1.0 INFORMATION FOR BIDDERS

1.1 Purpose and Intent of the Procurement

1.1.1 Purpose

This Invitation for Bid (IFB) is being issued by the University of Medicine and Dentistry of New Jersey (UMDNJ), Department of Purchasing Services on behalf of the University.

The purpose of this IFB is to enter a contract for the supply of biomedical and scientific research equipment, reagents, and supplies.

1.1.2 Intent

It is the University's intent to make an award consistent with the University's needs to provide biomedical and scientific research equipment, reagents, and supplies to the University.

Note: The issuance of an agreement does not guarantee an anticipated level of work between UMDNJ and the Contractors.

1.2 Background

The UMDNJ biomedical and scientific research enterprise is a strong and academically diverse force in the State of New Jersey. Basic, translational and clinical biomedical research is being performed at sites across New Jersey on the various campuses of UMDNJ.

The approximately 2000 research laboratories at UMDNJ are led by principal investigators who have faculty appointments in a number of academic departments at the New Jersey Medical School, New Jersey Dental School, Robert Wood Johnson Medical School, Cancer Institute of New Jersey, the New Jersey Medical School-University Hospital Cancer Center, the International Center for Public Health, and the School of Public Health.

Areas of biomedical research excellence include Cancer Research, Stem Cell Research, Neuroscience, Brain and Spinal Cord Injury, Epidemiology, Signal Transduction, Pharmacology, Physiology, Biochemistry, Microbiology, Molecular Biology, Molecular Genetics, Biostatistics, Immunology and Infectious Disease.

In order to support these areas of research, individual principal investigators must purchase reagents, supplies and equipment that are essential for their individual research programs. These reagents, supplies and instruments are often highly specific to the needs of the individual research programs, and the needs are as diverse as the areas of research at UMDNJ.

Thus, a wide range of research reagents, supplies and equipment supplied from a broad group of life sciences vendors must be available for purchase by UMDNJ researchers. The University laboratories collectively spend approximately 22 (this number seems low if we are including equipment, reagents, supplies) million dollars in research reagents, supplies and instrumentation per annum, and with our University's research funding portfolio expanding on an annual basis, this is likely to proportionally increase.

1.3 Key Events

1.3.1 Questions and Inquiries

It is the policy of the UMDNJ, Purchasing Services to accept questions and inquiries from all potential bidders receiving this IFB.

Written questions should be mailed or faxed to the UMDNJ, Purchasing Services to the attention of the assigned buyer at the following address:

The bidder assumes sole responsibility for the complete effort required in this IFB. No special consideration shall be given after bids are opened because of a bidder's failure to be knowledgeable of all the requirements of this IFB. By submitting a proposal in response to this IFB, the bidder represents that it has satisfied itself, from its own investigation, of all the requirements of this IFB.

All information submitted by bidders in response to a bid solicitation is considered public information, except as may be exempted from disclosure by the Open Public Records Act, N.J.S.A. 47:1A-1 et seq. and the common law.

A bidder may designate specific information as not subject to disclosure when the bidder has a good faith legal/factual basis for such assertion.

UMDNJ reserves the right to make the determination and will advise the bidder accordingly.

The location in the bid proposal of any such designation should be clearly stated in a cover letter.

UMDNJ will not honor any attempt by a bidder either to designate its entire bid proposal as proprietary and/or to claim copyright protection for its entire proposal. The bidder will be required to withdraw such designation before the bid proposal will be considered for contract award.

In the event of a challenge to the bidder's designation of confidentiality/proprietary materials, the bidder shall be solely responsible for defending its designation and UMDNJ shall have no responsibility therefore.

1.4.7 Price Alterations

Bid prices must be typed or written in ink. Any price changes (including "white-outs") must be initialed. Failure to initial price changes may preclude an award being made to the bidder.

Authorized signatories from each party comprising the joint venture must sign the bid proposal. A separate Ownership Disclosure Form, Affirmative Action Employee Information Report, MacBride Principles Certification and, if applicable, foreign (out of State) corporate registration must be supplied for each party to the joint venture.

