UMDNJ must achieve value while operating in full compliance with all applicable State of New Jersey and University procurement regulations and policies. The Office of Supply Chain Management, comprised of the Departments of Purchasing Services and Contract Management, oversees the procurement process at UMDNJ and is interested in contracting with multiple firms who will provide dental laboratory services for the Postgraduate Prosthodontics Residency Program at the NJDS.

The purpose of this RFP is to enter into multiple Contracts to provide dental laboratory services.

NJDS intends to utilize multiple laboratory service providers to ensure the highest quality of services to patients and the greatest efficiency in the delivery of laboratory services. These Contractors will be supplemental contractors to the original dental laboratory services, RFP # P10-048.

1.2 Background

UMDNJ is the nation's largest freestanding public health sciences university. It includes eight (8) schools on five (5) campuses. It is a statewide system of health sciences education, biomedical research and healthcare delivery. UMDNJ was founded in 1970 to consolidate New Jersey's health professions education and during the last two decades it has become the core of the state's healthcare delivery system. Additional information about the University, its multiple locations, schools and healthcare facilities is available at:

<http://www.umdj.edu/homepage/index.html>

UMDNJ-NJDS has a prominent role in the University's plans to create the health sciences University of the Future. The number one priority of the UMDNJ-NJDS is to ensure that each and every student receives an outstanding education in an environment of opportunity; the opportunity to learn, to practice and to serve.

New Jersey Dental School graduated its first class of students over forty years ago. The school was established as part of the Seton Hall College of Medicine and Dentistry, admitting its first

students in 1956. It was the first successful program in dental education to be established in New Jersey. From its modest beginnings as a struggling private institution, the school has grown into the state's major resource for dental education and research. In 1965, the Seton Hall complex was acquired by the state. Three years later, the medical school moved into Newark, occupying temporary quarters near the Martland Medical Center. The dental school remained at the Jersey City location until the completion of its permanent facilities in Newark early in 1976.

The school awards the Doctor of Dental Medicine (D.M.D.) degree upon completion of a comprehensive four-year program. In addition, educational programs are offered in every field of dental study, from continuing education for practicing dentists to training in toothbrushing for school-age youngsters.

New Jersey Dental School offers graduate dental educational specialty training in five areas: Endodontics, Orthodontics, Pediatric Dentistry, Periodontics, Prosthodontics and in Advanced Education in General Dentistry. Hospital residencies are offered in General Practice and in Oral and Maxillofacial Surgery which leads to a Doctor of Medicine degree. A fellowship in Oral Medicine is also available. The dental school also serves as a clinical training site for programs of the UMDNJ-School of Health Related Professions in Dental Assisting and Dental Hygiene. <http://dentalschool.umdj.edu/>

This agreement involves the access to protected health information that is considered protected pursuant to federal, state and/or local

laws and regulations in accordance with the privacy requirements of the “HIPAA” – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

The HIPAA privacy rules permit disclosure of patient information without authorization in certain situations in which no business associate agreement is needed. However, in the day to day interaction of providing the devices and services under this RFP, the Contractor may well have access to information unrelated to the patient receiving the medical device. For example, the Contractor’s representative may be in a patient room with a patient not receiving a device. A Contractor’s representative may have discussions with a physician regarding the Contractor’s device and receive patient information by way of an example for future cases. A Contractor’s representative may see another patient’s X-rays while in a room reviewing a patient’s records. For these and similar reasons, it is prudent to have a business associate agreement in place to safeguard these patients’ rights to privacy.

Any qualifying statements made by the bidder to the Request for Proposal's requirements could result in a determination that the bidder's proposal is materially non-responsive. Each bidder is given wide latitude in the degree of detail it elects to offer or the extent to which plans, designs, systems, processes and procedures are revealed. Each bidder is cautioned, however, that insufficient detail may result in a determination that the bid proposal is materially non-responsive or, in the alternative, may result in a low technical score being given to the bid proposal.

The bidder is instructed to clearly identify any requirement of this Request for Proposal that the bidder cannot satisfy.

