SECTION 1 INTRODUCTION

1.1 PURPOSE

Fulton County, Georgia ("County") is seeking Proposals from qualified experienced Vendors to provide an Automated Fuel Management System (AFMS) that must include the hardware and software required to manage the fueling for Fulton County's fleet of vehicles and equipment, account for the fuel dispensed, authorize proper fuel dispensing, and provide status reports for Fulton County Management. in support of the General Services/Public Works Department.

Through the issuance of this Request for Proposal ("RFP" and/or "Proposals"), the County is soliciting Proposals from qualified Proposers for **#10RFP73773K-NH Automated Fuel Management System (AFMS)**

Proposals provided in response to this RFP that comply with the submittal requirements set forth in Section 4.0, including all forms and certifications, will be evaluated in accordance with the criteria and procedures described in Section 5.0. Based on the results of the evaluation, the County will award **#10RFP73773K-NH Automated Fuel Management System (AFMS)** to the most advantageous Proposer based on the cost and the evaluation factors set forth in the RFP. This RFP may be awarded to multiple vendors for "as needed-task assignments".

1.2 DESCRIPTION OF THE PROJECT

This project involves services that are professional in nature. This RFP provides an Automated Fuel Management System (AFMS) that shall include the hardware and software required to manage the fueling for Fulton County's fleet of vehicles and equipment, account for the fuel dispensed, authorize proper fuel dispensing, and provide status reports for Fulton County Management. The card readers are very old and the displays are not readable when the sun shines on them.

1.4 COUNTY OBJECTIVES

Proposals for projects that are solicited pursuant to the Georgia Local Government Public Works Construction Law (O.C.G.A. § 36-91-1 et seq.) may be withdrawn as follows:

The County must advise Offerors in the request for proposals of the number of days that Offerors will be required to honor their proposals. If an Offeror is not selected within 60 days of opening the proposals, any Offeror that is determined by the governmental entity to be unlikely of being selected for contract award will be released from the proposal.

10. Show information and prices in the format requested. Prices are to be quoted F.O.B. destination, and must include all costs chargeable to the Offeror in executing the contract, including taxes. Unless otherwise provided in the Contract, Fulton County shall have no liability for any cost not included in the price. The Offeror shall provide Fulton County the benefit through a reduction in price of any decrease in the Offeror's costs by reason of tax exemptions based upon Fulton County's status as a tax-exempt entity.
11. Propose all items specified or indicate under each item what alternative is being proposed and why it should be considered in lieu of the original specification. Failures to indicate any exceptions shall be interpreted as the Offeror's intent to fully comply with the specifications as written. Conditional or qualified proposals (except as specifically allowed in the specifications) are subject to rejection in whole or in part.
12. Fulton County shall be the sole judge of the quality and the applicability of all proposals. Design, features, overall quality, local facilities, terms and other pertinent considerations will be taken into account in determining acceptability.
13. The successful Offeror must assume full responsibility for delivery of all goods and services proposed and agree to relieve Fulton County of all responsibility and costs for prosecuting claims.
14. The successful Offeror must assume full responsibility for replacement of all defective or damaged goods and/or performance of contracted services within thirty (30) days notice by the County of such defect, damage or deficiency.
15. The successful Offeror must assume full responsibility for providing warranty service on all goods, materials, or equipment provided to the County with warranty coverage. Should a vendor be other than the manufacturer, the vendor and not the County is responsible for contacting the manufacturer. The Offeror is solely responsible for arranging for the service to be performed.
16. The successful Offeror shall be responsible for the proper training and certification of personnel used in the performance of the services proposed.
17. The successful Offeror shall not assign, transfer, convey, sublet, or otherwise dispose of any contract resulting from the RFP or of any of all of its rights, title or interest therein without prior written consent of the Fulton County Board of Commissioners.
18. Proposals must contain references which reflect successful completion of contracts for the types of goods, materials, equipment, or services for which the vendor is submitting a proposal to the County. In instances where that does not apply, the proposal must contain a statement and supporting documentation demonstrating such expertise, knowledge, or experience to establish the vendor submitting the proposal as capable of meeting the demands of the proposal should an award be made to them.
19. Offerors submitting proposals may be required to furnish evidence that they maintain permanent places of business of a type and nature compatible with their proposal, and are in

