, qualified proposers who are interested in providing the DHH OPH with the services required for the operation of several data entry and/or billing systems.

# 1.1.2 Goals and Objectives

DHH OPH desires to obtain reasonable proposals for the provision and operation of several data systems and/or billing of services resulting from client encounters in OPH operated facilities, including the State Central Laboratory. Provision must also be included for required programming and/or consultation services regarding revenue generation and reporting requirements.

For the purposes of this procurement, the provisions of the Louisiana Public Records Act (La. R.S. 44.1 et. seq.) will be in effect. Pursuant to this Act, all proceedings, records, contracts, and other public documents relating to this procurement shall be open to public inspection. Proposers should refer to the Louisiana Public Records Act for further clarification.

The proposer must clearly designate the part of the proposal that contains a trade secret and/or privileged or confidential proprietary information as "confidential" in order to claim protection, if any, from disclosure. The proposer shall mark the cover sheet of the proposal with the following legend, specifying the specific section(s) of his proposal sought to be restricted in accordance with the conditions of the legend:

"The data contained in pages \_\_\_\_\_\_of the proposal have been submitted in confidence and contain trade secrets and/or privileged or confidential information and such data shall only be disclosed for evaluation purposes, provided that if a contract is awarded to this Proposer as a result of or in connection with the submission of this proposal, the State of Louisiana shall have the right to use or disclose the data therein to the extent provided in the contract. Further, to protect such data, each page containing such data shall be specifically identified and marked "CONFIDENTIAL".

Proposers must be prepared to defend the reasons why the material should be held confidential. If you do not submit the redacted copy, you will be required to submit this copy within 48 hours of notification from the Office of State Purchasing. When submitting your redacted copy, you should clearly mark the cover as such - "REDACTED COPY" - to avoid having this copy reviewed by an evaluation committee member. The redacted copy should also state which sections or information has been removed.

# 1.18 Non-negotiable Contract Terms

# 1.19 Taxes

Any taxes, other than state and local sales and use taxes, from which the state is exempt, shall be assumed to be included within the Proposer's cost.

# 1.20 Proposal Validity

All proposals shall be considered valid for acceptance until such time an award is made, unless the Proposer provides for a different time period within its proposal response. However, the State reserves the right to reject a proposal if the Proposer's acceptance period is unacceptable and the Proposer is unwilling to extend the validity of its proposal.

# **1.21 Prime Contractor Responsibilities**

The selected Proposer shall be required to assume responsibility for all items and services offered in his proposal whether or not he produces or provides them. The State shall consider the selected Proposer to be the sole point of contact with regard to contractual matters, including payment of any and all charges resulting from the contract.

# 1.22 Use of Subcontractors

Each Contractor shall serve as the single prime contractor for all work performed pursuant to its contract. That prime contractor shall be responsible for all deliverables referenced in this RFP.

This general requirement notwithstanding, Proposers may enter into subcontractor arrangements. Proposers may submit a proposal in response to this RFP, which identifies subcontract(s) with others, provided that the prime contractor acknowledges total responsibility for the entire contract.

If it becomes necessary for the prime contractor to use subcontractors, the State urges the prime contractor to use Louisiana vendors, including small and emerging businesses, a small entrepreneurship or a veteran or service-connected disabled veteran-owned small entrepreneurship, if practical. In all events, any subcontractor used by the prime should be identified to the State Project Manager.

Information required of the prime contractor under the terms of this RFP, is also required for each subcontractor and the subcontractors must agree to be bound by the terms of the contract. The prime contractor shall assume total responsibility for compliance.

# 1.23 Written or Oral Discussions/Presentations

Written or oral discussions may be conducted with Proposers who submit proposals determined to be reasonably susceptible of being selected for award; however, the State reserves the right to enter into an Agreement without further discussion of the proposal submitted based on the initial offers received.

Any commitments or representations made during these discussions, if conducted, may become formally recorded in the final contract.

Written or oral discussions/presentations for clarification may be conducted to enhance the State's understanding of any or all of the proposals submitted. Proposals may be accepted without such discussions.

# 1.24 Acceptance of Proposal Content

The mandatory RFP requirements shall become contractual obligations if a contract ensues. Failure of the successful Proposer to accept these obligations shall result in the rejection of the proposal.

