1.1.1 Purpose

This Request for Proposal (RFP) is being issued by the University of Medicine and Dentistry of New Jersey (UMDNJ), Department of Purchasing Services on behalf of the New Jersey Dental School.

The purpose of this RFP is to enter a contract for the supply of Cone Beam Computed Tomography Scanner together with related installation, warranty, training and ongoing maintenance.

1.1.2 Intent

1.2 Background

CBCT was introduced in the U.S. market about a decade ago and since underwent refinement both in the technology as well as the radiation reduction strategies. It has become an essential tool in all aspects of dentistry including implants, Orthodontics, Prosthodontics, Orofacial pain, TMJ evaluation and Oral surgery. CBCT brought a tremendous improvement over the traditional 2D imaging in our abilities to identify structures, visualize them and measure them. New Jersey Dental School, in order to fulfill its educational, service and research missions, should be able to take advantage of this technology.

The Department of Diagnostic Sciences, Division of Oral and Maxillofacial Radiology, has experience in all aspects of imaging including selection, technique and interpretation of images with a long history of providing both service and education to the NJDS students. Our faculty and staff are well versed and published in the latest technology in imaging including the Cone Beam CT. The faculty has experience in using the CBCT technology and interpreting the images. The departmental staff members, who are certified dental assistants and certified dental radiology technologists have embraced the new technologies such as digital intraoral imaging and digital panoramic imaging.

The Vice President of The Office of Supply Chain Management's final decision shall be deemed a final agency action reviewable by the Superior Court of New Jersey, Appellate Division.

All claims asserted against UMDNJ by the Contractor shall be subject to the New Jersey Tort Claims Act, N.J.S.A. 59:1-1, et seq., and/or the New Jersey Contractual Liability Act, N.J.S.A. 59:13-1, et seq.

However, any claim against UMDNJ relating to a final decision by the Vice President of The Office of Supply Chain Management regarding contract award rescission, contract interpretation, Contractor performance and/or contract reduction, suspension or termination shall not accrue, and the time period for performing any act required by N.J.S.A. 59:8-8 or 59:13-5 shall not commence, until a decision is rendered by the Superior Court of New Jersey, Appellate Division (or by the Supreme Court of New Jersey, if appealed) that such final decision by the Vice President of The Office of Supply Chain Management was improper.

4.15.2 Remedies

Nothing in the contract shall be constructed to be a waiver by UMDNJ of any warranty, expressed or implied, or any remedy at law or equity, except as specifically and expressed stated in writing executed by the Vice President of The Office of Supply Chain Management.

4.16 **Form of Compensation and Payment**

4.16.1 The Contractor must submit invoices to UMDNJ with supporting documentation evidencing that work for which payment is sought has been satisfactorily completed. Invoices must reference the contract or purchase order number and must be in strict accordance with the firm, fixed prices submitted for each task or subtask on the RFP pricing sheet. When applicable, invoices should reference the appropriate RFP price sheet line number from the Contractor's bid proposal. All invoices must be approved by UMDNJ before payment will be authorized.

4.16.2 UMDNJ will issue payment for goods and services within forty-five (45) days of the receipt and acceptance of goods and services by the using department, whichever is later. Vendors shall not submit an invoice to Accounts Payable until the vendor receives a Purchase Order from UMDNJ for the goods and services. Vendors shall also not date an invoice that is before the date the Purchase Order is issued by UMDNJ.

Vendors may propose a discount for payments made before the 45 day period. UMDNJ may exercise the discretion to take advantage of such early payment terms.

4.16.3 Payment for Special Projects/Additional Work

Invoices must also be submitted for any special projects, additional work or other items properly authorized and satisfactorily completed under the contract. Invoices shall be submitted according to the payment schedule agreed upon when the work was authorized and approved. Payment can only be made for work when it has received all required written approvals and has been satisfactorily completed.

4.17 Additional Work and/or Special Projects

The Contractor shall not begin performing any additional work or special projects without first obtaining written approval from the Vice President of The Office of Supply Chain Management.

In the event that the need for additional work and/or a special project arises, UMDNJ will submit such a request to the Contractor in writing. The Contractor must present a written proposal to perform the additional work/special project to UMDNJ. The proposal should provide justification for the necessity of the additional work/special project. The relationship between the additional work/special project being requested and the work required by the Contractor under the base contract must be clearly established by the Contractor in its proposal for performing the additional work/special project. The Contractor's written proposal must provide a detailed description of the work to be performed, broken down by task and subtask. The proposal should contain details on the level of effort, including hours, labor categories, etc., necessary to complete the additional work.

