

Overview:

Contra Costa County is seeking for a Contractor to provide an end to end solution to update/upgrade our existing mainframe system which is to include Planning, Hardware Installation/Configuration, Data Migration, Skill Transfer Training, Documentation and Project Management. Typical response to this RFP should include the following:

- 1) High level project plan with proposed timelines and resource responsibilities.
- 2) Physical Planning to include Space, Power and Cooling requirements.
- 3) Replacement or upgrade hardware and/or software cost proposals
- 4) Professional services for proposed solution for any upgrades or replacements and transition to productions. Include a fall back plan and procedure.
- 5) Recommend operating system and core application upgrades or replacements
- 6) Installation and configuration of the operating system and core applications to recommended versions and best practices in alignment with our current operational needs.
- 7) Provide Operations Skills Transfer on new proposed system
- 8) Provide configuration documentation, as needed

Contractor Requirements:

Years of Experience. Contractor shall specify how long the individual/company submitting the proposal has been in the business of providing supplies and/or services similar to those requested in this RFP.

Past Projects. Contractor shall provide a complete description of up to three relevant past projects. This shall include the service type and dates the services were provided, the client project manager's name to include contact information, and the total dollar value of the project.

Staff Qualifications. A resume or summary of qualifications, work experience, IBM certifications, skills, etc., which emphasizes previous experience in this area shall be provided for all key personnel who will be involved with any aspects of the contract.

Solution Proposal: Propose solution to update our current Mainframe System and its core applications. Proposal must include quotations for hardware, software, and professional services. It must also include estimated ongoing maintenance cost such as software licensing/maintenance.

IBM reseller status: Must be a current Premier Business Partner for IBM and in good standing local in Contra Costa County.

Current Configuration Summary:

Contra Costa County currently has a Z800 Mainframe system with the following:

- 1) V1.9 Operating System
- 2) Shark with 8 TB
- 3) 3494 Tape Library