- all respects competent and eligible vendors, able to fulfill the terms of the specifications. Fulton County may make such investigations as it deems necessary to determine the ability of the Offeror to perform such work, and reserves the right to reject any proposal if evidence fails to indicate that the proposed vendor is qualified to carry out the obligation of the contract and to complete the work satisfactorily.
20. By submitting a signed proposal, Offeror certifies that there has been no collusion with any other Offeror. Reasonable grounds for believing Offeror has an interest in more than one proposal will result in rejection of all proposals in which the Offeror has an interest. Any party to collusion may not be considered in future proposals for the same or similar work.
 21. Upon notice of selection, the Offeror submitting the proposal is obligated to perform. Should a successful Offeror refuse to enter into a contract subsequent to an award, a penalty may be assessed and/or the Offeror may be found to be "non-responsible" in the future.
 22. In case of default by the successful Offeror, Fulton County may procure the articles or services from another source and hold the successful Vendor responsible for any resultant excess cost.
 23. Successful Offerors contract directly with the County and are the party or parties obligated to perform. Contracts may not be assigned and any failure to perform the Contract in accordance with the specifications will constitute a breach of contract and may result in an Offeror being found to be "non-responsible" in the future.
 24. Invoice(s) must list each item separately and must show Fulton County's purchase order number as well as the proper department and address to whom the service or product was provided.
 25. Fulton County reserves the right to accept or reject any or all proposals, or any part thereof, and to waive any technicalities. Fulton County reserves the right to award a contract based on this RFP and the proposal(s) received (in whole or in part) to one or several Vendors.
 26. Awards will not necessarily be based on cost alone. Other factors, as detailed in the RFP, will be considered in determining what proposal will be deemed to best meet the needs of Fulton County.
 27. All proposals and bids submitted to Fulton County are subject to the Georgia "Open Records Act", Official Code of Georgia, Annotated (O.C.G.A.) § 50-18-70 et seq.
 28. All proposals and bids submitted to Fulton County involving Utility Contracting are subject to the Georgia law governing licensing of Utility Contractors, O.C.G.A. §43-14-8.2(h). The Utility Contractor License number of the person who will perform the utility work shall be written on the face of the bid envelope.
 29. Prior to beginning any work, the successful Offeror shall furnish to Fulton County (for the contracting firm and for any subcontractors) a certificate from an insurance company showing issuance of Workers' compensation coverage for the State of Georgia or a certificate from the Georgia Workers' Compensation Board showing proof of ability to pay compensation directly.
 30. It is the policy of Fulton County that the evaluation and award process for County contracts shall be free from both actual and perceived impropriety, and that contacts between potential vendors and County officials, elected officials and staff regarding pending awards of County contracts shall be prohibited.
 - A. No person, firm, or business entity, however situated or composed, obtaining a copy of or responding to this solicitation, shall initiate or continue any verbal or

written communication regarding this solicitation with any County officer, elected official, employee, or designated County representative, between the date of the issuance of this solicitation and the date of the County Manager's recommendation to the Board of Commissioners for award of the subject contract, except as may otherwise be specifically authorized and permitted by the terms and conditions of this solicitation.

- B. All verbal and written communications initiated by such person, firm, or entity regarding this solicitation, if same are authorized and permitted by the terms and conditions of this solicitation, shall be directed to the Purchasing Agent.
 - C. Any violation of this prohibition of the initiation or continuation of verbal or written communications with County officers, elected officials, employees, or designated County representatives shall result in a written finding by the Purchasing Agent that the submitted bid or proposal of the person, firm, or entity in violation is "non-responsive", and same shall not be considered for award.
31. Any Offeror intending to respond to this solicitation as a Joint Venture must submit an executed Joint Venture Agreement with this offer. This agreement must designate those persons or entities authorized to execute documents or otherwise bind the Joint Venture in all transactions with Fulton County, or be accompanied by a document, binding upon the Joint Venture and its constituent members, making such designation. Offers from Joint Ventures that do not include these documents will be rejected as being "non-responsive".
32. Any Offeror intending to respond to this solicitation must complete all of the Procurement Affidavit Forms provided in Section 5. Proposals that do not include these completed documents will be rejected as being "non-responsive".

3.3 SCOPE OF WORK

This project involves services that are professional in nature. This RFP provides an Automated Fuel Management System (AFMS) that shall include the hardware and software required to manage the fueling for Fulton County's fleet of vehicles and equipment, account for the fuel dispensed, authorize proper fuel dispensing, and provide status reports for Fulton County Management. Tasks shall include but are not limited to services listed under this section.

The project scope includes project management, analysis, requirements gathering, gap analysis, design, construction, conversion, interfaces, training, testing, implementation, technical infrastructure upgrades, and post-implementation support.

