

Morris Animal Foundation

Online Application Form Directions

To submit a proposal application to Morris Animal Foundation, **please read these directions carefully:**

To start a **NEW** online application, click on the appropriate link under number 1 below. You will be taken to MAF's online application form. You will need to set up an account (unless you already have an account).

NOTE: Once you have started your online application, you will be given the option to save it and finish later. Please see number 2 below when you are ready to continue the application. The first links will only work if you are starting a **NEW** online application. If the **NEW** online application links are accessed more than once, you will be creating more than one online application.

In the event that you inadvertently create more than one application, multiple applications will be shown on your account page (see number 2 below). Please delete all but the most recent application and select this latest version to continue your current application.

1. To start a **NEW** online proposal application:

[Established Investigator](#)

[First Award](#)

[Fellowship Training](#)

[Pilot Study](#)

2. To **CONTINUE** (modify/change) an **EXISTING** (in process) online proposal application:

EXISTING proposal application log in page:

[Account Page](#)

NOTE: The above links will “redirect” to a host website and as a result cannot be added as a “bookmark” or a “favorite” in your web browser.
