

PORT OF SAN FRANCISCO
CITY AND COUNTY OF SAN FRANCISCO

REQUEST FOR PROPOSALS ANNOUNCEMENT

Civil and Coastal Engineering Design Services for Mission Bay Shoreline Protection
for the Bayfront Park Project

The Port of San Francisco invites qualified design teams to provide professional engineering and related design services to rebuild approximately 1000 linear feet of bay shore and slope. Services to be provided include geotechnical, coastal, civil, structural, Environmental Permitting Support (Army Corps and Regional Water Quality Control Board), and other disciplines as required. The design team's expertise must be sufficiently comprehensive to assure a cost effective design that meets the project objective, maximizing the public benefit. The Port will not provide supplies, equipment, materials or support services (including boats or coordination) for the completion of this work.

The contract awarded from this RFP is funded by the City and County of San Francisco "Clean & Safe Neighborhood Parks Bond". This work is necessary to pave the way for the development of the proposed future "Mission Bay Bayfront Park"; located in San Francisco's Mission Bay area, east of Terry Francois Boulevard. It will rebuild approximately 1000 linear feet of bay shore and slope from Pier 52 Parking Lot to Agua Vista Park, to allow the Mission Bay Bayfront Park to be constructed to the water edge. The Mission Bay Bayfront Park will be developed by Prologics/Catellus Development Group (Catellus).

The project includes demolition and removal of existing unstable shore structures, repair of existing seawall, and construction of a stable shore slope with rip rap on top for wave protection. Subject to the \$2.2 million construction budget, the project proposes to include three to four lookouts along the shoreline. The contract will have an original term of three years.

THE RFP PACKAGE CAN BE OBTAINED ON THE CITY'S WEBSITE AT:

<http://www.ci.sf.ca.us/purchase/> (Bids and Contracts page)

If necessary, the Port will issue proposal changes, including proposal due dates by posting such information to the above website.

Tentative Schedule

RFP is advertised and issued by the City/Port

February 19, 2009

Mandatory Pre-proposal Conference & Site Visit
