City of New Port Richey, Florida ANNUAL BUDGET Department/Division Narrative

Fund: General

Department: Parks & Recreation

Division: Swimming Pool Operation

Activities Description

The aquatics center features four pools: a children's pool, an activity pool, a diving well and a 25 yard competitive lap pool. The complex is designed so that each pool can be used independently, allowing both season use and multi-event capability.

The play pool is 0 - 2 ft depth with spray features, a child-sized fish slide, and a covered area by the steps. This pool was designed to be family friendly, with ample deck area and shade. It will allow seasonal use by area day care programs.

The activity pool is the exit area for the large slide. It has stanchions for water basketball and volleyball. Because the water depth is only 3½ feet deep, this pool can also be used for swim lessons and exercise classes. With the three lane lines in, this pool will also be used as a warm-up/warm-down area for swim meets and is ideal for stroke clinics, development swim team, and an alternate pool for lap swimmers.

The diving well has 2 one-meter diving boards for public, instructional, and competitive use. This pool will also allow for deep water exercise, synchronized swimming, lifeguard and water safety training, and scuba instruction.

The lap pool is 6-lanes, 25 yards with depths from 3½ to 5 feet. This pool will be used for swim teams, lessons, exercise classes, training and conditioning, and general use.

The Aquatic Supervisor is responsible for total pool operation including maintenance, water chemistry, handling of pool chemicals, troubleshooting of major problems, budget preparation, hiring and training of lifeguards, programming and instruction of water safety and swim classes, facility scheduling and public relations.
