SCOPE OF WORK

SUMMARY

The San Luis Obispo County Engineering Department seeks to create a pool of qualified, professional, as-needed, engineering consultants to provide engineering, construction management, inspection and materials testing for a variety of public works construction projects. The professional services shall include, but not be limited to, the following: resident engineer services, engineering, construction management, inspection, surveying, materials testing, contract administration, and project records services.

Possible projects requiring the engineering consultant services include new bridge construction, waterline replacement, road and miscellaneous construction projects. Design of these projects is underway by County Department of Public Works staff and/or outside consultants and will generally be scheduled to be initiated on various dates during the period March 1, 2010 through February 28, 2012. Consulting contracts will be awarded among firms by the County Department of Public Works or Board of Supervisors during this period only. Only consultants participating and qualified under this Request for Qualifications No. 1057 will be considered. Any project started within this period will continue through completion. All SOQ's shall remain firm through February 28, 2012, the time period for which this consultant pool is valid.

To qualify for admission to the pool, consultant teams must demonstrate knowledge and experience in performing all management, engineering, surveying, engineering inspection and materials testing work required for compliance with the construction documents for each project. In addition, consultants are required to follow Federal guidelines for Underutilized/Disadvantaged Business Enterprise participation on Federally funded projects.

Once competitively selected from this qualifications based selection process for the as-needed consultant pool, the best qualified consultants will negotiate contracts to provide professional services for each specific project.

BACKGROUND

The San Luis Obispo County Department of Public Works is requesting Statements of Qualifications for Engineering/Construction Services for various projects funded through various programs including the American Recovery and Reinvestment Act (ARRA), Highway Bridge Replacement and Rehabilitation Funds (HBRR), Emergency Relief Projects (ER funds), State Transportation Improvement Program (STIP), and local matching funds.

County Expenditure of State Funds

This selection process and work performed hereunder shall be completed in accordance with the requirements of State Law of California, California Transportation Commission, and CalTrans.

County Expenditure of Federal Funds

- A. This selection process and work performed hereunder shall be completed in accordance with the requirements of the State of California and Federal Laws and Regulations.
- B. It is the County's intention to make a good faith effort to solicit participation from Underutilized/Disadvantaged Business Enterprises through all phases of its projects from Environmental Analysis, Preliminary Engineering, Final Design and Construction. Firms responding to the RFQ will be required to make a good faith effort to secure the participation of Underutilized/Disadvantaged Business Enterprises, as required by Federal Law.

It is anticipated that the County will staff the construction phase of these projects with consultant and/or a combination of County staff and consultant personnel to provide construction management and inspection duties of the work load. Consultants will be expected to perform Resident Engineer and or inspection duties in accordance with CalTrans procedures.

The purpose of this Request for Qualifications process is to establish the ability to obtain timely and efficient consultant assistance to address the County's construction management and inspection needs. To minimize response time and to meet legal deadlines, all-inclusive actual cost plus fixed fee contracts will be negotiated proactively and thus consultant help will be available to meet such needs as they arise.

County may expend as much as \$3,000,000 during the term in which the qualified pool is valid. The County assumes no obligation to expend the entire amount or to award work equally.

Contract Award Dollar Amounts

Awards based upon this RFQ will be in amounts both below and above \$25,000 and both above and below \$50,000.

Actual Cost Plus Fixed Fee

This method is most commonly used. The consultant is reimbursed for actual costs incurred and receives an additional predetermined amount as a fixed fee. The fixed fee is not adjustable for the life of the contract except where there is a significant change in the scope of the work, in which case the fee may be renegotiated.

This method of payment is appropriate when the extent, scope, complexity, character, or duration of work cannot be precisely predicted. Fixed fees apply to the total direct and indirect costs.