# 1.25 Evaluation and Selection

All responses received as a result of this RFP are subject to evaluation by the State Evaluation Committee for the purpose of selecting the Proposer with whom the State shall contract.

To evaluate all proposals, a committee whose members have expertise in various areas has been selected. This committee will determine which proposals are reasonably susceptible of being selected for award. If required, written or oral discussions may be conducted with any or all of the Proposers to make this determination.

Written recommendation for award shall be made to the Director of State Purchasing for the Proposer whose proposal, conforming to the RFP, will be the most advantageous to the State of Louisiana, price and other factors considered.

The committee may reject any or all proposals if none is considered in the best interest of the State.

# 1.26 Contract Negotiations

If for any reason the Proposer whose proposal is most responsive to the State's needs, price and other evaluation factors set forth in the RFP considered, does not agree to a contract, that proposal shall be rejected and the State may negotiate with the next most responsive Proposer. Negotiation may include revision of non-mandatory terms, conditions, and requirements. OSP must approve the final contract form and issue a purchase order, if applicable, to complete the process.

# 1.27 Contract Award and Execution

The State reserves the right to enter into a contract without further discussion of the proposal submitted based on the initial offers received.

The RFP, including any addenda, and the proposal of the selected Contractor will become part of any contract initiated by the State.

Proposers are discouraged from submitting their own standard terms and conditions with their proposals. Proposers should address the specific language in the sample contract in Appendix E of this RFP and submit any exceptions or deviations the proposer wishes to negotiate. The proposed terms will be negotiated before a final contract is entered. Mandatory terms and conditions are not negotiable. If applicable, a proposer may submit or refer to a Master Agreement entered into by the contractor and the State in accordance with R.S. 39:198(e).

If the contract negotiation period exceeds thirty (30) days or if the selected Proposer fails to sign the contract within **seven calendar** days of delivery of it, the State may elect to cancel the award and award the contract to the next-highest-ranked Proposer.

Award shall be made to the Proposer with the highest points, whose proposal, conforming to the RFP, will be the most advantageous to the State of Louisiana, price and other factors considered.

The State intends to award to a single Proposer.

# 1.28 Notice of Intent to Award

Upon review and approval of the evaluation committee's and agency's recommendation for award, OSP will issue a "Notice of Intent to Award" letter to the apparent successful Proposer. A contract shall be completed and signed by all parties concerned on or before the date indicated in the "Schedule of Events." If this date is not met, through no fault of the State, the State may elect to cancel the "Notice of Intent to Award" letter and make the award to the next most advantageous Proposer.

OSP will also notify all unsuccessful Proposers as to the outcome of the evaluation process. The evaluation factors, points, evaluation committee member names, and the completed

evaluation summary and recommendation report will be made available to all interested parties after the "Notice of Intent to Award" letter has been issued.

Any person aggrieved by the proposed award has the right to submit a protest in writing, in accordance with RS: 39:1671, to the Director of State Purchasing, within fourteen days of the award/intent to award.

# 1.29 Debriefings

The certificates for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The certificates are to be received and approved by the State before work commences. The State reserves the right to require complete certified copies of all required policies, at any time.

# 1.31 Subcontractor Insurance

The Contractor shall include all subcontractors as insured's under its policies or shall insure that all subcontractors satisfy the same insurance requirements stated herein for the contractor.

# 1.32 Indemnification and Limitation of Liability

- This preliminary forecast is based on historical data including service volume, billed volume, paid claim volume, and reimbursement rates.
- PCG expects to adjust this forecast based on additional information provided by program management. A revised forecast will be presented at the next status meeting.
- The methodology used in building this forecast is as follows:
  - PCG analyzed claim data from April 2010 through March 2011 as a baseline
  - The average monthly collection rate was used to calculate the reduction in services after facility consolidations and staff reductions went into effect (December 2010)
  - This reduced collection rate was then applied to the original monthly average and annualized to create the preliminary FY11 forecast

#### Newborn Screenings - 1906930

- 83020 Voids and 83021 Resubmissions
  - NBS program management instructed PCG to void payments for CPT code 83020 and resubmit the claims with code 83021
  - \$450k in payments were voided and new claims were resubmitted with code 83021
  - \$200k of the resubmitted claims was denied as Past The Filing Limit (one year) as LA Medicaid considered the resubmissions to be new claims
  - In an attempt to recover the denied claim revenue, these claims were resubmitted a 2<sup>nd</sup> time with the original 83020 CPT code and were again denied
  - OPH worked with DHH and Medicaid reprocessed and paid the previously denied claims prior to fiscal year end