5.2 Proposal Delivery and Identification

In order to be considered for award a bid proposal must arrive at the Department of Purchasing Services in accordance with the instructions on the Request for Proposal cover sheet. Bidders submitting proposals are cautioned to allow adequate delivery time to ensure timely delivery of proposals. UMDNJ regulations mandate that late proposals are ineligible for consideration. The exterior of all bid proposal packages must be labeled with the Request for Proposal identification number, final bid opening date and the buyer's name.

5.3 Number of Bid Proposal Copies

Each bidder must submit one (1) complete original bid proposal, clearly marked as the "ORIGINAL" bid proposal in hard copy (paper) format. Each bidder must also submit one (1) electronic copy of the **complete bid proposal** on a CD or flash drive. No faxed or e-mailed bid proposals are accepted. It is suggested that the bidder make and retain a complete copy of its bid proposal.

5.4 Proposal Form and Content

The proposal should follow the format indicated in the following Sections of this Request for Proposal. The bidder should limit their response to one volume, if at all possible, with that volume divided into the four (4) following subsections:

5.5 Subsection 1 – Forms

The following forms are required with bidder's proposal and shall be submitted with bidder's proposal:

5.5.1 Ownership Disclosure Form

The bidder must complete the attached Ownership Disclosure Form. A complete Ownership Disclosure Form must be received prior to, or accompanying, the bid. Failure to do so will preclude the award of a contract.

5.5.2 Business Registration Notice

All New Jersey and out of State business organizations must obtain a Business Registration Certificate (BRC) from the Department of the Treasury, Division of Revenue, prior to conducting business with the State of New Jersey. Proof of valid business registration must be submitted by a bidder with its bid proposal. Failure to submit such valid business registration with a bid will render the bid materially non-responsive. The business registration form (Form NJ-REG) can be found online at: <http://www.nj.gov/treasury/revenue/gettingregistered.shtml>

The following forms are required before Contract award and may be submitted with bidder's proposal:

5.5.3 Affirmative Action

Before contract award, the proposed contractor must submit either a New Jersey Affirmative Action Certificate, or evidence that the bidder is operating under a federally approved or sanctioned affirmative action program. The requirement is a precondition of entering into a valid and binding contract.

The intended awardee must submit a copy of a New Jersey Certificate of Employee Information, or a copy of Federal Letter of Approval verifying it is operating under a federally approved or sanctioned Affirmative Action program. Intended awardee(s) not in possession of either a New Jersey Certificate of Employee Information or a Federal Letter of Approval must complete the 29 Affirmative Action Employee Information Report (AA-302) located on the web at http://www.nj.gov/treasury/purchase/forms/AA_%20Supplement.pdf. The requirement is a precondition of entering into a valid and binding contract.

5.5.4 Business Associate Agreement

The bidder must complete the attached Business Associate Agreement, involving the access to protected health information that is considered protected pursuant to federal, state and/or local laws and regulations in accordance with the privacy requirements of the "HIPAA" – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

5.5.5 Executive Order 117 Compliance and Certification

Effective November 15, 2008, all UMDNJ contractors are required to comply with Executive Order 117. In the early Fall of 2008, Governor Jon S. Corzine signed Executive Order No. 117, which is designed to enhance New Jersey's efforts to protect the integrity of government contractual decisions and increase the public's confidence in government. The Executive Order builds on the provisions of P.L. 2005, c. 51 ("Chapter 51"), which limits contributions to certain political candidates and committees by for-profit business entities that are, or seek to become, State government vendors.

Bidders should submit the Executive Order 117 Certification with their bid proposal. If the bidder fails to submit the Executive Order 117 Certification, the bidder, if selected for contract award, must submit and comply with Executive Order 117 requirements before the contract award can be finalized. The Executive Order 117 Certification with instructions may be found on the UMDNJ Purchasing Services Department's website at: <http://www.umdj.edu/purchweb/vendors/index.htm>

5.6 Subsection 2 - Technical Response

A bidder's failure to fully, properly and accurately complete all of the information required by Section 7.0 of the RFP may result in their bid being considered non-responsive.