DETAILED SCOPE OF WORK

The following is a list of the projects that our consulting services may be used for:

1. Price Canyon Road Bridge Widening
2. San Simeon Creek Bridge
3. Main Street Bridge at Santa Rosa Creek
4. Willow Road Interchange
5. Price Canyon Bikelanes
6. Willow Road Extension
7. Pomeroy and Augusta Road Project
8. Miscellaneous Project

The scope of the work involved in each of these projects may include, but is not limited to, the following tasks:

1. Construction Bidding Phase: Consultant will assist the County in reviewing all bids and making recommendations to the County Department of Public Works for acceptance.
2. Pre-Construction Phase: Consultant will attend a preconstruction meeting with a successful construction contractor upon notification by the County.
3. Construction Inspection and Contract Administration: Consultant will review and coordinate all plans with the designer and the Contractor. Consultant will set up project records in accordance with the County and CalTrans/FHWA Standard Policies. Consultant shall prepare the final "Record Drawing Plans" and County and Local Assistance Final Reports. For bridge projects, consultant will provide a resident engineer and bridge representative or a resident engineer with bridge construction experience with a recent bridge construction management and inspection experience (minimum five years) for the inspection and administration of bridge construction projects.

RESERVATIONS OR RIGHTS BY THE COUNTY

The County reserves the right to postpone selection for its own convenience, to withdraw this RFQ at any time, to reject any SOQ without indicating a reason for such rejection or to negotiate with any or none of the respondents. As a function of the negotiation process, the County reserves the right to remedy technical errors, modify the published scope of services and approve or disapprove the use of all subconsultants. In addition, this RFQ does not commit the County to negotiate a contract. The issuance of this RFQ does not constitute an agreement by the County that any subsequent selection processes will occur, or that any contract will be entered into by the County. SOQ's and other materials submitted will not be returned unless portions of submittals are designated as proprietary at the time of submittal and requested to be returned.

The County has the right to use any or all ideas or concepts presented in any SOQ or interview without restriction, without conversation to the applicants. As a corollary, selection of a consultant does not constitute County acceptance of all of the particulars of its SOQ.

PERFORMANCE OF SERVICES

Task Orders. Performance of as-needed services by consultants will be by project. At the time a consultant is selected for a specific project, consultant will be asked to prepare an estimate of the various jobs listed by the project specific task order.

CONSULTANT SELECTION PROCESS

A. Selection of Consultants for the Pool

As there is no specific project upon which the SOQ should be based, the consultant submittal will be a general statement of qualifications. Although the general nature of the construction projects indicates the expertise which is needed, each firm shall choose a team that demonstrates professional capabilities and prior experience necessary to provide the services listed in this RFQ. The consultant shall prepare a written statement that complies with the requirements of the terms and conditions of this RFQ.

B. Selection Committee

A selection committee will evaluate written SOQ's and other submitted documentation based on the criteria below. Firms may be invited to oral interviews before the selection committee. If interviews are required, only the specifically identified project team members, led by the designated project manager, will be asked to appear.

Evaluation Criteria	Weight
Understanding of scope of work	20%
Firm's experience with similar work	20%
Qualifications and experience of key staff	30%
Familiarity with state and federal procedures	20%
Demonstrated technical ability	10%
Total	100%

C. Cost and Contract Negotiations

Once a consultant is accepted for the pool, the County will conduct negotiations to set hourly billing rates and classifications, overhead rates and other compensation. In addition, consultants will be expected to accept the standard County contract language for engineering consulting services agreements (see Attachment A).

D. Final Selection

Final selection of the consultant for any project will be made by the Director of Public Works, based on the selection committee's evaluation of their SOQ submittals, the results of the possible oral interview, and terms of contract language negotiated with the County.

DISADVANTAGED BUSINESS ENTERPRISE (DBE) REQUIREMENTS

The consultant or subconsultant shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The provisions of Title 49, Part 23, Code of Federal Regulations (49 CFR 23) require that DBE's have an opportunity to participate in contract funded through the Federal Highway Administration (FHWA).

The County of San Luis Obispo has established an Underutilized/Disadvantaged Business Enterprise (UDBE) goal of 6.5%. In order to meet the above stated requirements, the following criteria have been established, and must be addressed prior to execution of a contract for the services requested in the subsequent site specific RFP:

1. In order to be considered responsible and responsive, the consultant must make good faith efforts to meet the UDBE goal. If the goal is not met, the consultant must document adequate good faith efforts prior to award of the contract. Only UDBE participation will be counted towards the contract goal; however, all DBE participation shall be collected and reported. See "Notice to Proposers Disadvantaged Business Enterprise Information" included with Attachment A.
2. The consultant must submit a "UDBE Commitment" form and a "DBE Information" form prior to award of the contract. See "UDBE Commitment" and "DBE Information" forms included with Attachment A.

