

CITY OF OAKLAND
REQUEST FOR PROPOSALS (RFP)
Engineering Services for Oakland's Sanitary Sewer System
City Project No.: C329119

Contract Amount: \$2,000,000

Contract Term: Three (3) to Four (4) Years

Services Required: The City of Oakland requests proposals from firms interested in providing engineering services for the City's sanitary sewer system flow assessment study and follow-up planning reports. The prime consultant responding to this RFP shall be a registered professional.

The City seeks qualified engineering firms for three subprojects. The first subproject includes flow monitoring, measurements and modeling of the City's sewer system. Required deliverables include a) dry and wet weather flows for all City sub-basins, b) hydraulic modeling to determine system inefficiencies; c) identification of inflow sources to the sewer system; and d) a final report. The second subproject is the preparation of multi-year capital facilities program implementation plan that lists all short-term and long-term construction projects and improvements to the existing sewer system. This plan shall include a timeline and an estimated budget for each construction project. The third subproject is for additional engineering and other services related to the operation and maintenance of the City's sewer collection system.

The Consultant shall be required to comply with applicable City programs, details of which are presented in project documents and online at http://cces.oaklandnet.com/ContComp/Contract_Admin.asp.