The written proposal must detail the cost necessary to complete the additional work in a manner consistent with the contract. The written cost proposal must be based upon the hourly rates, unit costs or other cost elements submitted by the Contractor in the Contractor's original bid proposal submitted in response to this RFP. Whenever possible, the cost proposal should be a firm, fixed cost for performing the required work. The firm fixed price should specifically reference and be tied directly to costs submitted by the Contractor in its original bid proposal. A payment schedule, tied to successful completion of tasks and subtasks, must be included.

Upon receipt of the Contractor's written proposal, it shall be forwarded to the Vice President of The Office of Supply Chain Management for written approval. Complete documentation from the using agency, confirming the need for the additional work/special project, must be submitted.

No additional work and/or special project may commence without the Vice President of The Office of Supply Chain Management's written approval. In the event the Contractor proceeds with additional work and/or special projects without the written approval of the Vice President of The Office of Supply Chain Management, it shall be at the Contractor's sole risk. UMDNJ shall be under no obligation to pay for work done without the Vice President of The Office of Supply Chain Management's written approval.

4.18 Option to Reduce Scope of Work

UMDNJ has the option, in its sole discretion, to reduce the scope of work for any task or subtask called for under this contract. In such an event, the Vice President of The Office of Supply Chain Management shall provide advanced, written notice to the Contractor.

Upon receipt of such written notice, the Contractor will submit, within five (5) working days to the Vice President of The Office of Supply Chain Management, an itemization of the work effort already completed by task or subtasks. The Contractor shall be compensated for such work effort according to the applicable portions of its cost proposal.

4.19 Suspension of Work

The Vice President of The Office of Supply Chain Management may, for valid reason, issue a stop order directing the Contractor to suspend work under the contract for a specific time. The Contractor shall be paid until the effective date of the stop order. The Contractor shall resume work upon the date specified in the stop order or upon such other date as the Vice President of The Office of Supply Chain Management may thereafter direct in writing. The period of suspension shall be deemed added to the Contractor's approved schedule of performance. The Vice President of The Office of Supply Chain Management and the Contractor shall negotiate and equitable adjustment, if any, to the contract price.

4.20 Changes in Law

Whenever an unforeseen change in applicable law or regulation affects the services that are the subject of this contract, the Contractor shall advise the Vice President of The Office of Supply Chain Management in writing and include in such written transmittal any estimated increase or decrease in the cost of its performance of the services as a result of such change in law or regulation. The Vice President of The Office of Supply Chain Management and the Contractor shall negotiate an equitable adjustment, if any, to the contract price.

4.22 Performance Bond

No performance bond is required under this contract.

4.23 Late Delivery and Liquidated Damages

Not applicable under this contract.

4.24 Requirements of PL 2005, Chapter 51/ Executive Order 117 Vendor Certification and Disclosure of Political Contributions

In order to safeguard the integrity of State government procurement by imposing restrictions to insulate the award of State contracts from political contributions that pose the risk of improper influence, purchase of access, or the appearance thereof, Public Law 2005, c.51, was signed into law on March 22, 2005. On September 24, 2008, Governor Corzine issued Executive Order 117, which is designed to enhance New Jersey's efforts to protect the integrity of procurement decisions and increase the public's confidence in procurement. The Executive Order builds upon the provisions of Chapter 51. Pursuant to the requirements of Public Law 2005, c.51, and Executive Order 117, all bidders must submit the Two-Year Chapter 51/Executive Order 177 Vendor Certification and Disclosure of Political Contributions prior to contract award. See Section 9 of this RFP for the certification form. The form and instructions for completion of the form may be found at http://umdnj.edu/purchweb/employees/employ36_forms_policies.htm .

4.24.1 State Treasurer Review

The State Treasurer or his designee shall review the Disclosures submitted pursuant to this section, as well as any other pertinent information concerning the contributions or reports thereof by the intended awardee, prior to award, or during the term of the contract, by the Contractor. If the State Treasurer determines that any contribution or action by the Contractor constitutes a breach of contract that poses a conflict of interest in the awarding of the contract under this solicitation the State Treasurer shall disqualify the Business Entity from award of such contract.

