1.3 PURPOSE OF THE RFP

The purpose of this RFP is to select a vendor that can satisfy the State’s need for exhibit conceptual design, design development and fabrication/installation. It is the intent of Indiana Division of State Parks and Reservoirs, to contract with a vendor that provides quality exhibit design, development and fabrication/installation for Turkey Run State Park.

SUMMARY SCOPE OF WORK

Turkey Run State Park is a 2,382 acre park located in west-central Indiana. Its deep sandstone canyons and glacial relict ecosystems have been its highlight since its 1916 dedication. Prior to its becoming a park, the Lusk Family owned and protected much of the acreage, making Turkey Run relatively undisturbed.

Sugar Creek bisects the park. Additional protected areas along the creek make this stretch of Sugar Creek one of the highest quality waterways in Indiana. The creek includes a high diversity of darters and mussels.

The sandstone canyons are home to hemlocks and an outstanding diversity of ferns and bryophytes. Due to this unusual ecosystem, much of the park is a designated Nature Preserve.

Advocates pursued Turkey Run to become Indiana's first state park. After an initial failure, additional funds were raised and the park was dedicated in 1916, Indiana's centennial year.

The Turkey Run Nature Center was dedicated in the mid-1980s. It had formerly been a large concession stand. In addition to housing the interpretive staff, the center includes a display area, planetarium, bird watching room and library. The 2006 attendance to the facility was 122,446.

Exhibits cover general topics related to Turkey Run. Most exhibits are passive and many are the original 1980s exhibits.

Work Needed

The IDNR is looking for conceptual design, design development and fabrication/installation for the Turkey Run Nature Center based upon the interpretive plan (Attachment D – Nature Center exhibits only). Exhibits will center around the theme: *The forces of water, ice and human perseverance have made Turkey Run the park it is today.*

Exhibit label research and writing may be conducted by the IDNR, however, a separate break-down for that task is requested in the proposal response to allow IDNR to evaluate the cost of this element.

Tasks

1. Development of floorplan and exhibit conceptual drawings using the interpretive plan themes and exhibit descriptions.
2. Production of detailed shop drawings for each exhibit, based upon the approved conceptual drawings. Drawings will include:
 - A. Color schemes and individual exhibit colors presented as a color board.
 - B. Exhibit sizes and measurements.
 - C. Exhibit case materials and finishes.
 - D. Engineering specifications for any interactive exhibits, aquariums, lights, audiovisual hardware and software that are a part of the exhibits, or other components as needed.
 - E. Artifacts, specimens and graphics lists, by exhibit.
 - F. Label locations and copy (may be written by IDNR but alternate proposal response requested)

3. Fabrication and installation of approved exhibits based on shop drawings.
4. Appropriate warranties for all elements.
5. Electronic copies of all graphics and design elements in In Design
6. format. Maintenance/resource manual for the exhibits.

Services State Will Provide

- Turkey Run Interpretive Plan (Attachment D)
- Access to architectural drawings for the nature center.
- A list of existing artifacts/specimens available for use in exhibits.
- Research/assistance in locating artifacts/specimens for exhibits.
- Text writing for labels as designated in final design drawings unless alternate proposal response provided is accepted.
- Payment in installments to be agreed upon by vendor and state.

2.4 TECHNICAL PROPOSAL

The Technical Proposal must be divided into the sections as described below. Every point made in each section must be addressed in the order given. The same outline numbers must be used in the response. RFP language should not be repeated within the response. Where appropriate, supporting documentation may be referenced by a page and paragraph number. However, when this is done, the body of the technical proposal must contain a meaningful summary of the referenced material. The referenced document must be included as an appendix to the technical proposal with referenced sections clearly marked. If there are multiple references or multiple documents, these must be listed and organized for ease of use by the State.

- 1. Completion of Checklist in Attachment E, General Requirements.**
- 2. Submission of References and Work Samples**
- 3. Submission of Estimated Timeframe for Stated Tasks**
- 4. Turkey Run State Park Specifications**

Respondent will provide conceptual design, shop drawings, construction, testing and installation costs per the referenced exhibits in the interpretive plan (Attachment D). An alternate proposal response is also requested for exhibit label research and writing.

Recommended Exhibits

It is important to use the interpretive theme: ***The forces of water, ice and human perseverance have made Turkey Run the park it is today.*** A central water feature (representing water coming over the lip of the sandstone) under the skylight would form the hub of the surrounding exhibits. The exhibit could use water or a representation. A label would welcome visitors, introduce the theme and direct visitors to the next exhibit. Sandstone walls (representative or real) would direct the counter-clockwise traffic flow.

Individual exhibits would emphasize the subthemes.

1. Exhibit Area One: Oceans and glaciers are responsible for the bedrock and topography of the park.

The exhibit(s) will emphasize the underlying bedrock of sandstone and coal and how each was formed. The post-glacial erosional forces upon the bedrock, creating current topography is

conveyed. An interactive exhibit could demonstrate how the cross-bedding in the gorge was created.