1.4.9 HIPAA Compliance

As a State Agency, New Jersey State regulations require that we obtain documentation regarding our vendor "HIPAA Compliance" status. In order to be in compliance and conduct business with your company for the procurements of goods and/or services, it will be necessary for your company to complete a Business Associate Agreement. This agreement involves the access to protected health information that is considered protected pursuant to federal, state and/or local laws and regulations in accordance with the privacy requirements of the "HIPAA" – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

1.4.10 Business Registration Notice

All New Jersey and out of State business organizations must obtain a Business Registration Certificate (BRC) from the Department of the Treasury, Division of Revenue, prior to conducting business with the State of New Jersey. Proof of valid business registration must be submitted by a bidder with its bid proposal. Failure to submit such valid business registration with a bid will render the bid materially non-responsive. The business registration form (Form NJ-REG) can be found online at <http://www.state.nj.us/treasury/purchase/busreg.htm>.

1.4.10.1 Definitions

To this end, UMDNJ maintains a vigorous compliance program geared in part to educating our community on the range of fraud and abuse laws, including the importance of submitting accurate claims and reports to the Federal and State governments. Our policies prohibit the knowing submission of a false claim for payment in relation to any health care program, including a Federal or State funded health care program. Such a submission is a violation of Federal and State law and can result in significant administrative and civil penalties under the Federal and State False Claims Acts.

To assist UMDNJ in meeting its legal and ethical obligations, any employee, contractor or agent who is aware of the preparation or submission of a false claim or report or reasonably suspects any other potential fraud, waste, or abuse in relation to a Federal or State funded health care

program is required to report such information to his or her supervisor and UMDNJ's Office of Ethics and Compliance. Any employee of UMDNJ who in good faith reports such information will be protected against retaliation for coming forward with such information both under UMDNJ's internal compliance policies and procedures and United States and New Jersey law. As an organization, UMDNJ obligates itself to investigate any such information swiftly and thoroughly through its internal compliance programs and mechanisms. Nonetheless, if an employee, contractor or agent believes that the organization's response is deficient and unresponsive, the employee shall bring these concerns to UMDNJ's Office of Ethics and Compliance. If such follow-up still does not trigger an investigation, after a reasonable period of time, the employee, contractor or agent has the ability to bring his/her concerns to the appropriate government agency under the relevant Federal and/or State laws.

This information shall be provided to all UMDNJ employees and all contractors and agents of UMDNJ.

Should the bidder anticipate bringing pre-existing intellectual property into the project, the intellectual property must be identified in the bid proposal. Otherwise, the language in the first paragraph of this section prevails. 5.0 PROPOSAL PREPARATION AND SUBMISSION INSTRUCTIONS

5.1 General

The bidder must follow instructions contained in this IFB and in the bid cover sheet in preparing and submitting its bid proposal. The bidder is advised to read thoroughly and to follow all instructions.

The information required to be submitted in response to this IFB has been determined to be essential in the bid evaluation and contract award process. Any qualifying statements made by the bidder to the IFB's requirements could result in a determination that the bidder's proposal is materially non-responsive. Each bidder is given wide latitude in the degree of detail it elects to offer or the extent to which plans, designs, systems, processes and procedures are revealed. Each bidder is cautioned, however, that insufficient detail may result in a determination that the bid proposal is materially non-responsive or, in the alternative, may result in a low technical score being given to the bid proposal.

The bidder is instructed to clearly identify any requirement of this IFB that the bidder cannot satisfy.

5.2 Proposal Delivery and Identification

In order to be considered a bid proposal must arrive at the Department of Purchasing Services in accordance with the instructions on the IFB cover sheet. Bidders submitting proposals are cautioned to allow adequate delivery time to ensure timely delivery of proposals. UMDNJ regulations mandate that late proposals are ineligible for consideration. The exterior of all bid proposal packages must be labeled with the Invitation for Bid identification number, final bid opening date and the buyer's name.

5.3 Number of Bid Proposal Copies

Each bidder must submit one (1) complete original bid proposal, clearly marked as the "ORIGINAL" bid proposal. Each bidder should also submit **six (6) full, complete and exact copies of the original**, clearly marked as "COPY". The copies required are necessary in the evaluation of the bid. It is suggested that the bidder make and retain a complete copy of its bid proposal.

5.4 Proposal Form and Content

The proposal should follow the format indicated in the Sections of this IFB. The bidder should limit their response to one volume, if at all possible, with that volume divided into three (3) sections as indicated below.

5.5 Section 1 – Forms

The following forms are required with bidder's proposal and shall be submitted with bidder's proposal:

5.5.1 Ownership Disclosure Form

The bidder must complete the attached Ownership Disclosure Form. A complete Ownership Disclosure Form must be received prior to, or accompanying, the bid. Failure to do so will preclude the award of a contract.