5.6.1 Contract Management Plan

The bidder should describe its specific plans to manage, control and supervise the Contract to ensure satisfactory Contract completion according to the required schedule. The plan should include the bidder's approach to communicate with UMDNJ, including, but not limited to, status meetings, status reports, etc.

5.6.2 Bidder's Management and Supervisory Personnel

The bidder should provide a complete list of all contract management and on-site supervisory personnel to be assigned to this Contract. The bidder should also include subcontractor personnel, if applicable. This list should identify the position/title of each individual assigned and provide a summary of each individual's function and role in the Contract.

5.6.3 Expertise and Proficiency in Specialized Dental Services

The bidder should demonstrate their expertise in designing innovative solutions for cases of compromised implant placement and in their use of numerous types of dental attachments. The bidder should demonstrate proficiency in the use of various lingual set-screws, internal and external attachments to provide adequate retention, esthetic design and comfort. The bidder should demonstrate its ability to use modern technology, such as computer designed and generated prostheses and CAD/CAM computer generated crowns and implant supported prostheses.

The bidder must provide proof of its technician's certifications by providing a Certified Dental Technician or a Master Dental Technician.

5.6.4 About Your Company

In narrative format, the bidder should describe all the services its firm provides to its customers, how many years the bidder has been in business, the types of clients or customers it has, special accreditations it has earned, specialized techniques it performs, styles and technologies it uses in the services it provides, its history in providing customized services to fit specialized patient needs, and any other additional relevant information.

5.6.5 Potential Problems

The bidder should set forth a summary of any and all problems that the bidder anticipates during the term of the Contract. For each problem identified, the bidder should provide its proposed solution.

5.7 Subsection 3 – Organizational Support and Experience

The bidder should include information relating to its organization, personnel, and experience, including but not limited to references, contact names and telephone numbers, and the bidder's qualifications and capabilities to perform the services required by this RFP.

The bidder must indicate the number of years in business and list the contracts award and references.

5.7.2 Laboratory Addresses

The bidder should include the addresses of all laboratory facilities where the Contractor shall perform the dental laboratory services. The bidder should provide the address or addresses of all Contractor-performed laboratory facilities where the dental laboratory services will be performed.

5.7.3 Organizational Chart

The bidder should include an organizational chart showing the bidder's entire organizational structure. This chart should show the relationship of the individuals assigned the Contract to the bidder's overall organizational structure.

5.7.4 Bidder's Financial Capability

The bidder should provide proof of its firm's financial capacity and capabilities to undertake and successfully provide goods/services required under this Contract. A financial statement for the most recent fiscal year or bank reference is acceptable. The University reserves the right to check

and evaluate the firm's financial capacity and capability by any means deemed appropriate. The submission of this information with the bid is desired by the University, but is not mandatory. However, if a bidder chooses not to include this information with its bid, this information may be requested from the bidder during the evaluation process. If the bidder is requested to submit this information during the evaluation process, the bidder will be required to submit it, and failure to do so will be cause for finding the bid non-responsive.

5.8 Subsection 4 - Cost Proposal

All bidders must submit their cost proposal in accordance with the Price Sheet(s) included in Section 8.0 of this Request for Proposal. Failure to submit all information required will result in the bid being considered non-responsive. Each bidder is requested to hold its cost proposal firm for a minimum of 120 days so that an award can be made.

The bidder's cost proposal must be submitted in hard copy format and an electronic MS Excel spreadsheet. The Excel spreadsheet must follow the same layout or format as the table shown in Section 8.0, Price Sheet. The Excel spreadsheet must be on a floppy disk or compact disk and submitted with the bidder's proposal response.

ONLY price and costing information provided by the bidder in its original bid proposal submitted in response to this Request for Proposal may later be used for additional work and/or special projects to be paid against the Contract resulting from this Request for Proposal.