2. Exhibit Area Two: Unique relict ecosystems exist along the water-carved gorges.

The exhibit(s) illustrates the relict hemlock ecosystem and other important plants found in the gorges. Hemlock trunks could provide the backdrop to the exhibit. A huge bryophyte replica would explain these unusual plants.

3. Exhibit Area Three: Sugar Creek creates a healthy forested corridor allowing for wildlife diversity.

This area could include live animal (amphibian, reptile, insect, fish) exhibits. An interactive exhibit could communicate the advantages of a large forest block versus several smaller forest blocks.

4. Exhibit Area Four: Natural and man-made aquatic features provide unique habitats in the park.

A diagram, diorama or other means demonstrates springs, seeps, fens and ponds. This exhibit could use water or lights to represent water. With seeps and springs, the “water” would move down through the bedrock. With the fen it would move up through deposits. The ponds would demonstrate water tables.

5. Exhibit Area Five: Water resources made both parks attractive for settlers, entrepreneurs and preservationists.

Salmon Lusk and his decision to locate a mill at the Narrows can include a diorama or the mill, demonstrate a turbine and provide an overview of the community that formed around the mill. A second exhibit will cover the preservation of the land by the Lusk’s , the movement to create the State Park system, and Turkey Run’s unique story in that movement.

6. Changeable Exhibit: Near the entryway to the exhibit room a changeable exhibit will be placed. The exhibit will feature happenings at Turkey Run as well as promoting regional locations such as Shades State Park, Pine Hills Nature Preserve, Mansfield Mill and Raccoon Lake.

2.5 COST PROPOSAL

- A. Cost Proposal requires the conceptual design, design, construction and installation of all exhibits recommended in the Technical Proposal (interpretive plan), and an alternate proposal response for exhibit label research and writing.

- B. The project will also require:
- a. Conceptual design drawings of exhibits showing scale and placement in floorplan.
 - b. Original plus up to two revisions of conceptual drawings.
 - c. Shop drawings for all exhibits.
 - d. Engineering and testing requirements on all shop drawings.
 - e. Original plus up to two revisions of shop drawings for IDNR approval prior to implementation.
 - f. Creation of exhibit graphics that meet U.V. and non-glare standards.
 - g. One year warranty on all parts and components. Warranty will include parts, labor and repairs within 14 working days of notification of required warranty work.
 - h. Maintenance manual to include direct sources for all respondent-purchased components, wiring diagrams, lists of all finishes and sources, scheduled maintenance and list of appropriate cleaning materials.
- C. The cost proposal must also include a cost breakdown for:
- Estimate for text research, writing and copy editing.

2.6 INDIANA ECONOMIC IMPACT

All companies desiring to do business with state agencies must complete an “Indiana Economic Impact” form (Attachment C). The collection and recognition of the information collected with the Indiana Economic Impact form places a strong emphasis on the economic impact a project will have on Indiana and its residents regardless of where a business is located. The collection of this information does not restrict any company or firm from doing business with the state.

2.7 BUY INDIANA INITIATIVE/INDIANA COMPANY

It is the Respondent’s responsibility to confirm its Buy Indiana status for this portion of the process. If a Respondent has previously registered its business with IDOA, go to http://www.in.gov/idoa/proc/bidder_reg.html and click on the link to update this registration. Click the tab titled Buy Indiana. Select the appropriate category for your business. Respondents may only select one category. Certify this selection by clicking the check box next to the certification paragraph. Once this is complete, save your selection and exit your account.

Respondents that have not previously registered with IDOA must go to www.BuyIndiana.IN.gov and click on the link to register. During the registration process, follow the steps outlined in the paragraph above to certify your business’ status. The registration process should be complete at the time of proposal submission.

Defining an Indiana Business:

“Indiana business” refers to any of the following:

- (1) A business whose principal place of business is located in Indiana.
- (2) A business that pays a majority of its payroll (in dollar volume) to residents of Indiana.
- (3) A business that employs Indiana residents as a majority of its employees.

Respondents claiming this status must indicate which of the provisions above qualifies them as an Indiana business. They must also fully complete the Indiana Economic Impact Form (Attachment C) and include it with their response.

The following is the policy concerning items 4 & 5 described below. Appropriate documentation must be provided with your proposal response supporting either claim made below:

- (4) A business that makes significant capital investments in Indiana.
- (5) A business that has a substantial positive economic impact on Indiana.

Substantial Capital Investment:

Any company that can demonstrate a minimum capital investment of \$5 million or more in plant and/or equipment or annual lease payments of \$2.5 million or more shall qualify as an Indiana business under category #4. If an out of state company does not meet one of these criteria, it can submit documentation/justification to the State for review for inclusion under this category.

Substantial Indiana Economic Impact:

Any company that is in the top 500 companies (adjusted) for one of the following categories: number of employees (DWD), unemployment taxes (DWD), payroll withholding taxes (DOR), or Corporate Income Taxes (DOR); it shall qualify as an Indiana business under category #5. If a Respondent needs assistance in determining if its business qualifies under this criterion, please send an email inquiry to buyindianainvest@idoa.in.gov and you will receive a response within forty-eight (48) hours. If an out of state company does not meet one of these criteria, it can submit documentation/justification to the State for review for inclusion under this category.