In addition, package install and customization where necessary, coding/scripting/rules configuration to set up workflow and reference tables, conversion of data and forms templates, coding and testing of the system with operational interfaces, training, communication and organizational change management, setup and support of user acceptance testing, pilot rollouts before full rollouts, assistance with organizational change management, and post-implementation warranty and support. This must be done in coordination with the County's Department of Information Technology, which supports the network infrastructure, and the desktop personal computers.

3.31 OBJECTIVES

This system shall be designed to meet the following conditions:

1. Automate data collection and fuel usage for the Fulton County fleet
2. Improve the efficiency and accuracy of fuel accounting
3. Provide reports to allow for Fulton County to properly manage the fleet
4. Interface to Fulton County's current fleet management software/application without any disruption of service or generation of reporting.
5. Provide customization and flexibility to meet Fulton County's needs

3.3.2 INTENDED SCOPE OF DEPLOYMENT

To design and install a fully automated fuel management system located at Fulton County's eight fuel sites and two mobile fueling units.

3.3.3 OVERVIEW OF CURRENT SYSTEM

The existing system is a card reader system. The equipment is over 20 years old and parts are quickly becoming non-existent. The accuracy of the system depends entirely on the employee entering the information and the vendor downloading the data. Mileage is not accurately entered causing the preventive maintenance service on the vehicles to be invalid. Cards are constantly being replaced due to loss and damage. The card readers are very old and the displays are not readable when the sun shines on them.

3.3.4 OVERVIEW OF PROPOSED SYSTEM

1. An Automated Fuel Management System (AFMS) that must include the hardware and software required to manage the fueling for Fulton County's fleet of vehicles and equipment, account for the fuel dispensed, authorize proper fuel dispensing, and provide status reports for Fulton County Management.
2. The hardware provided by the Vendor should include all equipment needed to have a fully functional AFMS. This includes equipment for the fuel islands, vehicles and other equipment, communications up to where it connects to Fulton County's IT infrastructure, and any other equipment not specifically mentioned in this Request for Proposal.
3. The software to be provided by the Vendor should include all data collection programs, fuel island polling, reporting programs, query functionality, and any other program that is needed to properly manage the AFMS. The software should provide for data backup to a CD Writer. The software should be easily configurable to minimize the need for the Vendor's software support or customization.
4. The hardware and software must provide for a fully functioning AFMS that allows Fulton County the ability to capture all necessary data for proper fleet management.
5. The AFMS shall allow for each vehicle to be monitored without user input or intervention, except for certain instances that allow for manual override to fuel non-automated equipment. The Vendor's standard AFMS should automatically capture basic but essential equipment data, such as vehicle id, miles/engine hours, and gallons of fuel dispensed. The enhanced fully automated fuel management system should be able to capture detailed information from the vehicle's or equipment's on board diagnostics port. The installed Vehicle Equipment, Fuel Island and Mobile Fueling Unit equipment should be able to verify authorized vehicles/equipment and dispense fuel accordingly, as well as collect the vehicle/equipment data to be sent to the AFMS server.
6. The Fulton County fleet is comprised of approximately 1500 vehicles which can be fueled at any of the Fulton County fuel sites. The Fulton County fuel sites are detailed below:

3. TESTING REQUIREMENTS

The system will undergo a process of certification, which shall include the following, prior to acceptance by the Fulton County Government:

- A. The proposer shall certify in writing to the County that the application system is completely installed, meets all design requirements, is free of defects, the data conversion is complete, accurate, correct and the total system (application, file building, conversion, back-up and recovery procedures) is ready for operation.

- C. The proposer shall provide documentation and interface specifics on each interface to our existing Fulton County systems.
- D. Upon receipt of the letter of certification from the proposer by Fulton County, a sixty (60) day period of user acceptance testing will commence. User acceptance testing will include an intensive exercise of each component and module of the system simulating a normal workload. This testing will provide assurance that the various components and modules of the system operate as specified. During this period, the system shall demonstrate a total availability of 99.99% or more.
- E. Acceptance Criteria
 - a. The Application Software meets the current published product specifications and documentation;
 - b. The Application Software is capable of running a variety of data on a repetitive basis without failure;
 - c. The Application Software meets the requirements and specifications described in this document and discussed with Contractor during the analysis;
 - d. All Documentation has been delivered and reasonably accurately reflects the operation of the Application Software;
 - e. All specified training has been conducted and accepted by Fulton County.