#### DHH Match Process

- NBS claiming relies on a weekly DHH match process to obtain LA Medicaid RID numbers
- Patient data is matched on 3 different data combinations including Name, SSN, and DOB information
- In early February 2011 all RID numbers received from DHH were matched using only the SSN combination.
   This resulted in a significant reduction in the number of matched RIDs.
- The DHH Match issue was resolved during the last week of April and PCG created an NBS claim batch with \$1,200k in gross charges and submitted to Medicaid

## HIPAA 5010 and ICD-10

- HIPAA 5010 format for claim submissions and payment information must be implemented by January 1, 2012
  - All entities must have the ability to send and receive files for testing by 03/31/11
- ICD-10 standards to be implemented in October, 2013
  - Current procedure and diagnosis codes are insufficient to allow for new codes to reflect current medical practice
  - ICD-10 is now the international standard for reporting and surveillance of diseases and mortality
  - Most countries outside of the U.S. already use the ICD-10 standard
- Potential Risk
  - LA OPH is currently allowed to bill Medicaid a default diagnosis code for each program except CSHS
  - If Medicaid eliminates the use of default diagnosis codes when billing services, COMPASS may require a significant modification to the method used to currently document diagnosis codes

SAMPLE GENERIC CONTRACT

# STATE OF LOUISIANA PARISH OF \_\_\_\_\_

File No. \_\_\_\_\_(or solicitation #)

#### CONTRACT

Be it known, that effective upon approval by the Director of State Purchasing, as evidenced by the Director's signature on this document, the (*Agency Name*) (hereinafter sometimes referred to as "State") and (*Contractor's name and legal address including zip code*) (hereinafter sometimes referred to as "Contractor") do hereby enter into contract under the following terms and conditions.

#### **SCOPE OF SERVICE**

Contractor hereby agrees to furnish the following services:

(If the Scope of Services is more lengthy than will fit here, it may be attached separately, referenced and incorporated herein.)

#### **CONTRACT MODIFICATIONS**

No amendment or variation of the terms of this contract shall be valid unless made in writing, signed by the parties and approved as required by law. No oral understanding or agreement not incorporated in the contract is binding on any of the parties.

Changes to the contract include any change in a) compensation; b) beginning/ending date of the contract; c) scope of work; and/or d) contractor change through the assignment of contract process. Any such changes, once approved, will result in the issuance of an amendment to the contract.

#### FUND USE

Contractor agrees not to use contract proceeds to urge any elector to vote for or against any candidate or proposition on an election ballot nor shall such funds be used to lobby for or against any proposition or matter having the effect of law being considered by the Louisiana Legislature or any local governing authority. This provision shall not prevent the normal dissemination of factual information relative to a proposition on any election ballot or a proposition or matter having the effect of law being considered by the Louisiana Legislature or any local governing authority.

#### HEADINGS

Descriptive headings in this contract are for convenience only and shall not affect the construction of this contract or meaning of contractual language.

#### PAYMENT TERMS

The Contractor shall invoice the State Agency directly and payment shall be made by the State Agency directly to the Contractor in accordance with the payment terms agreed to in this Contract.

#### LATE PAYMENTS

Interest due by the State Agency for late payments shall be in accordance with R.S. 39:1695 and 13:4202.

#### DELIVERABLES

Contractor will deliver the item(s) or service(s) as described below (or per the attached) per the following schedule...

#### TAXES

Contractor agrees that all applicable taxes are included in the schedule pricing. State agencies are exempt from all state and local sales and use taxes.

#### TERMINATION OF THIS CONTRACT FOR CAUSE

The State may terminate this contract for cause based upon the failure of Contractor to comply with the terms and/or conditions of the contract, or failure to fulfill its performance obligations pursuant to this contract, provided that the State shall give the Contractor written notice specifying the Contractor's failure. If within thirty (30) days after receipt of such notice, the Contractor shall not have corrected such failure or, in the case of failure which cannot be corrected in thirty (30) days, begun in good faith to correct such failure and thereafter proceeded diligently to complete such correction, then the State may, at its option, place the Contractor in default and the contract shall terminate on the date specified in such notice.