4.25 New Jersey Election Law Enforcement Commission Requirement

The Contractor is advised of its responsibility to file an annual disclosure statement on political contributions with the New Jersey Election Law Enforcement Commission (ELEC), pursuant to N.J.S.A. 19:44A-20.13 (P.L. 2005, c.271, section 3) if the Contractor receives in excess of \$50,000 from a public entity in a calendar year. It is the Contractor's responsibility to determine if filing is necessary. Failure to so file can result in the imposition of financial penalties by ELEC. Additional information about this requirement is available from ELEC at 888-313-3532 or at www.elec.state.nj.us.

4.26 Applicable Law

This contract and any and all litigation arising therefrom or related thereto shall be governed by the applicable laws, regulations and rules of evidence of the State of New Jersey without reference to conflict of laws principles.

5.0 PROPOSAL PREPARATION AND SUBMISSION INSTRUCTIONS

5.1 **General**

The bidder must follow instructions contained in this RFP and in the bid cover sheet in preparing and submitting its bid proposal. The bidder is advised to thoroughly read and follow all instructions.

The information required to be submitted in response to this RFP has been determined to be essential in the bid evaluation and contract award process. Any qualifying statements made by the bidder to the RFP's requirements could result in a determination that the bidder's proposal is materially non-responsive. Each bidder is given wide latitude in the degree of detail it elects to offer or the extent to which plans, designs, systems, processes and procedures are revealed. Each bidder is cautioned, however, that insufficient detail may result in a determination that the bid proposal is materially non-responsive or, in the alternative, may result in a low technical score being given to the bid proposal.

The bidder is instructed to clearly identify any requirement of this RFP that the bidder cannot satisfy.

5.2 **Proposal Delivery and Identification**

In order to be considered a bid proposal must arrive at the Department of Purchasing Services in accordance with the instructions on the RFP cover sheet. Bidders submitting proposals are cautioned to allow adequate delivery time to ensure timely delivery of proposals. UMDNJ regulations mandate that late proposals are ineligible for consideration. The exterior of all bid proposal packages must be labeled with the Request for Proposal identification number, final bid opening date and the buyer's name.

5.3 **Number of Bid Proposal Copies**

Each bidder must submit one (1) complete original bid proposal, clearly marked as the "ORIGINAL" bid proposal. Each bidder must also submit ten (5) full, complete and exact copies of the original. The copies required are necessary in the evaluation of the bid. It is suggested that the bidder make and retain a complete copy of its bid proposal.

5.4 **Proposal Form and Content**

The proposal should follow the format indicated in the following Sections of this RFP. The bidder should limit their response to one volume, if at all possible, with that volume divided into four (4) sections as indicated below.

5.5 **Section 1 Forms**

The following forms are required and shall be submitted with bidder's bid proposal:

5.5.1 Ownership Disclosure Form

In the event the bidder is a corporation or partnership, the bidder must complete the attached Ownership Disclosure Form. A complete Ownership Disclosure Form must be received prior to, or accompanying, the bid. Failure to do so will preclude the award of a contract.

5.5.2 Business Registration Notice

All New Jersey and out of State business organizations must obtain a Business Registration Certificate (BRC) from the Department of the Treasury, Division of Revenue, prior to conducting business with the State of New Jersey. Proof of valid business registration must be submitted by a bidder with its bid proposal. Failure to submit such valid business registration with a bid will render the bid materially non-responsive. The business registration form (Form NJ-REG) can be found online at: <http://www.state.nj.us/treasury/revenue/gettingregistered.htm#busentity>

Forms required before contract award. The following forms may be submitted with the bid proposal.

5.5.3 Affirmative Action

The bidder must complete the attached Affirmative Action Employees Information Report, or, in the alternative, supply either a New Jersey Affirmative Action Certificate, or evidence that the bidder is operating under a federally approved or sanctioned affirmative action program. The requirement is a precondition of entering into a valid and binding contract.