SECTION THREE PROPOSAL EVALUATION

3.1 PROPOSAL EVALUATION PROCEDURE

The State has selected a group of personnel to act as a proposal evaluation team. Subgroups of this team, consisting of one or more team members, will be responsible for evaluating proposals with regard to compliance with RFP requirements. All evaluation personnel will use the evaluation criteria stated in Section 3.2. The Commissioner of IDOA or her designee will, in the exercise of her sole discretion, determine which proposals offer the best means of servicing the interests of the State. The exercise of this discretion will be final.

The procedure for evaluating the proposals against the evaluation criteria will be as follows:

- 3.1.1 Each proposal will be evaluated for adherence to requirements on a pass/fail basis. Proposals that are incomplete or otherwise do not conform to proposal submission requirements may be eliminated from consideration.
- 3.1.2 Each proposal will be evaluated on the basis of the categories included in Section 3.2. A point score has been established for each category.
- 3.1.3 If technical proposals are close to equal, greater weight may be given to price.
- 3.1.4 Based on the results of this evaluation, the qualifying proposal determined to be the most advantageous to the State, taking into account all of the evaluation factors, may be selected by IDOA and IDNR for further action, such as contract negotiations. If, however, IDOA and IDNR decide that no proposal is sufficiently advantageous to the State, the State may take whatever further action is deemed necessary to fulfill its needs. If, for any reason, a proposal is selected and it is not possible to consummate a contract with the Respondent, IDOA may begin contract preparation with the next qualified Respondent or determine that no such alternate proposal exists.

3.2 EVALUATION CRITERIA

Proposals will be evaluated based upon the proven ability of the Respondent to satisfy the requirements of the RFP in a cost-effective manner. Each of the evaluation criteria categories is described below with a brief explanation of the basis for evaluation in that category. The points associated with each category are indicated following the category name (total maximum points = 100). If any one or more of the listed criteria on which the responses to this RFP will be evaluated are found to be inconsistent or incompatible

with applicable federal laws, regulations or policies, the specific criterion or criteria will be disregarded and the responses will be evaluated and scored without taking into account such criterion or criteria.

Summary of Evaluation Criteria:

Criteria	Points
1. Adherence to Mandatory Requirements	Pass/Fail
2. Management Assessment/Quality (Business and Technical Proposal)	35 points
3. Cost (Cost Proposal)	20 Points
4. Indiana Economic Impact	15
5. Buy Indiana	10
6. Minority (10) and Women Business (10) Subcontractor Commitment	20
Total	100

All proposals will be evaluated using the following approach.

Step 1

In this step proposals will be evaluated only against Criteria 1 to ensure that they adhere to Mandatory Requirements. Any proposals not meeting the Mandatory Requirements will be disqualified.

Step 2

The proposals that meet the Mandatory Requirements will then be scored based on Criteria 2 and 3 ONLY. This scoring will have a maximum possible score of 55 points. All proposals will be ranked on the basis of their combined scores for Criteria 2 and 3 ONLY. This ranking will be used to create a “short list”. Any proposal not making the “short list” will not be considered for any further evaluation.

Step 2 may include one or more rounds of proposal discussions focused on cost and other proposal elements.

Step 3

The short-listed proposals will then be evaluated based on all the entire evaluation criteria outlined in the table above.

If the State conducts additional rounds of discussions and a BAFO round which lead to changes in either the technical or cost proposal for the short listed Respondents, their scores will be recomputed.

The section below describes the different evaluation criteria.

- 3.2.1 Adherence to Requirements – Pass/Fail
- 3.2.2 Management Assessment/Quality - 35 points
- 3.2.3 Price – 20 points
- 3.2.4 Indiana Economic Impact -15 points

See Section 2.6 for additional information.

The total number of full time equivalent (FTE – please see Section 1.2 for a definition of FTE's) Indiana resident employees for the Respondent's proposal (prime contractor and subcontractors) will be used to evaluate the Respondent's Indiana Economic Impact. Points will be awarded based on a graduated scale. The Respondent with the most Indiana FTEs will be awarded 15 points. Points will then be awarded to the remaining Respondents proportionately.

- 3.2.5 Buy Indiana Initiative – 10 points

Respondents qualifying as an Indiana Company as defined in Section 2.7 will receive 10 points in this category.

- 3.2.6 Minority (10 points) & Women's Business (10 points) Subcontractor Commitment - 20 points

The following formula will be used to determine points to be awarded:

The commitment factor for each proposal will be calculated by multiplying the commitment percentage by one hundred. The RFP score ratio will be determined by dividing the maximum allowable points by the highest commitment factor. The proposal with the highest commitment factor will be given the maximum allowable points. The points awarded to the other proposals will be calculated by multiplying the score ratio by the proposed commitment factor.

Commitment percentage * 100 = commitment factor
Maximum allowable points/highest commitment factor = score ratio
Commitment factor * score ratio = points awarded

The Commissioner of IDOA or her designee will, in the exercise of her sole discretion, determine which proposal(s) offer the best means of servicing the interests of the State. The exercise of this discretion will be final.