The Contractor may exercise any rights available to it under Louisiana law to terminate for cause upon the failure of the State to comply with the terms and conditions of this contract, provided that the Contractor shall give the State written notice specifying the State's failure and a reasonable opportunity for the State to cure the defect.

#### TERMINATION OF THIS CONTRACT FOR CONVENIENCE

The State may terminate this Contract at any time by giving thirty (30) days written notice to the Contractor of such termination or negotiating with the Contractor an effective date.

The Contractor shall be entitled to payment for deliverables in progress, to the extent work has been performed satisfactorily.

#### **TERMINATION FOR NON-APPROPRIATION OF FUNDS**

The continuation of this contract is contingent upon the appropriation of funds to fulfill the requirements of the contract by the legislature. If the legislature fails to appropriate sufficient monies to provide for the continuation of the contract or if such appropriation is reduced by the veto of the Governor or by any means provided in the appropriations act or Title 39 of the Louisiana Revised Statutes of 1950 to prevent the total appropriation for the year from exceeding revenues for that year, or for any other lawful purpose, and the effect of such reduction is to provide insufficient monies for the contract, the contract shall terminate on the date of the beginning of the first fiscal year for which funds are not appropriated.

#### **OWNERSHIP**

All records, reports, documents, or other material related to this contract and/or obtained or prepared by Contractor in connection with the performance of the services contracted for herein shall become the property of State, and shall, upon request, be returned by Contractor to State, at Contractor's expense, at termination or expiration of this contract.

#### **USE OF AGENCY'S FACILITIES**

Any property of the State furnished to the Contractor shall, unless otherwise provided herein, or approved by the State and/or Agency, be used only for the performance of this contract.

The Contractor shall be responsible for any loss or damage to property of the State and/or State Agency which results from willful misconduct or lack of good faith on the part of the Contractor or which results from the failure on the part of the Contractor to maintain and administer that property in accordance with sound management practices, to ensure that the property will be returned to the State and/or State Agency in like condition, except for normal wear and tear, to that in which it was furnished to the Contractor. Upon the happening of loss, or destruction of, or damage to property of the State , the Contractor shall notify the State thereof and shall take all reasonable steps to protect that property from further damage.

The Contractor shall surrender to the State and/or State Agency all property of the State and/or State Agency prior to settlement upon completion, termination, or cancellation of this contract. All reference to the Contractor under this section shall include any of its employees, agents, or subcontractors.

#### WAIVER

Waiver of any breach of any term or condition of this contract shall not be deemed a waiver of any prior or subsequent breach. No term or condition of this contract shall be held to be waived, modified or deleted except by the written consent of both parties.

#### WARRANTIES

Contractor warrants that all services shall be performed in a workmanlike manner, and according to its current description (including any completion criteria) contained in the scope of work.

#### This paragraph may only apply when software is involved.

*No Surreptitious Code Warranty.* Contractor warrants that Contractor will make all commercially reasonable efforts not to include any Unauthorized Code in the software provided hereunder. "Unauthorized Code" means any virus, Trojan horse, worm or other software routine or component designed to permit unauthorized access to disable, erase, or otherwise harm software, equipment, or data, or to perform any other such actions. Excluded from this prohibition are identified and State-authorized features designed for purposes of maintenance or technical support.

Extent of Warranty: THESE WARRANTIES REPLACE ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE

#### INDEMNIFICATION AND LIMITATION OF LIABILITY

Neither party shall be liable for any delay or failure in performance beyond its control resulting from acts of God or force majeure. The parties shall use reasonable efforts to eliminate or minimize the effect of such events upon performance of their respective duties under this contract.

Contractor shall be fully liable for the actions of its agents, employees, partners or subcontractors and shall fully indemnify and hold harmless the State from suits, actions, damages and costs of every name and description relating to personal injury and damage to real or personal tangible property caused by Contractor, its agents, employees, partners or subcontractors in the performance of this contract, without limitation; provided, however, that the Contractor shall not indemnify for that portion of any claim, loss or damage arising hereunder due to the negligent act or failure to act of the State.