5.5.4 Business Associate Agreement

The bidder must complete the attached Business Associate Agreement, involving the access to protected health information that is considered protected pursuant to federal, state and/or local laws and regulations in accordance with the privacy requirements of the "HIPAA" – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

5.5.5 Executive Order 117 Compliance and Certification

Effective November 15, 2008, all UMDNJ contractors are required to comply with Executive Order 117. In the early Fall of 2008, Governor Jon S. Corzine signed Executive Order No. 117, which is designed to enhance New Jersey's efforts to protect the integrity of government contractual decisions and increase the public's confidence in government. The Executive Order builds on the provisions of P.L. 2005, c. 51 ("Chapter 51"), which limits contributions to certain political candidates and committees by for-profit business entities that are, or seek to become, State government vendors.

Bidders should submit the Executive Order 117 Certification with their bid proposal. If the bidder fails to submit the Executive Order 117 Certification, the bidder, if selected for contract award, must submit and comply with Executive Order 117 requirements before the contract award can be finalized. The Executive Order 117 Certification with instructions may be found on the UMDNJ Purchasing Services Department's website at: <http://www.umdnj.edu/purchweb/vendors/index.htm>

5.6 **Section 2 – Technical Proposal**

In this Section, the bidder shall describe its approach and plans for accomplishing the equipment requirements outlined in the Scope of Work Section, Section 3.0. The bidder must set forth its understanding of the requirements of this RFP and its ability to successfully complete the contract. When preparing its technical response, it is strongly suggested for clarity and order that the bidder's technical response follow the sections of the RFP in order. This section of the proposal should contain at least the following information:

5.6.1 Product information which meet the requirements in section 3.0 Scope of Work/Commodity Description by fully and accurately completing the Bidder Data Sheets included in this RFP as Section 7.0. The bidder shall include a thorough description of and include all applicable literature on its training program as required in section 3.4.

5.6.2 Material Safety Data Sheets

The bidder must furnish material safety data sheets (MSDS), or manufacturers' equivalent information sheets, on the Equipments and/or chemicals used in performing the services specified in this RFP with the bidder's bid proposal. These sheets must list complete chemical ingredients including the percentage composition of each ingredient in the mixture down to 0.1%, the chemical abstract services numbers for those substances listing any potentially hazardous Equipments which may produce gas during or following application. Failure to supply this information will result in rejection of the bid proposal for that particular Equipment(s).

5.6.3 Management Overview

The bidder shall set forth its overall technical approach and plans to meet the requirements of the RFP in a narrative format. This narrative should convince UMDNJ that the bidder understands the objectives that the contract is intended to meet, the nature of the required work and the level of effort necessary to successfully complete the contract. The narrative should convince UMDNJ that the bidder's general approach and plans to undertake and complete the contract are appropriate to the tasks and subtasks involved.

Mere reiterations of RFP tasks and subtasks are strongly discouraged, as they do not provide insight into the bidder's ability to complete the contract. The bidder's response to this Section should be designed to convince UMDNJ that the bidder's detailed plans and approach proposed to complete the Scope of Work are realistic, attainable and appropriate and that the bidder's proposal will lead to successful contract completion.

5.6.4 Contract Management

The bidder should describe its specific plans to manage, control and supervise the contract to ensure satisfactory contract completion according to the required schedule. The plan should include the bidder's approach to communicate with UMDNJ, including, but not limited to, status meetings, status reports, etc.

5.6.5 Contract Schedule

The bidder should include a contract schedule. If key dates are a part of this RFP, the bidder's schedule should incorporate such key dates and should identify the completion date for each task and sub-task required by the Scope of Work. Such schedule should also identify the associated deliverable items(s) to be submitted as evidence of completion of each task and/or subtask.

5.6.6 Potential Problems

The bidder should set forth a summary of any and all problems that the bidder anticipates during the term of the contract. For each problem identified, the bidder should provide its proposed solution.

5.7 Section 3 – Organizational Support and Experience

The bidder should include information relating to its organization, personnel, and experience, including, but not limited to, references, together with contact names and telephone numbers, evidencing the bidder's qualifications and capabilities to perform the services required by this RFP.

5.7.1 Locations

The bidder should include the location of the bidder's office that will be responsible for managing the contract. The bidder should include the telephone number and name of the individual to contact.

The bidder should also provide a listing of all the company's location(s).

5.7.2 Organizational Chart (Contract Specific)

The bidder should include a contract organizational chart, with names showing management, supervisory and other key personnel (including subcontractor's management, supervisory or other key personnel) to be assigned to the contract. The chart should include the labor category and title of each such individual. The organizational chart should demonstrate the vendor's staffing capacity to provide the services/implementation in the proposal.

