Line Number	Lot Code	Item Description	Purchase Unit	Previous Unit Price (\$)	Sample Req'd
1		BACKHOE BUCKET WITH INSTALLATION (Helac : Power Grip)	1 - 1.0000 Each Purchase		No
Item Notes: • Helac Power Grip or equal. • 24 inch multi-purpose backhoe bucket with hydraulically activated gripping clam. • Bucket shell shall contain no moving parts or obstructions. • Clam speed and torque shall be constant through entire range of movement. • Bucket clam position shall be 4 times the hydraulic clamping force. • Integral load holding valve with overload protection. • Bucket must be sized according to the bucket manufacturer's specifications for installation on a Komatsu WB150-PS-2N. • The Komatsu WB150-PS-2N is not equipped with a 2-way hydraulic auxiliary tool circuit. The circuit shall be provided by the vendor. • All mounting hardware shall be included. • Shall include Hydraulic Kit for Rear Hydraulics. • Installation of bucket and hydraulics on a Komatsu WB150-PS-2N shall be included. The vendor will be responsible for all costs associated with pickup of Komatsu, full installation, and return delivery to Custer State Park. These associated costs must be included in the bid price.