Contractor will indemnify, defend and hold the State harmless, *without limitation*, from and against any and all damages, expenses (including reasonable attorneys' fees), claims judgments, liabilities and costs which may be finally assessed against the State in any action for infringement of a United States Letter Patent with respect to the Products, Materials, or Services furnished, or of any copyright, trademark, trade secret or intellectual property right, provided that the State shall give the Contractor: (i) prompt written notice of any action, claim or threat of infringement suit, or other suit, (ii) the opportunity to take over, settle or defend such action, claim or suit at Contractor's sole expense, and (iii) assistance in the defense of any such action at the expense of Contractor. Where a dispute or claim arises relative to a real or anticipated infringement, the State may require Contractor, at its sole expense, to submit such information and documentation, including formal patent attorney opinions, as the Commissioner of Administration shall require.

The Contractor shall not be obligated to indemnify that portion of a claim or dispute based upon: i) State's unauthorized modification or alteration of a Product, Material, or Service; ii) State's use of the Product, Material, or Service in combination with other products, materials, or services not furnished by Contractor; iii) State's use in other than the specified operating conditions and environment.

In addition to the foregoing, if the use of any item(s) or part(s) thereof shall be enjoined for any reason or if Contractor believes that it may be enjoined, Contractor shall have the right, at its own expense and sole discretion as the state's exclusive remedy to take action in the following order of precedence: (i) to procure for the State the right to continue using such item(s) or part (s) thereof, as applicable; (ii) to modify the component so that it becomes non-infringing equipment of at least equal quality and performance; or (iii) to replace said item(s) or part(s) thereof, as applicable, with non-infringing components of at least equal quality and performance, or (iv) if none of the foregoing is commercially reasonable, then provide monetary compensation to the State up to the dollar amount of the Contract.

For all other claims against the Contractor where liability is not otherwise set forth in the contract as being "without limitation", and regardless of the basis on which the claim is made, Contractor's liability for direct damages, shall be the greater of \$100,000, the dollar amount of the Contract, or two (2) times the charges for services rendered by the Contractor under the Contract. Unless otherwise specifically enumerated herein mutually agreed between the parties, neither party shall be liable to the other for special, indirect or consequential damages, including lost data or records (unless the Contractor is required to back-up the data or records as part of the work plan), even if the party has been advised of the possibility of such damages. Neither party shall be liable for lost profits, lost revenue or lost institutional operating savings.

The State may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor, or may proceed against the performance

and payment bond, if any, as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them.

#### INSURANCE

Contractor will be required to provide the State of Louisiana with Certificates of adequate insurance indicating coverage required, (*in accordance with Section(s)*\_\_\_\_\_of the RFP).

#### LICENSES AND PERMITS

Contractor shall secure and maintain all licenses and permits, and pay inspection fees required to do the work required to complete this contract, if applicable.

#### SEVERABILITY

If any term or condition of this contract or the application thereof is held invalid, such invalidity shall not affect other terms, conditions or applications which can be given effect without the invalid term, condition or application; to this end the terms and conditions of this contract are declared severable.

#### **SUBCONTRACTORS**

The Contractor may enter into subcontracts with third parties for the performance of any part of the Contractor's duties and obligations. In no event shall the existence of a subcontract operate to release or reduce the liability of the Contractor to the State and/or State Agency for any breach in the performance of the Contractor's duties. The Contractor will be the single point of contact for all subcontractor work.

#### SUBSTITUTION OF PERSONNEL

If, during the term of this contract, the Contractor or subcontractor cannot provide the personnel as proposed and requests a substitution, that substitution shall meet or exceed the requirements stated herein. A detailed resume of qualifications and justification is to be submitted to the State for approval prior to any personnel substitution. It shall be acknowledged by the Contractor that every reasonable attempt shall be made to assign the personnel listed in the Contractor's proposal.

#### ASSIGNMENT

This Business Associate Addendum is hereby made a part of this contract in its entirety as Appendix \_\_\_\_\_ to the contract.

- 1. The U. S. Department of Health and Human Services has issued final regulations, pursuant to the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), governing the privacy of individually identifiable health information. See 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"). The Department of Health and Hospitals, ("DHH"), as a "Covered Entity" as defined by HIPAA, is a provider of health care, a health plan, or otherwise has possession, custody or control of health care information or records.
- 2. "*Protected health information*" ("PHI") means individually identifiable health information including all information, data, documentation and records, including but not limited to demographic, medical and financial information that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual or payment for health care provided to an individual; and that identifies the individual or which DHH believes could be used to identify the individual.