NOTE: The bidder's signature on the cover of this Request for Proposal guarantees that prices set forth within the preprinted price lists and/or catalogs will govern for the period of the Contract. The bidder also acknowledges that, notwithstanding any reference to price escalation clauses, FOB shipping point, and shipping charges contained in the preprinted price lists, catalogs, and/or literature, such references shall not be part of any Contract awarded as a result of this Request for Proposal.

Once submitted there can be NO alterations or modifications to the pricing of the original proposal without UMDNJ approval.

6.0 PROPOSAL EVALUATION AND CONTRACT AWARD

6.1 Evaluation Committee

Bids will be evaluated by an Evaluation Committee composed of members of affected departments together with representative(s) from the Department of Purchasing Services. Representatives from other governmental agencies may also serve on the Evaluation Committee. On occasion, the Evaluation Committee may choose to make use of the expertise of an outside consultant in an advisory role.

6.2 Oral Presentation and/or Clarification of Bids

A bidder may be required to give an oral presentation to the Evaluation Committee concerning its bid proposal. The Evaluation Committee may also require a bidder to submit written responses to questions regarding its bid.

The purpose of such communication with a bidder, either through an oral presentation or a letter of clarification, is to provide an opportunity for the bidder to clarify or elaborate on its bid. The original bid, as submitted, however, cannot be supplemented, changed, or corrected in any way during the evaluation process. No comments regarding other bids are permitted. Bidders may not attend presentations made by their competitors.

It is within the Evaluation Committee's discretion whether to require a bidder to give an oral presentation or require a bidder to submit written responses to questions regarding its bid. Action by the Evaluation Committee in this regard should not be construed to imply acceptance or rejection of a bid. The Purchasing Services' buyer is the sole point of contact regarding any request for an oral presentation or written clarification.

6.3 Evaluation Criteria

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate bid proposals received in response to this Request for Proposal. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process.

6.3.1 The quality of the services proposed and their conformance to the requirements of this Request for Proposal with regards to technical expertise, specialized techniques and quality of materials used.

6.3.2 The bidder's documented experience in successfully providing dental laboratory services to institutions of similar size and scope as UMDNJ-NJDS.

6.3.3 The bidder's cost proposal.

6.4 University's Right to Consider Additional Information

- 6.4.1 The Vice President of Supply Chain may obtain any information determined to be appropriate regarding the ability of the bidder to supply and/or render the service required by this Request for Proposal.
- 6.4.2 The Vice President of Supply Chain may consider such other factors that, in the opinion of the Vice President, are important in evaluating the bidder's proposal and awarding Contracts as determined to be in the best interest of the University.
- 6.4.3 The University reserves the right to request all bidders to explain the method used to arrive at any or all cost or pricing figures.
- 6.4.4 When making the Contract award decision, the University may consider evidence of formal or other complaints against any bidder(s) by the University for Contracts held in the past or present by the bidder.
- 6.4.5 The University reserves the right to check the bidder's financial capacity and ability to successfully undertake and complete the services required by this Request for Proposal by any means deemed appropriate.
- 6.4.6 The University reserves the right to conduct site inspections of any facility(s) serviced by the bidder(s) to assist in judging the bidder's ability to provide the services required by this Request for Proposal. This applies to all facilities services by the bidder or any subcontractor to the bidder. This right extends to all facilities of which the University is aware, or about which it becomes aware, that the bidder is servicing, whether or not the facility is listed in the bidder's proposal.

6.5 Negotiation and Best And Final Offer (BAFO)

After evaluating bid proposals, the evaluation committee may enter into negotiations with each bidder in the competitive range, unless there are too many highly rated proposals to evaluate efficiently. In this situation, UMDNJ may limit the competitive range to the number of proposals that will permit efficient competition among the most highly rated proposals. The primary purpose of negotiations is to maximize UMDNJ's ability to get the best value, based on the requirements and evaluation criteria set forth in the RFP. Negotiations may involve the identification of significant proposal weaknesses, ambiguities and other deficiencies that could limit a bidder's award potential, including payments. More rounds of negotiations may be held with one bidder in the competitive range than with another. Negotiations will be structured to safeguard information and ensure that all bidders in the competitive range are treated fairly. When the evaluation committee determines to conclude negotiations, all bidders in the competitive range will be so notified and advised of the time and place for submission of best and final offers. The best and final offer can modify any aspect of the bid proposal, provided mandatory RFP requirements are satisfied and further provided that the revised cost proposal is not higher than the original cost proposal. Any revised cost proposal that is not equal to or higher in cost than the original cost proposal will be rejected as non-responsive.

