1.0 INFORMATION FOR BIDDERS

1.1 Purpose and Intent of the Procurement

1.1.1 Purpose

This Request for Proposal (RFP) is being issued by the University of Medicine and Dentistry of New Jersey (UMDNJ), Department of Purchasing Services on behalf of UMDNJ University Hospital Department of Interventional Radiology Department.

UMDNJ is committed to obtaining the best value when it purchases good and services. UMDNJ must achieve value while operating in full compliance with all applicable State of New Jersey and University procurement regulations and policies. The Office of Supply Chain Management, comprised of the Departments of Purchasing Services and Contract management, oversees the procurement process at UMDNJ, and is interested in contracting with a firm who will provide a Microwave Ablation System to the UMDNJ University Hospital Department of Interventional Radiology Department.

The purpose of this Request for Proposal is to award a Contract to one vendor to provide a Microwave Ablation System for the ablation of hepatic, lung and other tumor types with the ability to ablate large volumes of tissue in minimal time for the UMDNJ University Hospital Department of Interventional Radiology Department.

1.1.2 Intent

The intent of the UMNDJ through this Request for Proposal is to award a Contract to one responsive bidder whose bid proposal conforms to the specifications contained in this RFP and is most advantageous to UMDNJ, price and other factors considered.

1.2 Background

UMDNJ is the nation's largest freestanding public health sciences university. It includes eight (8) schools on five (5) campuses. It is a statewide system of health sciences education, biomedical research and healthcare delivery. UMDNJ was founded in 1970 to consolidate New Jersey's health professions education and during the last two decades it has become the core of the state's healthcare delivery system. Additional information about the University, its multiple locations, schools and healthcare facilities is available at:

<http://www.umdj.edu/homepage/index.html>

The University Hospital is a 519-bed acute care hospital owned and operated by UMDNJ and located in the Central Ward of Newark. As the primary teaching hospital of the New Jersey Medical School in Newark, the hospital is committed to the provision of high quality patient care, medical education, clinical research and community service.

With an active medical staff of 790, The University Hospital is an integral part of the largest medical teaching program in the state, and trains 308 medical residents from the New Jersey Medical School's Graduate Medical Education programs. Medical education occurs in virtually every clinical specialty. The hospital also serves as the focus for other schools of the University providing on-site training for the New Jersey Dental School, School of Nursing, and School of Health Related Professions and Allied Health.

While the University Hospital serves as a referral center for many of the state's most advanced medical services and specialty care programs, The University Hospital is also a major source of primary care and serves as a safety net hospital for the Greater Essex Community and the State of New Jersey. The hospital operates over 50 different outpatient clinics and programs. In fiscal year 2007, The University Hospital had 221,371 ambulatory care visits, 22,192 inpatient admissions, 14,003 surgery procedures, 1,926 deliveries and 92,169 emergency room visits.

The University Hospital provides a significant number of jobs within its operations for minorities and for residents of its local community. Its roots are in the Newark Agreements signed in 1968 guaranteeing training and jobs for the community in exchange for land committed to medical college development. With an annual budget of approximately \$600M, The University Hospital is one of the largest employers in the City of Newark and is committed to serving as one of the region's economic stabilizers.

UMDNJ's Interventional Radiology Department offers expert state of the art minimally invasive image guided diagnostic and therapeutic care for a wide variety of vascular and nonvascular conditions affecting the chest, abdomen and extremities. Microwave ablation is an established current option in the treatment of hepatic, kidney and lung tumors in patients that are not surgical candidates as well as those that refuse surgery for these. University Hospital has an active Liver Transplant program and we treat over 50 patients a year with primary liver tumor using a variety of locoregional therapies, including Radiofrequency ablation. Microwave ablation offers a similar treatment option as RFA does with the advantage that it can be offered to patients that have larger tumors along with the added benefit of producing more reliable ablations in a faster time. This is especially advantageous when treating larger lesions as well as multiple tumor sites as the strain on resources when doing these can be reduced. The procedure for performing the ablation stays essentially the same as RFA, only the mechanism of burn achieved in the tumor is improved using this technology. The Interventional Radiology Department performs approximately 50 RFA procedures annually and is eager to offer this advanced treatment option to patients with care provided by its highly trained physicians, nurses and technologists. Our referring physicians from the surgical oncology and Liver transplant division are expecting UMDNJ's Interventional Radiology Department to offer current state of the art treatments for their patients.