5.7.3 Résumés

Detailed résumés should be submitted for all management, supervisory and key personnel to be assigned to the contract. Résumés should be structured to emphasize relevant qualifications and experience of these individuals in successfully completing contracts of a similar size and scope to those required by this RFP. Résumés should clearly identify previous experience in completing similar contracts. Beginning and ending dates should be given for each similar contract. A description of the contracts should be given and should demonstrate how the individual's work on the completed contract related to the individual's ability to contribute to the successfully providing the services required by this RFP. With respect to each similar contract, the bidder should include the name and address of each reference together with a person to contact for a reference check and telephone number.

5.7.4 Backup Staff

The bidder should include a list of backup staff that may be called upon to assist or replace primary individuals assigned. Backup staff must clearly be identified in the proposal as backup staff.

5.7.5 Organization Chart (Entire Firm)

The bidder should include an organizational chart showing the bidder's entire organizational structure. This chart should show the relationship of the individuals assigned the contract to the bidder's overall organizational structure.

5.7.6 Experience of Bidder on Contracts of Similar Size and Scope

The bidder should provide a comprehensive listing of contracts of similar size and scope that it has successfully completed, as evidence of the bidder's ability to successfully complete the services required by this RFP. Emphasis should be placed on contracts that are similar in size and scope to those required by this RFP. A description of all such contracts should include and should show how such contracts relate to the ability of the firm to complete the services required by this RFP. For each such contract, the bidder should provide the name and telephone number of a contact person for the other contract party. Beginning and ending dates should also be given for each contract.

5.7.7 Financial Capability of the Bidder

In order to provide UMDNJ with the ability to judge the bidder's financial capacity and capabilities to undertake and successfully complete the contract, the bidder should submit certified financial statements to include a balance sheet, income statement and statement of cash flow, and all applicable notes for the most recent calendar year or the bidder's most recent fiscal year. If certified financial statements are not available, the bidder should provide either a reviewed or compiled statement from an independent accountant setting forth the same information required for the certified financial statements, together with a certification from the Chief Executive Officer and the Chief Financial Officer, that the financial statements and other information included in the statements fairly present in all material respects the financial condition, results of operations and cash flows of the bidder as of, and for, the periods presented in the statements. In addition, the bidder should submit a bank reference.

Vendors should provide the most recent financial statements at the time of the submission of the bid and again (if more current) at time of contract award. If the information is not supplied with the bid proposal, UMDNJ may still require the bidder to submit it. If the bidder fails to comply with the request within five (5) business days, UMDNJ may deem the proposal non-responsive.

A bidder may designate specific financial information as not subject to disclosure when the bidder has a good faith legal/factual basis for such assertion. Bidder may submit specific financial documents in a separate, sealed package clearly marked "Confidential-Financial Information" along with the Bid Proposal. UMDNJ reserves the right to make the determination to accept the assertion and shall so advise the bidder. This information will be treated as confidential under provisions of Open Public Records Act and the common law

5.7.8 Subcontractor(s)

- 5.7.8.1 Should the bidder propose to utilize a subcontractor(s) to fulfill any of its obligations, the bidder shall be responsible for the subcontractor's(s): (a) performance; (b) compliance with all of the terms and conditions of the contract; and, (c) compliance with the requirements of all applicable laws.
- 5.7.8.2 The bidder should provide detailed description of services to be provided by each subcontractor, referencing the applicable Section or subsection of this RFP.
- 5.7.8.3 The bidder should provide detailed résumés for each subcontractor's management supervisory and other key personnel that demonstrate knowledge, ability and experience relevant to that part of the work, which the subcontractor is designated to perform.
- 5.7.8.4 The bidder should provide documented experience demonstrating that each subcontractor has successfully performed work on contracts of a similar size and scope to the work that the subcontractor is designated to perform in the bidder's proposal.

5.8 **Section 4 – Cost Proposal**

The bidder must submit all requested pricing information in section 8.1 of the RFP. Failure to submit all requested pricing information may result in the bidder's proposal being considered materially non-responsive. Each bidder must hold its price(s) firm for a minimum of one hundred twenty (120) days following bid opening to permit the completion of the evaluation of proposals received and the contract award process.

The bidder must provide annual maintenance fees for all Cone Beam Computed Tomography Scanner for NJDS. The bidder shall provide a maintenance schedule for four (4) years commencing after the expiration of the one year warranty period.