Evaluation of the best and final offers (BAFO) will be on the basis of cost and the evaluation criteria set forth in the RFP. If, after review of the best and final offers, clarification is required, it may be sought from the bidders. If further negotiation is desired after evaluation of the revised proposals, it will be followed by another BAFO opportunity. UMDNJ reserves the right to reassess the competitive range before proceeding with a subsequent round of negotiations and BAFO submissions and to remove from the competitive range any proposal that is no longer considered to be a leading contender for award. After evaluation of the final BAFO submissions, the evaluation committee will recommend to the Vice President for award the responsible bidder(s) whose bid proposal(s), conforming to the RFP, is most advantageous to UMDNJ, cost and other factors considered. The Vice President may accept, reject or modify the recommendation of the evaluation committee. The Vice President may negotiate further increases in costs with the selected bidder.

Negotiations will only be conducted in those circumstances where they are deemed by UMDNJ to be in UMDNJ's best interests and to maximize the UMDNJ's ability to get the best value. Therefore, bidders are advised to submit their best technical and cost proposals in response to this RFP, because UMDNJ may, after evaluation, make a contract award based on the content of these initial submissions, without further negotiation with any bidder.

All contacts, records of initial evaluations, any correspondence with bidders related to any request for clarification, negotiation or BAFO, any revised technical and/or cost proposals, the Evaluation Committee Report and the Award Recommendation, will remain confidential until a Notice of Intent to Award a contract is issued.

6.6 Contract Award

The Contract shall only be awarded after a full evaluation has been completed. Bidders who submit a proposal are not guaranteed a Contract award. The Contract shall be awarded with reasonable promptness by written notice to that responsible and responsive bidder whose bid, conforming to the Request for Proposal, will be most advantageous to UMDNJ, price and other factors considered. Any or all bids may be rejected when the Vice President of Supply Chain Management determines that it is in the public interest to do so.

6.7 Bidder's Right to Challenge a Contract Award

Except in cases of emergency, bidders have the right to protest a proposed contract award.

A bidder's protest must be submitted to the buyer of record with a copy to the Vice President of Supply Chain Management ("Vice President") within ten (10) days of receipt of notice to the bidder that it did not receive a contract award for its submitted bid proposal or notice that an award had been made to another bidder. The protest period may be shortened by the Vice President of Supply Chain Management. If the protest period is shortened or a protest period is not authorized due to emergency, all bidders will receive notice of the shortened protest period or emergency in the notice sent to bidder on the award of the contract.

Notices of Contract award under this section may be faxed, e-mailed, sent by regular mail or by any other means, excluding telephonic communication, conducive to transmitting the notice. If notice is sent by regular mail, the recipient is deemed to have received the notice three (3) days after mailing.

If a bidder files a protest to a contract award under this section, the bidder must set forth in writing with specificity the basis of the protest. At the time of the protest filing, the bidder must also submit all documentation supporting the basis of the protest. Failure to comply with these requirements may lead to rejection of the protest and UMDNJ award of the contract.

The protest will be reviewed and addressed with reasonable promptness. If deemed necessary by Vice President, a hearing may be held on the merits of the protest. In all cases, the Vice President will notify the bidder of the final determination on the protest.