1.4.5 Cost Liability

UMDNJ assumes no responsibility and bears no liability for costs incurred by bidders in the preparation and submittal of proposals in response to this Request for Proposal.

1.4.9 HIPAA Compliance

As a State Agency, New Jersey State regulations require that we obtain documentation regarding our vendor "HIPAA Compliance" status. In order to be in compliance and conduct business with your company for the procurements of goods and/or services, it will be necessary for your company to complete a Business Associate Agreement. This agreement involves the access to protected health information that is considered protected pursuant to federal, state and/or local laws and regulations in accordance with the privacy requirements of the "HIPAA" – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

The HIPAA privacy rules permit disclosure of patient information without authorization in certain situations in which no business associate agreement is needed. However, in the day to day interaction of providing the devices and services under this Request for Proposal, the Contractor may well have access to information unrelated to the patient receiving the medical device. For example, the Contractor's representative may be in a patient room with a patient not receiving a device. A Contractor's representative may have discussions with a physician regarding the Contractor's device and receive patient information by way of an example for future cases. A Contractor's representative may see another patient's X-rays while in a room reviewing a patient's records. For these and similar reasons, it is prudent to have a business associate agreement in place to safeguard these patients' rights to privacy.

1.4.10 Business Registration Notice

In accordance with N.J.S.A. 52:32-44(b), a bidder and its named subcontractors must have a valid Business Registration Certificate ("BRC") issued by the Department of Treasury, Division of Revenue prior to the award of a contract. To facilitate the proposal evaluation and contract award process, the bidder should submit a copy of its valid BRC and those of any named subcontractors with its proposal.

Any bidder, inclusive of any named subcontractors, who does not have a valid business registration at the time of the proposal submission opening or whose BRC was revoked prior to

the submission of the proposal should proceed immediately to register its business or seek reinstatement of a revoked BRC. Bidders are cautioned that it may require a significant amount of time to secure the re-instatement of a revoked BRC. The process can require actions by both the Division of Revenue and the Division of Taxation. For this reason, a bidder's early attention to this requirement is highly recommended. The bidder and its named subcontractors may register with the Division of Revenue, obtain a copy of an existing BRC or obtain information necessary to seek re-instatement of a revoked BRC online at www.state.nj.us/njbgs

A bidder otherwise identified by the Purchasing Services as a responsive and responsible bidder, inclusive of any named subcontractors, but that was not business registered at the time of submission of its proposal must be so registered and in possession of a valid BRC by a deadline to be specified in writing by the Purchasing Services. A bidder who fails to comply with this requirement by the deadline specified by the Purchasing Services will be deemed ineligible for contract award. Under any circumstance, the Purchasing Services will rely upon information available from computerized systems maintained by the State as a basis to verify independently compliance with the requirement for business registration.

Contractor shall give UMDNJ prompt written notice, with full details following the occurrence of the cause relied upon, and that the contractor must prove that it took reasonable steps to minimize delay or damages caused by foreseeable events and that the Contractor substantially fulfilled all non-excused obligations. Dates by which performance obligations are scheduled to be met will be extended for a period of time equal to the time lost due to any delay so caused.

5.0 PROPOSAL PREPARATION AND SUBMISSION INSTRUCTIONS

5.1 General

The bidder must follow instructions contained in this Request for Proposal and in the bid cover sheet in preparing and submitting its bid proposal. The bidder is advised to read thoroughly and to follow all instructions.

The information required to be submitted in response to this Request for Proposal has been determined to be essential in the bid evaluation and contract award process. Any qualifying statements made by the bidder to the Request for Proposal's requirements could result in a determination that the bidder's proposal is materially non-responsive. Each bidder is given wide latitude in the degree of detail it elects to offer or the extent to which plans, designs, systems, processes and procedures are revealed. Each bidder is cautioned, however, that insufficient detail may result in a determination that the bid proposal is materially non-responsive or, in the alternative, may result in a low technical score being given to the bid proposal.

The bidder is instructed to clearly identify any requirement of this Request for Proposal that the bidder cannot satisfy.

