

TERMS & CONDITIONS FOR SITE WORK

1. The Vendor shall perform their jobs in eco-friendly manner and in consonance with the objectives of BCPL environment management system.
2. The material shall be collected by the vendor from Owner's stores/Project Site/vendor's own stores (as the case may be) and transported to the erection site at Vendor's cost and risk.
3. All labour (both skilled and unskilled), tools, tackles and consumables shall be arranged by Vendor at his own cost.
4. Vendor shall arrange for the necessary transport, accommodation, medical, canteen and other facilities for their employees/staff at their own cost and abide by all labour laws, safety codes and statutory regulations and keep Owner indemnified in respect thereof.
5. Vendor shall arrange and pay for all insurances as may be required under the law for their employees/ materials/subcontractor(s) and shall also cover against all risk for the materials issued by Owner. Vendor shall be working at Owner's site along with agencies who will be engaged in the other activities. For this purpose, the third party risk shall also be covered by Vendor.
6. The Vendor is responsible for keeping his work place neat and clean and shall always avoid scattering of any materials around the work place. The Vendor shall clear the work site of all debris, materials, tools, tackles etc. immediately upon completion of the job. Any temporary Line/cables etc. laid for the purpose of execution of a particular job shall be immediately removed to an agreed location and the site cleared off all such materials.
7. The Vendor shall not throw out gaskets, used electrode pieces, hand gloves, cotton wastes, gunny bags, polythene bags etc. into open channel, any drains or pipe line system. These are to be collected together in bins/waste collectors earmarked for the purpose of disposal after consultation with Engineer-in-Charge.
8. Construction power shall be provided by the Owner on chargeable basis subject to availability. In case of non availability of construction power, vendor shall make his own arrangements without affecting the completion schedule and with no extra cost to Owner.
9. All Cranes, handling equipment etc., as required, shall be arranged and provided by Vendor at his cost.
10. Construction water shall be provided by the Owner on chargeable basis subject to availability. In case of non availability of construction water, vendor shall make his own arrangements without affecting the completion schedule and with no extra cost to Owner.
11. As per the applicable Factory Act, the Labour License if required shall be taken by Vendor before starting the works.
