### **Statewide Service Agreement – Professional Civil/Environmental Engineering and Surveying Services for Statewide Public Access Program**

---

The New Hampshire Fish and Game Department (NHFG) is seeking qualified and experienced firms interested in providing professional civil/environmental engineering and surveying services in the area of new access development and existing facility repairs for the statewide public access program. The selected firm should be familiar with site development design adjoining public water bodies such as design of access roads/drives, parking areas, drainage, boat access ramps, surveying and environmental permitting. This contract will be a two-year contract (commencing July 1, 2015), at \$25,000/year, pending State budget approval. Firms interested in providing these services should submit a 1-page letter of interest requesting an Information Packet, by February 9, 2015, 4pm, to Richard Fink, P.E., Supervisor, Facilities and Lands Division at NHFG, 11 Hazen Drive, Concord, NH 03301. Firm selection will occur using a quality based selection process.