5.2 Proposal Delivery and Identification

In order to be considered for award a bid proposal must arrive at the Department of Purchasing Services in accordance with the instructions on the Request for Proposal cover sheet. 5.3 Number of Bid Proposal Copies

Each bidder must submit one (1) complete original bid proposal, clearly marked as the "ORIGINAL" bid proposal. Each bidder should also submit one (1) electronic copy of the complete bid proposal. It is suggested that the bidder make and retain a complete copy of its bid proposal.

5.5.1 Ownership Disclosure Form

The bidder must complete the attached Ownership Disclosure Form. A complete Ownership Disclosure Form must be received prior to, or accompanying, the bid. Failure to do so will preclude the award of a contract.

The following forms are required before Contract award and may be submitted with bidder’s proposal:

5.5.2 Business Registration Notice

In accordance with N.J.S.A. 52:32-44(b), a bidder and its named subcontractors must have a valid Business Registration Certificate (“BRC”) issued by the Department of Treasury, Division of Revenue prior to the award of a contract. Any bidder, inclusive of any named subcontractors, who does not have a valid business registration at the time of the proposal submission opening or whose BRC was revoked prior to the submission of the proposal should proceed immediately to register its business or seek reinstatement of a revoked BRC. Bidders are cautioned that it may require a significant amount of time to secure the re-instatement of a revoked BRC. The process can require actions by both the Division of Revenue and the Division of Taxation. For this reason, a bidder’s early attention to this requirement is highly recommended. The bidder and its named subcontractors may register with the Division of Revenue, obtain a copy of an existing BRC or obtain information necessary to seek re-instatement of a revoked BRC online at www.state.nj.us/njbgs

A bidder otherwise identified by the Purchasing Services as a responsive and responsible bidder, inclusive of any named subcontractors, but that was not business registered at the time of submission of its proposal must be so registered and in possession of a valid BRC by a deadline to be specified in writing by the Purchasing Services. A bidder who fails to comply with this requirement by the deadline specified by the Purchasing Services will be deemed ineligible for contract award. Under any circumstance, the Purchasing Services will rely upon information available from computerized systems maintained by the State as a basis to verify independently compliance with the requirement for business registration.

5.5.3 Affirmative Action

Before contract award, the proposed contractor must submit either a New Jersey Affirmative Action Certificate, or evidence that the bidder is operating under a federally approved or sanctioned affirmative action program. The requirement is a precondition of entering into a valid and binding contract.

Intended awardee(s) not in possession of either a New Jersey Certificate of Employee Information or a Federal Letter of Approval must complete the Affirmative Action Employee Information Report (AA-302) located on the web at http://www.nj.gov/treasury/purchase/forms/AA_%20Supplement.pdf, and shall submit the AA-302 form with the required fee to the state of New Jersey to obtain the required New Jersey Certificate of Employee Information. The requirement is a precondition of entering into a valid and binding contract.

5.5.4 Business Associate Agreement

The bidder must complete if applicable the attached Business Associate Agreement, involving the access to protected health information that is considered protected pursuant to federal, state and/or local laws and regulations in accordance with the privacy requirements of the “HIPAA” – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

5.5.5 Executive Order 117 Compliance and Certification

Effective November 15, 2008, all UMDNJ contractors are required to comply with Executive Order 117. In the early Fall of 2008, Governor Jon S. Corzine signed Executive Order No. 117, which is designed to enhance New Jersey’s efforts to protect the integrity of government contractual decisions and increase the public’s confidence in government. The Executive Order builds on the provisions of P.L. 2005, c. 51 (“Chapter 51”), which limits contributions to certain political candidates and committees by for-profit business entities that are, or seek to become, State government vendors.

Bidders should submit the Executive Order 117 Certification with their bid proposal. If the bidder fails to submit the Executive Order 117 Certification, the bidder, if selected for contract award, must submit and comply with Executive Order 117 requirements before the contract award can be finalized. 5.6.1 Technical Approach

The bidder must describe its Technical, Support and Maintenance, Delivery, Installation and Training Approach, plans to meet the requirements and required documents in the Scope of Work Section 3.0. (See Section 7.1)

The bidder should include an organizational chart showing the bidder's entire organizational structure. This chart should show the relationship of the individuals assigned the Contract to the bidder's overall organizational structure.