7.0 BIDDER'S DATA SHEETS (FORMS TO BE COMPLETED BY BIDDER)

J. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for a Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI (45 C.F.R. 164.528). Should a Covered Entity or an Individual request an accounting of disclosures of PHI pursuant to 45 C.F.R. 164.528, Business Associate agrees to promptly provide Covered Entity with information in a format and manner sufficient to respond no later than sixty (60) days after receipt of such request, subject to specific statutory exceptions.

M. Business Associate agrees to abide by the limitations on marketing communications to Individuals regarding the purchase and use of products or services set forth in the HITECH Act and the HITECH Regulations.

N. Business Associate agrees and acknowledges that the administrative rules governing, and the civil and criminal penalties for violating, HIPAA, the HITECH Act, the HIPAA Regulations and the HITECH Regulations, apply to it in the same manner as they apply

to Covered Entity, as more fully set forth at UMDNJ's website at <http://www.umdnj.edu/complweb/policies/index.htm>.

IV. Term and Termination

A. Term. The term of this BAA shall be effective as of the effective date of the Underlying Agreement and shall terminate when all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or, if it is infeasible to return or destroy PHI, protections are extended to such information, in accordance with the termination provisions of this Section IV.

B. Termination for Cause. Upon Covered Entity's knowledge of a material breach by Business Associate, Covered Entity shall either:

1. Provide an opportunity for Business Associate to cure the breach or end the violation, and terminate this BAA and the Underlying Agreement if Business Associate does not cure the breach or end the violation within the time specified by Covered Entity;

2. Immediately terminate this BAA and/or the Underlying Agreement if Business Associate has breached a material term of this BAA and cure is not possible; or

3. If neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary of HHS.

C. Effect of Termination.

1. (a) Except as provided in paragraph C.2 of this Section, upon termination of this BAA, for any reason, Business Associate shall return or destroy all PHI received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity. This provision shall apply to PHI that is in the possession of subcontractors or agents of Business Associate. Business Associate shall retain no copies of PHI.

(b) Except as provided in paragraph C.2 of this Section, if Covered Entity, in its sole discretion, requires that Business Associate destroy any or all PHI received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity, either due to the termination of this BAA or otherwise, Business Associate shall certify, in writing, to Covered Entity that the PHI has been destroyed and rendered indecipherable, pursuant to HIPAA and the HITECH Act. This provision also shall apply to PHI that is in the possession of subcontractors or agents of Business Associate.

2. In the event that Business Associate determines that returning or destroying the PHI is infeasible, Business Associate shall provide to Covered Entity written notification of the conditions that make return or destruction infeasible within thirty (30) calendar days of such request. In such case, Business Associate shall extend the protections of this BAA to such PHI and limit further uses and disclosures of such PHI to those purposes that make

the return or destruction infeasible, for so long as Business Associate maintains such PHI. This provision also shall apply to PHI that is in the possession of subcontractors or agents of Business Associate.

3. Should the Business Associate make a disclosure of PHI in violation of this BAA, Covered Entity shall have the right to immediately terminate any contract, other than this BAA, then in force between the Parties, including the Underlying Agreement.

4. The provisions of this Section IV.C. shall survive the termination of this BAA and the Underlying Agreement for any reason.

A. Business Associate agrees and acknowledges that irreparable harm will result to Covered Entity, and to its business, in the event of breach by Business Associate of any covenants, duties, obligations and assurances in this BAA and further agrees that remedy at law for any such breach shall be inadequate and that damages resulting therefrom are not susceptible to being measured in monetary terms. In the event of any such breach or threatened breach by Business Associate, Covered Entity shall be entitled to (i) immediately enjoin and restrain Business Associate from any continuing violations and (ii) reimbursement for reasonable attorneys' fees, costs and expenses incurred as a proximate result of the breach. The remedies in this Section V shall be in addition to any action for damages and/or other remedy available to Covered Entity for such breach.

B. Business Associate shall indemnify and hold Covered Entity, its directors, officers, employees and agents harmless from any and all liabilities, damages, reasonable attorneys' fees, costs and expenses incurred by Covered Entity as a result of a breach of this BAA caused by Business Associate's actions or inactions and/or those of its employees and agents.