5.5.2 Business Registration Notice

All New Jersey and out of State business organizations must obtain a Business Registration Certificate (BRC) from the Department of the Treasury, Division of Revenue, prior to conducting business with the State of New Jersey. Proof of valid business registration must be submitted by a bidder with its bid proposal. Failure to submit such valid business registration with a bid will render the bid materially non-responsive. The business registration form (Form NJ-REG) can be found online at:

<http://www.state.nj.us/treasury/revenue/gettingregistered.htm#busentity>

The following forms are required before Contract award and may be submitted with bidder's proposal:

5.5.3 Affirmative Action

The bidder must complete the attached Affirmative Action Employees Information Report, or, in the alternative, supply either a New Jersey Affirmative Action Certificate, or evidence that the bidder is operating under a federally approved or sanctioned affirmative action program. The requirement is a precondition of entering into a valid and binding contract.

5.5.4 Business Associate Agreement

The bidder must complete the attached Business Associate Agreement, involving the access to protected health information that is considered protected pursuant to federal, state and/or local laws and regulations in accordance with the privacy requirements of the "HIPAA" – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

5.5.5 Executive Order 117 Compliance and Certification

Effective November 15, 2008, all UMDNJ contractors are required to comply with Executive Order 117. In the early Fall of 2008, Governor Jon S. Corzine signed Executive Order No. 117, which is designed to enhance New Jersey's efforts to protect the integrity of government contractual decisions and increase the public's confidence in government. The Executive Order builds on the provisions of P.L. 2005, c. 51 ("Chapter 51"), which limits contributions to certain political candidates and committees by for-profit business entities that are, or seek to become, State government vendors.

Bidders should submit the Executive Order 117 Certification with their bid proposal. If the bidder fails to submit the Executive Order 117 Certification, the bidder, if selected for contract award, must submit and comply with Executive Order 117 requirements before the contract award can be finalized. The Executive Order 117 Certification with instructions may be found on the UMDNJ Purchasing Services Department's website at: <http://www.umdj.edu/purchweb/vendors/index.htm>

5.6 Section 2 - Technical and Organizational Support and Experience Proposals

5.6.1 Catalogs

The bidder must submit current catalogs with the bidder's proposal.

The catalogs must detail, at a minimum, Product Description, Product Number, and List Price.

Failure to submit this information with the Bid Proposal shall be cause for automatic rejection of the bid proposal.

5.6.2 Material Safety Data Sheets

The bidder must furnish material safety data sheets (MSDS), or manufacturers' equivalent information sheets, on the products and/or chemicals used in performing the services specified in this IFB with the bidder's bid proposal. These sheets must list complete chemical ingredients including the percentage composition of each ingredient in the mixture down to 0.1%, the chemical abstract services numbers for those substances listing any potentially hazardous products which may produce gas during or following application. Failure to supply this information will result in rejection of the bid proposal for that particular product(s).

5.6.3 Brand Name or Functional Equivalent

Products offered must be in accordance with the brand/model(s)/Types specified within their catalog, or they must be a "functional equivalent". A bidder offering a "functional equivalent" may, at the University's option, be required to submit a bid sample for evaluation and testing. The bidder must submit bid samples within ten (10) working days following a request from the University. Bid samples will not be returned. The University will conduct laboratory tests to assure that the bid samples submitted conform to bid specifications. The University reserves the right to perform any tests necessary to assure that the bid samples conform to specifications and requirements. The testing results of the University are final.

Bidders must submit their technical and organizational support and experience proposals by fully and accurately completing the Bidder Data Sheets included in this IFB as Section 7.0.

A bidder's failure to fully, properly and accurately complete all of the technical proposal and organizational support and experience information required by Section 7.0 of the IFB may result in their bid being non-responsive.

5.7 Section 3 - Cost Proposal

Bidders must submit their cost proposal in accordance with the Price Sheet(s) included in this IFB as Section 8.0. The Bidder's stated discount percentage must remain firm for each year of the contract and must include, but not limited to, shipping & handling, as well as packaging and ice when applicable.

Failure to submit all information required will result in your bid being considered non-responsive. Each bidder is requested to hold its prices firm for a minimum of ninety (90) days so that an award can be made.