The bidder should also provide hourly rates for all professional and technical staff.

Once Submitted there can be NO alterations or modifications to the pricing of the original proposal without UMDNJ approval.

6.0 PROPOSAL EVALUATION AND CONTRACT AWARD

6.1 **Proposal Evaluation Committee**

Proposals may be evaluated by an Evaluating Committee composed of members of affected departments together with representative(s) from the Department of Purchasing Services. Representatives from other governmental agencies may also serve on the Evaluation Committee. On occasion, the Evaluation Committee may choose to make use of the expertise of an outside consultant in an advisory role.

6.2 **Oral Presentation and/or Clarification of Proposal**

A bidder may be required to give an oral presentation in conjunction with a demonstration of all application modules to the Evaluating Committee concerning its bid proposal. The Evaluation Committee may also require a bidder to submit written responses to questions regarding its proposal.

The purpose of such communication with a bidder, either through an oral presentation or a letter of clarification, is to provide an opportunity for the bidder to clarify or elaborate on its bid proposal. Original bid proposals, however, cannot be supplemented, changed, or corrected in any way. No comments regarding other bid proposals are permitted. Bidders may not attend presentations made by their competitors.

It is within the Evaluation Committee's discretion whether to require a bidder to give an oral presentation or require a bidder to submit written responses to questions regarding its proposal. Action by the Evaluation Committee in this regard should not be construed to imply acceptance or rejection of a proposal. The buyer will be the sole point of contact regarding any request for an oral presentation or clarification.

6.3 **Evaluation Criteria**

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate bid proposals received in response to this RFP. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process.

- 6.3.1 The bidder's ability to meet the equipment requirements of this RFP.
- 6.3.2 The bidder's detailed approach and plans to provide the equipment and services required by the Scope of Work Section of this RFP, including ongoing support.
- 6.3.3 The bidder's documented experience in successfully completing contracts of a similar size and scope of those required by this RFP.

- 6.3.4 The qualifications and experience of the bidder's management, supervisory or other key personnel assigned to the contract, with emphasis on documented experience in successfully completing work on contracts of similar size and scope to those required by this RFP.
- 6.3.5 The overall ability of the bidder to mobilize, undertake and successfully provide the equipment required by the RFP. This judgment will include, but not be limited to the following factors: the number and qualifications of management, supervisory and other staff proposed by the bidder to complete the contract, the availability and commitment to the contract of the bidder's management, supervisory and other staff proposed, the bidder's contract management plan, including the bidder's contract organizational chart, the bidder's financial stability, and the bidder's internal investment in resource and development.
- 6.3.6 The bidder's cost proposal.

6.4 University's Right to Consider Additional Information

- 6.4.1 The Vice President of Supply Chain may obtain any information determined to be appropriate regarding the ability of the bidder to supply and/or render the service required by this Request for Proposal.
- 6.4.2 The Vice President of Supply Chain may consider such other factors that, in the opinion of the Vice President, are important in evaluating the bidder's proposal and awarding Contracts as determined to be in the best interest of the University.
- 6.4.3 The University reserves the right to request all bidders to explain the method used to arrive at any or all cost or pricing figures.
- 6.4.4 When making the Contract award decision, the University may consider evidence of formal or other complaints against any bidder(s) by the University for Contracts held in the past or present by the bidder.
- 6.4.5 The University reserves the right to check the bidder's financial capacity and ability to successfully undertake and complete the services required by this Request for Proposal by any means deemed appropriate.
- 6.4.6 The University reserves the right to conduct site inspections of any facility(s) serviced by the bidder(s) to assist in judging the bidder's ability to provide the services required by this Request for Proposal. This applies to all facilities services by the bidder or any subcontractor to the bidder. This right extends to all facilities of which the University is aware, or about which it becomes aware, that the bidder is servicing, whether or not the facility is listed in the bidder's proposal.

6.5 Contract Award

The Contract shall only be awarded after a full evaluation has been completed. Bidders who submit a proposal are not guaranteed a Contract award. The Contract shall be awarded with reasonable promptness by written notice to that responsible and responsive bidder whose bid, conforming to the Request for Proposal, will be most advantageous to UMDNJ, price and other factors considered. Any or all bids may be rejected when the Vice President of Supply Chain Management determines that it is in the public interest to do so.