- F. Once this acceptance testing is complete and Fulton County verifies the acceptable installation, the warranty period will begin.
- G. The system will be considered “unavailable” if any of the following conditions occur:
 - a. Any component or module capability is not available to all active workstations.
 - b. Any feature or specification either required within this document or stated in the manufacturer’s response or literature does not perform as stated.
 - c. Conversion of all existing data files is not complete or is incompatible
 - d. Interface to existing systems has not been completed
 - e. Reporting features are not available
 - f. Training for support and user personnel is incomplete or has not been accepted by the technical designee specified the “Professional Services” section.
- H. In addition, if the system is reloaded in entirety, either manually or automatically, the system will be assumed to be down for one full hour or actual time if greater, per occurrence. Scheduled system reloads will be counted as actual time down only.
- I. In the event that the required level of reliability is not demonstrated at the end of the sixty day period, the County may, completely at its own discretion, allow a period, not to exceed sixty (60) days, during which the Proposer is allowed to correct any deficiencies with the system. If this extension is allowed, the Proposer shall reinitiate certification by submitting a revised letter of certification to the County within the sixty (60) day extension period specifying the corrections made to the system. The certification process described here will then be repeated. This statement of the possibility of extension in no way obligates the County to do so.
- J. Final acceptance will be made after the warranty period begins. This period will be a sixty-day (60) period of on-site post implementation support provided by the proposer to resolve any issues that arise after the system has been placed into production.

3.3.6 TRAINING REQUIREMENTS

The Vendor shall provide a detailed training plan outlining the documentation to be provided, training goal, learning objectives, and learning methods. Training to provide complete support and custom programming and custom reporting will be provided to IT staff. Describe any prerequisite knowledge or skills required. If there are additional costs for this training it shall be clearly identified in the proposal.
2. Additionally, a description of the number and type of staff required to support the system must be provided. The skill sets required of each individual should be included in this description. The description of staffing requirements should include all management, technical and functional areas for the ongoing support of the system. Training should be provided for a minimum of two employees in all support roles. "Train the trainer" methods of instruction will not be accepted.
3. During this training, Fulton County will designate senior technical personnel in each class to evaluate the training provided in order to ensure that the training and the instruction provided is sufficient to provide the necessary knowledge and skills. At the end of the first day of any training class, a signoff must be obtained from this designee in order for the proposer to meet this requirement.

1. Warranty may be defined as the promise or guaranteed that a product or service will meet its agreed requirements. The warranty shall commence upon completion of an

evaluation period of the go-live period. The go-live period is defined as the instance in which the users begin to utilize the software application in a production environment and all testing has been complete and deemed successful.

2. The proposed solution shall be available when needed, in sufficient capacity, and dependable in terms of continuity and security. The proposed solution must have the capability to be highly available which means at a rate of 99.99% based on the agreed upon availability. In the event the proposed solution is unavailable due to a software fault, the time period from system failure to system operational shall be minimum and minimal impact to the users. The Proposer agrees that it will make corrections of the software application malfunctions during the warranty period and which are necessary to ensure usability. Usability may be defined as the ease with which the proposed solution may be used in reference to the agreed requirements. The Proposer agrees that software malfunctions that result in an inoperable system resulting in a financial impact to the County, or inefficient work-around, will be given the highest priority with the problem corrected as soon as practically possible. The Proposer shall strive to have any and all malfunctions resolved within no more than two (2) days.

3.3.9 MAINTENANCE AND SUPPORT

1. In the event, the Proposer fails to provide maintenance and support as agreed, the required pay shall be reduced to reflect such lack of maintenance and support services.

3. The escalation on maintenance shall not increase by no than more 2% of the previous year or CPI (Consumer Price Index), whichever is lower. The renewal of the annual software maintenance will take in consideration the increase in cost from one year to the next. Due to the environment of the County, minimal or no escalation is most feasible.

3.3.10 SOFTWARE LICENSES

1. Fulton County shall be charged the original published rate at the time of purchase for licenses fees for the duration of the contract which shall include any subsequent renewals of the contract. The fixed rate shall be applied to the renewal of licenses purchased during the initial contract as well as those that are purchased in addition to original licenses. The cost paid in initial contract, the cost as posted in published fee schedule, or the cost as listed on sate contract, whichever is lesser amount.
2. If the County shall purchase licenses for the utilized of the proposed solution in a production environment, the County shall have access to additional licenses for utilization in non-production environments at no additional cost. The non-production environment may consist of the following: (1) test environment, (2) training environment, (3) development environment, and (4) back-up or disaster recovery; whichever environment is applicable. In the event of the aforementioned item (4), the Proposer shall provide to the County a copy of the contract of terms and conditions outlining the agreement between the Proposer and the 3rd party. The terms and conditions which shall be provided are in respect to any entity (i.e., Fulton County Government) that has a legal binding agreement with the Proposer.
4. The Proposer shall deposit a copy of the source code in escrow with its Escrow Agent. The Proposer shall provide information in reference to the Escrow Agent at the time the RFP is awarded. The information to be provided in reference to the Escrow Agent shall include the point of contact, company name, address, and telephone number. The Proposer shall also provide the annual escrow statement from the escrow holder.