"Electronic protected health information" means PHI that is transmitted by electronic media or maintained in electronic media.

"Security incident" means the attempted or successful unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations in an information system.

- 3. Contractor is considered a Business Associate of DHH, as contractor either: (A) performs certain functions on behalf of or for DHH involving the use or disclosure of protected individually identifiable health information by DHH to contractor, or the creation or receipt of PHI by contractor on behalf of DHH; or (B) provides legal, actuarial, accounting, consulting, data aggregation, management, administrative, accreditation, financial or social services for DHH involving the disclosure of PHI.
- 4. Contractor agrees that all PHI obtained as a result of this contractual agreement shall be kept confidential by contractor, its agents, employees, successors and assigns as required by HIPAA law and regulations and by this contract and addendum.
- 5. Contractor agrees to use or disclose PHI solely (A) for meeting its obligations under this contract, or (B) as required by law, rule or regulation or as otherwise permitted under this contract or the HIPAA Privacy Rule.
- 6. Contractor agrees that at termination of the contract, or upon request of DHH, whichever occurs first, contractor will return or destroy (at the option of DHH) all PHI received or created by contractor that contractor still maintains in any form and retain no copies of such information; or if such return or destruction is not feasible, contractor will extend the confidentiality protections of the contract to the information and limit further uses and disclosure to those purposes that make the return or destruction of the information infeasible.
- 7. Contractor will ensure that its agents, employees, subcontractors or others to whom it provides PHI received by or created by contractor on behalf of DHH agree to the same restrictions and conditions that apply to contractor with respect to such information. Contractor also agrees to take all reasonable steps to ensure that its employees', agents' or subcontractors' actions or omissions do not cause contractor to breach the terms of this Addendum. Contractor will use all appropriate safeguards to prevent the use or disclosure of PHI other than pursuant to the terms and conditions of this contract and Addendum.
- 8. Contractor shall, within 3 days of becoming aware of any use or disclosure of PHI, other than as permitted by this contract and Addendum, report such disclosure in writing to the person(s) named in section 14 (Terms of Payment), page 1 of the CF-1.
- 9. Contractor shall make available such information in its possession which is required for DHH to provide an accounting of disclosures in accordance with 45 CFR 164.528. In the event that a request for accounting is made directly to contractor, contractor shall forward such request to DHH within two (2) days of such receipt. Contractor shall implement an appropriate record keeping process to enable it to comply with the requirements of this provision. Contractor shall maintain data on all disclosures of PHI for which accounting is required by 45 CFR 164.528 for at least six (6) years after the date of the last such disclosure.
- 10. Contractor shall make PHI available to DHH upon request in accordance with 45 CFR 164.524.
- 11. Contractor shall make PHI available to DHH upon request for amendment and shall incorporate any amendments to PHI in accordance with 45 CFR 164.526.
- 12. Contractor shall make its internal practices, books, and records relating to the use and disclosure of PHI received from or created or received by contractor on behalf of DHH available to the Secretary of the U.S. DHHS for purposes of determining DHH's compliance with the HIPAA Privacy Rule.
- 13. Compliance with Security Regulations:

In addition to the other provisions of this Addendum, if Contractor creates, receives, maintains, or transmits electronic PHI on DHH's behalf, Contractor shall, no later than April 20, 2005:

(A) Implement administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of the electronic protected health information that it creates, receives, maintains, or transmits on behalf of DHH;

(B) Ensure that any agent, including a subcontractor, to whom it provides such information agrees to implement reasonable and appropriate safeguards to protect it; and

(C) Report to DHH any security incident of which it becomes aware.

- 14. Contractor agrees to indemnify and hold DHH harmless from and against all liability and costs, including attorneys' fees, created by a breach of this Addendum by contractor, its agents, employees or subcontractors, without regard to any limitation or exclusion of damages provision otherwise set forth in the contract.
- 15. Notwithstanding any other provision of the contract, DHH shall have the right to terminate the contract immediately if DHH determines that contractor has violated any material term of this Addendum.