6.7 NEGOTIATION AND BEST AND FINAL OFFER (BAFO)

After evaluating bid proposals, the evaluation committee may enter into negotiations with each bidder in the competitive range, unless there are too many highly rated proposals to evaluate efficiently. In this situation, UMDNJ may limit the competitive range to the number of proposals that will permit efficient competition among the most highly rated proposals. The primary purpose of negotiations is to maximize UMDNJ's ability to get the best value, based on the requirements and evaluation criteria set forth in the RFP. Negotiations may involve the identification of significant proposal weaknesses, ambiguities and other deficiencies that could limit a bidder's award potential, including payments. More rounds of negotiations may be held with one bidder in the competitive range than with another. Negotiations will be structured to safeguard information and ensure that all bidders in the competitive range are treated fairly. When the evaluation committee determines to conclude negotiations, all bidders in the competitive range will be so notified and advised of the time and place for submission of best and final offers. The best and final offer can modify any aspect of the bid proposal, provided mandatory RFP requirements are satisfied and further provided that the revised payment proposal is not higher than the original payment proposal. Any revised payment proposal that is not equal to or higher in payment than the original payment proposal will be rejected as nonresponsive. Evaluation of the best and final offers will be on the basis of payment and the evaluation criteria set forth in the RFP. If, after review of the best and final offers, clarification is required, it may be sought from the bidders. If further negotiation is desired after evaluation of the revised proposals, it will be followed by another BAFO opportunity. UMDNJ reserves the right to reassess the competitive range before proceeding with a subsequent round of negotiations and BAFO submissions and to remove from the competitive range any proposal that is no longer considered to be a leading contender for award. After evaluation of the final BAFO submissions, the evaluation committee will recommend to the Vice President for award the responsible bidder(s) whose bid proposal(s), conforming to the RFP, is most advantageous to the State, payment and other factors considered. The Vice President may accept, reject or modify the recommendation of the Evaluation Committee. The Vice President may negotiate further increases in payment with the selected bidder.

Negotiations will only be conducted in those circumstances where they are deemed by UMDNJ to be in UMDNJ's best interests and to maximize the UMDNJ's ability to get the best value. Therefore, bidders are advised to submit their best technical and payment proposals in response to this RFP, because the UMDNJ may, after evaluation, make a contract award based on the content of these initial submissions, without further negotiation with any bidder.

All contacts, records of initial evaluations, any correspondence with bidders related to any request for clarification, negotiation or BAFO, any revised technical and/or payment proposals, the Evaluation Committee Report and the Award Recommendation, will remain confidential until a Notice of Intent to Award a contract is issued.

6.7 Bidder's Right to Challenge a Contract Award

Except in cases of emergency, bidders have the right to protest a proposed contract award.

A bidder's protest must be submitted to the buyer of record with a copy to the Vice President of Supply Chain Management ("Vice President") within ten (10) days of receipt of notice to the bidder that it did not receive a contract award for its submitted bid proposal or notice that an award had been made to another bidder. The protest period may be shortened by the Vice President of Supply Chain Management. If the protest period is shortened or a protest period is not authorized due to emergency, all bidders will receive notice of the shortened protest period or emergency in the notice sent to bidder on the award of the contract.

Notices of Contract award under this section may be faxed, e-mailed, sent by regular mail or by any other means, excluding telephonic communication, conducive to transmitting the notice. If notice is sent by regular mail, the recipient is deemed to have received the notice three (3) days after mailing.

If a bidder files a protest to a contract award under this section, the bidder must set forth in writing with specificity the basis of the protest. At the time of the protest filing, the bidder must also submit all documentation supporting the basis of the protest. Failure to comply with these requirements may lead to rejection of the protest and UMDNJ award of the contract.

The protest will be reviewed and addressed with reasonable promptness. If deemed necessary by Vice President, a hearing may be held on the merits of the protest. In all cases, the Vice President will notify the bidder of the final determination on the protest

7.0 BIDDER'S DATA SHEETS (FORMS TO BE COMPLETED BY BIDDER)

The bidder should fully complete and submit the following Bidder's Data Sheets. Failure to satisfactorily complete and submit the Bidder's Data Sheets may result in a determination that your bid is non-responsive, resulting in rejection of your bid.

Bidders are strongly advised to use the Bidder's Data Sheets supplied herein. The bidder should make additional copies, if necessary.