5.7.2 Each bidder should also provide a comprehensive listing, if applicable, of all labor categories that may be used to perform additional work and/or special projects or according to the additional work and/or special project clause(s) of this IFB. Loaded hourly rates are to be submitted for all labor categories that the bidder anticipates may be required to perform additional work and/or special projects.

Failure to include a labor category along with a loaded hourly rate will exclude that category from eligibility to perform additional work and/or special projects under the contract resulting from this IFB. Each bidder may submit labor categories for additional work that are not included in the base proposal to perform the Scope of Work required by this IFB.

Each bidder may also submit any additional price or cost information that the bidder feels may be required to perform any additional work and/or special projects required by this IFB.

ONLY price and costing information provided by the bidder in its original bid proposal submitted in response to this IFB may later be used for additional work and/or special projects to be paid against the contract resulting from this IFB.

5.7.3 The bidder's signature on the cover of this IFB guarantees that prices set forth within the manufacturer's preprinted price lists and/or catalogs will govern for the period of the contract, unless otherwise provided in this RFP. The bidder also acknowledges that, notwithstanding any reference to price escalation clauses, FOB shipping point, and shipping charges contained in the preprinted price lists, catalogs, and/or literature, such references shall not be part of any contract awarded as a result of this IFB.

6.0 PROPOSAL EVALUATION AND CONTRACT AWARD

6.1 Evaluation Committee

Bids may be evaluated by an Evaluation Committee composed of members of affected departments together with representative(s) from the Department of Purchasing Services. Representatives from other governmental agencies may also serve on the Evaluation Committee. On occasion, the Evaluation Committee may choose to make use of the expertise of an outside consultant in an advisory role.

6.2 Oral Presentation and/or Clarification of Bids

A bidder may be required to give an oral presentation to the Evaluation Committee concerning its bid proposal. The Evaluation Committee may also require a bidder to submit written responses to questions regarding its bid.

The purpose of such communication with a bidder, either through an oral presentation or a letter of clarification, is to provide an opportunity for the bidder to clarify or elaborate on its bid. The original bid, as submitted, however, cannot be supplemented, changed, or corrected in any way during the evaluation process. No comments regarding other bids are permitted. Bidders may not attend presentations made by their competitors.

It is within the Evaluation Committee's discretion whether to require a bidder to give an oral presentation or require a bidder to submit written responses to questions regarding its bid. Action by the Evaluation Committee in this regard should not be construed to imply acceptance or rejection of a bid. The Purchasing Services' buyer is the sole point of contact regarding any request for an oral presentation or written clarification.

6.3 Evaluation Criteria

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate bid proposals received in response to this IFB. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process.

6.3.1 The quality of the goods proposed.

6.3.2 The bidder's documented experience in successfully providing goods of a similar nature to those required by this IFB.

6.3.3 The overall ability of the bidder successfully provide the goods required by this IFB.

6.4.1 The Vice President of Supply Chain may obtain any information determined to be appropriate regarding the ability of the bidder to supply and/or render the service required by this IFB.

6.4.2 The Vice President of Supply Chain may consider such other factors that, in the opinion of the Director of Purchasing Services, are important in evaluating the bidder's proposal and awarding contracts as determined to be in the best interest of the University.

- 6.4.3. The University reserves the right to request all bidders to explain the method used to arrive at any or all cost or pricing figures.
- 6.4.5 The University reserves the right to check the bidder's financial capacity and ability to successfully undertake and complete the services required by this IFB by any means deemed appropriate.
- 6.4.6 The University reserves the right to conduct site inspections of any facility(s) serviced by the bidder(s) to assist in judging the bidder's ability to provide the services required by this IFB. This applies to all facilities services by the bidder or any sub-contractor to the bidder.

This right extends to all facilities of which the University is aware, or about which it becomes aware, that the bidder is servicing, whether or not the facility is listed in the bidder's proposal.

6.5 Contract Award

The contract shall be awarded with reasonable promptness by written notice to that responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to UMDNJ, price and other factors considered. Any or all bids may be rejected when the Director of Purchasing Services determines that it is in the public interest to do so.

6.6 Bidder's Right to Challenge a Contract Award

Except in cases of emergency, bidders have the right to protest a proposed contract award.