The Vendor shall configure and provide configuration instructions that shall be made to the software application to ensure the user's requirements are fulfilled. Any modifications that may be required to meet the user's requirements shall be clearly identified as a configurable option or customization to the code. It highly recommended the minimum or no customization be performed at the code level. However, if the aforementioned scenario can not be avoided, the vendor must include the impact of the customization in terms of initial cost, ongoing maintenance and support, and upgrades. The Vendor shall provide test cases for the modules, system, and users. The output of this phase should include the following documentation:

This entails the completion of user acceptance testing as well as software specific testing. The user acceptance testing will include the successful testing of the user requirements as outlined in this document as well as those identified in the requirements gathering phase of the project. The software testing will include performance testing for each unit as well as the integration into various software modules. The software testing may also include the testing of integration with external applications. Successful execution of the test application is a prerequisite to acceptance of the software application by the customer. The output of this phase should include the following documentation:

- A. Test cases including results and person(s) who performed test
- B. Sign-off for acceptance of test cases

3.3.19 OPERATION AND MAINTENANCE

SECTION 6 CONTRACT COMPLIANCE REQUIREMENTS

6.1 NON-DISCRIMINATION IN CONTRACTING AND PROCUREMENTS

It is the policy of Fulton County Government that discrimination against businesses by reason of the race, color, gender or national origin of the ownership of any such business is prohibited. Furthermore, it is the policy of the Board of Commissioners ("Board") that Fulton County and all vendors and contractors doing business with Fulton County shall provide to all businesses the opportunity to participate in contracting and procurement paid, in whole or in part, with monetary appropriations of the Board. Similarly, it is the policy of the Board that the contracting and procurement practices of Fulton County should not implicate Fulton County as either an active or passive participant in the discriminatory practices engaged in by private contractors or vendors seeking to obtain contracts with Fulton County.

Equal Business Opportunity Plan (EBO Plan): In addition to the proposal submission requirements, each vendor **must** submit an Equal Business Opportunity Plan (EBO Plan) with their bid/proposal. The EBO Plan is designed to enhance the utilization of a particular racial, gender or ethnic group by a bidder/proposer, contractor, or vendor or by Fulton County. The respondent **must** outline a plan of action to encourage and achieve diversity and equality in the available procurement and contracting opportunities with *this solicitation*.

The Plan **must** identify and include:

1. Potential opportunities within the scope of work of *this solicitation* that will allow for participation of racial, gender or ethnic groups. (Ex: subcontracting, joint venturing, etc.)
2. Efforts that will be made by the bidder/proposer to encourage and solicit minority and female business utilization in *this solicitation*. (Ex: media solicitation directed to M/FBEs, contacting Fulton County certified M/FBEs listed in the M/FBE Directory, etc.)

Fulton County encourages joint ventures, teaming, partnering and mentor-protégé relationships with minority and female businesses in an effort to achieve contracting and procurement diversity.

Prompt Payment: The prime contractor **must** certify in writing and **must** document on the Exhibit G Form (Prime Contractor/Subcontractor Utilization Report) that all subcontractors, sub-consultants and suppliers have been promptly paid for work and materials, (less any retainage by the prime contractor prior to receipt of any further progress payments). In the event the prime contractor is unable to pay subcontractors, sub-consultants or suppliers until it has received a progress payment from Fulton County, the prime contractor shall pay all subcontractors, sub-consultants or suppliers funds due from said progress payment within forty-eight (48) hours of receipt of payment from Fulton County. In no event shall a subcontractor, sub-consultant or supplier be paid later than fifteen (15) days as provided for by state law.

6.2 REQUIRED FORMS AND EBO PLAN

In order to be compliant with the intent and provisions of the Fulton County Non-Discrimination in Purchasing and Contracting Ordinance (99-0960), bidders/proposers **must** submit the following completed documents. Failure to provide this information **shall** result in the proposal being deemed non-responsive.

- Exhibit D – Letter of Intent to Perform as a Subcontractor or Provide Materials or Services
- Exhibit E – Declaration Regarding Subcontractors Practices

The following document must be completed as instructed if awarded the project:

- Exhibit G – Prime Contractor's Subcontractor Utilization Report

All Contract Compliance documents (Exhibits A – F and EBO Plan) are to be placed in a **separate sealed envelope** clearly marked "Contract Compliance". The EBO Plan must be submitted on company letterhead. These documents are considered part of and should be submitted with the Technical Proposal.
