Duration 7/1/09 - 6/30/11
License(s) Required any applicable licenses
Location(s): Statewide

Two aerial photography and laboratory service contracts will result from this Invitation for Bid (IFB). The contractor will provide aerial photography and photographic reproduction services throughout both Northern and Southern California. These services are needed to produce topographic and orthophoto base maps. The maps and other related materials are used for planning, designing, constructing and operating water conservation and conveyance facilities, flood routing, damage assessments, environmental analysis, exhibit for hearings, court appearances, board meetings, and precision base for development of engineering, environmental and right of way data.

For a complete description of services, see two separate Scopes of Work, one for Northern California (Exhibit A) and one for Southern California (Exhibit A-1).

Bid Submittal Deadline 4/24/2009 12:00 PM