Termination shall have no effect upon the rights and obligations of the parties arising out of any transaction occurring prior to the effective date of such termination. Other than payments for services

satisfactorily rendered prior to the effective date of said termination, ENGINEER shall be entitled to no further compensation or payment of any type from the COUNTY.

13. Termination of Agreement for Cause. If ENGINEER fails to perform ENGINEER'S duties to the satisfaction of the COUNTY, or if ENGINEER fails to fulfill in a timely and professional manner ENGINEER'S obligations under this Agreement or if ENGINEER shall violate any of the terms or provisions of this Agreement or if ENGINEER, ENGINEER'S agents or employees fail to exercise good behavior either during or outside of working hours that is of such a nature as to bring discredit upon the COUNTY, then COUNTY shall have the right to terminate this Agreement effective immediately upon the COUNTY giving written notice thereof to the ENGINEER. Termination shall have no effect upon the rights and obligations of the parties arising out of any transaction occurring prior to the effective date of such termination. ENGINEER shall be paid for all work satisfactorily completed prior to the effective date of such termination. If COUNTY'S termination of the Agreement for cause is defective for any reason, including but not limited to COUNTY'S reliance on erroneous facts concerning ENGINEER'S performance, or any defect in notice thereof, this Agreement shall automatically terminate without cause on the twentieth day following the COUNTY'S written notice of termination for cause to the ENGINEER, and the COUNTY'S maximum liability shall not exceed the amount payable to ENGINEER under paragraph 12 above.

14. Compliance with Laws: ENGINEER shall comply with all Federal, State, and local laws and ordinances that are applicable to the performance of the work of this Agreement.

15. Covenant Against Contingent Fees: ENGINEER warrants that it has not employed or retained any company or person, other than a bona fide employee working for ENGINEER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percent, brokerage fee, gift, or any other consideration, contingent upon or resulting from the award or making this Agreement. For breach or violation of this warranty, COUNTY shall have the right to annul this Agreement without liability, or, in its discretion to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift, or contingent fee.

16. Nondiscrimination: ENGINEER shall comply with the regulations relative to nondiscrimination in federally assisted programs of the Department of Transportation, Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, which are herein incorporated by reference and made a part of this Agreement.

17. Disputes & Claims:

a. Notice of Potential Claim. The ENGINEER shall not be entitled to the payment of any additional compensation for any act, or failure to act, by the COUNTY, or for the happening of any event, thing, occurrence, or other cause, unless ENGINEER has provided the COUNTY with timely written Notice of Potential Claim as hereinafter specified. The written Notice of Potential Claim shall set forth the reasons for which the ENGINEER believes additional compensation will or may be due, the nature of the cost involved, and, insofar as possible, the amount of the potential claim. The said notice as above required must have been given to the COUNTY prior to the time that the ENGINEER shall have performed the work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the COUNTY, or in all other cases within 15 days after the happening of the event, thing, occurrence, or other cause, giving rise to the potential claim. It is the intention of this paragraph that differences between the parties relating to this Agreement be brought to the attention of the COUNTY at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The ENGINEER hereby agrees that it shall have no right to additional compensation for any claim that may be based on any such act, failure to act, event, thing, or occurrence for which no written Notice of Potential Claim as herein required was filed with the COUNTY Director of Public Works.

b. Processing of Actual Claim. In addition to the above requirements for Notice of Potential Claim, a detailed, Notice of Actual Claim must be submitted in writing to the COUNTY on or before the date of final payment under this Agreement. All such claims shall be governed by the procedures set forth in section 20104.2 and 20104.4 of the Public Contract Code, except that the word "claim" as used in said sections shall be construed as referring to any claim relating to this Agreement. The ENGINEER shall not be entitled to any additional compensation unless ENGINEER has (1) provided the COUNTY with a timely written Notice of Actual Claim and (2) followed the procedures set forth in Public Contract Code section 20104.2 and 20104.4.

c. Claim is No Excuse. Neither the filing of a Notice of Potential Claim or of a Notice of Actual Claim, nor the pendency of a dispute or claim, nor its consideration by the COUNTY, shall excuse the ENGINEER from full and timely performance in accordance with the terms of this Agreement.