A bidder's protest must be submitted to the buyer of record with a copy to the Vice President of Supply Chain Management ("Vice President") within ten (10) days of receipt of notice to the bidder that it did not receive a contract award for its submitted bid proposal or notice that an award had been made to another bidder. The protest period may be shortened by the Vice President of Supply Chain Management. If the protest period is shortened or a protest period is not authorized due to emergency, all bidders will receive notice of the shortened protest period or emergency in the notice sent to bidder on the award of the contract.

Notices of Contract award under this section may be faxed, e-mailed, sent by regular mail or by any other means, excluding telephonic communication, conducive to transmitting the notice. If notice is sent by regular mail, the recipient is deemed to have received the notice three (3) days after mailing.

If a bidder files a protest to a contract award under this section, the bidder must set forth in writing with specificity the basis of the protest. At the time of the protest filing, the bidder must also submit all documentation supporting the basis of the protest. Failure to comply with these requirements may lead to rejection of the protest and UMDNJ award of the contract.

The protest will be reviewed and addressed with reasonable promptness. If deemed necessary by Vice President, a hearing may be held on the merits of the protest. In all cases, the Vice President will notify the bidder of the final determination on the protest.

SUPPLIER DIVERSITY AND VENDOR DEVELOPMENT PROGRAM
DIVERSITY VENDOR POLICY/REQUIREMENTS

I. PURPOSE

To outline goals and action plans to support and enhance the University's vendor base toward eradicating racial, ethnic, and gender discrimination from society at large through the New Jersey Set-Aside Program.

II. DEFINITIONS

Vendor Diversity Program - The University's commitment to ensure that a fair percentage of the total purchases for supplies, equipment, services, and construction is placed with, small businesses which include minority and women-owned businesses. The University has established a 25 percent goal for Small Businesses.

Small Businesses - A small business is now defined as having its principal place of business in New Jersey, gross annual revenues of \$12 million or less and no more than 100 full time employees.

A. New Jersey Business – this may be calculated in one of two ways:

- 1) 51% or more of its employees work in New Jersey as evidenced by payment of New Jersey unemployment taxes; or
- 2) 51% or more of its business activities take place in New Jersey as evidenced by payment of New Jersey income/business taxes.

B. 100 or fewer employees – a sole proprietorship, partnership or corporation having 100 or fewer employees, not including seasonal and part-time employees who work less than 90 days annually, if seasonal and part-time employees are normal to the industry. This does not include a consultant engaged by the business for work to be performed on a contract not related to the contract for which the small business is seeking eligibility.

C. Gross annual revenues may not exceed \$12 million.

Construction Contract - any contract involving any construction, renovation, reconstruction, rehabilitation, alteration, conversion, extension, demolition, repair or other changes or improvements of any kind whatsoever of any structure or facility. The term also includes the supervision, inspection and other on-site functions incidental to actual construction.

III. **IMPLEMENTING DOCUMENT**

A. Requirements:

1. General Guidelines:

- a. As part of its Supplier Diversity Program encompassing small businesses, the University is committed to actively and affirmatively seek diverse business relations. The goal is to ensure that an equitable portion of the University's total purchases for construction, goods, equipment and services is placed with diverse businesses. Vendors are to complete the Sub-Contractor Utilization Report in order to comply with target goals set by the University.
- b. All academic, healthcare and administrative units of the University are encouraged to consider vendor diversity in their purchases.

2. UMDNJ Vendor Diversity Program Goals and Targets:

A total of 25% of all contracts should be awarded to registered small businesses; which include minorities and women:

- 10% to firms whose gross annual revenues do not exceed \$500,000
- 10% to firms whose gross annual revenues do not exceed \$5 million
- 5% to firms whose gross annual revenues do not exceed \$12 million

A small business may be registered in one of three categories, based upon its annual gross revenues. These categories are:

- up to \$500,000
- up to \$5 million
- up to \$12 million

3. **Program Requirements**

Public contracting entities are now subject to meeting a 25% minimum overall goal collectively for the three categories of small business.

4. New Reporting Requirement

Public contracting authorities must now report annually on their outreach efforts.

5. Important Process Change

In order to be eligible to bid as a small business, a firm must now be registered as a small business as of the date of the bid opening. This is a change from previous requirements, which required a firm to have submitted an application one-day prior to bid opening.

6. Other UMDNJ Policies and Procedures:

The UMDNJ Vendor Diversity Program requirements shall apply to all other policies and procedures of the UMDNJ Department of Purchasing Services.

B. Responsibilities

All departments are responsible for integration of supplier diversity into their operations.