5.7.3 Bidder's Financial Capability

The bidder should provide proof of its firm's financial capacity and capabilities to undertake and successfully provide goods/services required under this Contract. A financial statement for the most recent fiscal year or bank reference is acceptable. The University reserves the right to check and evaluate the firm's financial capacity and capability by any means deemed appropriate. The submission of this information with the bid is desired by the University, but is not mandatory. However, if a bidder chooses not to include this information with its bid, this information may be requested from the bidder during the evaluation process. If the bidder is requested to submit this information during the evaluation process, the bidder will be required to submit it, and failure to do so will be cause for finding the bid non-responsive.

5.7.4 Listing of All Contracts Lost or Terminated in Last Three (3) Years (If Applicable)

The bidder should provide a list of all contracts the bidder has lost or has had terminated before the expiration date of the contract by the other party for whatever reason during the last three (3) years along with the reason why each one was lost or terminated.

5.8 Subsection 4 - Cost Proposal

All bidders must submit their cost proposal in accordance with the Price Sheet(s) included in Section 8.0 of this Request for Proposal. Failure to submit all information required will result in the bid being considered non-responsive. Each bidder is requested to hold its cost proposal firm for a minimum of 120 days so that an award can be made.

The bidder's cost proposal must be submitted in hard copy format and an electronic MS Excel spreadsheet. The Excel spreadsheet must follow the same layout or format as the table shown in Section 8.0, Price Sheet. The Excel spreadsheet must be on a floppy disk or compact disk and submitted with the bidder's proposal response.

ONLY price and costing information provided by the bidder in its original bid proposal submitted in response to this Request for Proposal may later be used for additional work and/or special projects to be paid against the Contract resulting from this Request for Proposal.

NOTE: The bidder's signature on the cover of this Request for Proposal guarantees that prices set forth within the preprinted price lists and/or catalogs will govern for the period of the Contract. The bidder also acknowledges that, notwithstanding any reference to price escalation clauses, FOB shipping point, and shipping charges contained in the preprinted price lists, catalogs, and/or literature, such references shall not be part of any Contract awarded as a result of this Request for Proposal.

Once submitted there can be NO alterations or modifications to the pricing of the original proposal without UMDNJ approval.

6.0 PROPOSAL EVALUATION AND CONTRACT AWARD

6.1 Evaluation Committee

Bids will be evaluated by an Evaluation Committee composed of members of affected departments together with representative(s) from the Department of Purchasing Services. Representatives from other governmental agencies may also serve on the Evaluation Committee. On occasion, the Evaluation Committee may choose to make use of the expertise of an outside consultant in an advisory role.

6.2 Oral Presentation and/or Clarification of Bids

A bidder may be required to give an oral presentation to the Evaluation Committee concerning its bid proposal. The Evaluation Committee may also require a bidder to submit written responses to questions regarding its bid.

The purpose of such communication with a bidder, either through an oral presentation or a letter of clarification, is to provide an opportunity for the bidder to clarify or elaborate on its bid. The original bid, as submitted, however, cannot be supplemented, changed, or corrected in any way during the evaluation process. No comments regarding other bids are permitted. Bidders may not attend presentations made by their competitors.

It is within the Evaluation Committee's discretion whether to require a bidder to give an oral presentation or require a bidder to submit written responses to questions regarding its bid. Action by the Evaluation Committee in this regard should not be construed to imply acceptance or rejection of a bid. The Purchasing Services' buyer is the sole point of contact regarding any request for an oral presentation or written clarification.

6.3 Evaluation Criteria

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate bid proposals received in response to this Request for Proposal. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process.

6.3.1 The bidder's general approach and plans to meet the requirements of this RFP.

6.3.2 The bidder's documented experience.

6.3.3 The bidder's Microwave Ablation System Product Evaluation results.

6.3.4 The bidder's cost proposal.

6.4 University's Right to Consider Additional Information

- 6.4.1 The Vice President of Supply Chain may obtain any information determined to be appropriate regarding the ability of the bidder to supply and/or render the service required by this Request for Proposal.
- 6.4.2 The Vice President of Supply Chain may consider such other factors that, in the opinion of the Vice President, are important in evaluating the bidder's proposal and awarding Contracts as determined to be in the best interest of the University.
- 6.4.3 The University reserves the right to request all bidders to explain the method used to arrive at any or all cost or pricing figures.
- 6.4.4 When making the Contract award decision, the University may consider evidence of formal or other complaints against any bidder(s) by the University for Contracts held in the past or present by the bidder.
- 6.4.5 The University reserves the right to check the bidder's financial capacity and ability to successfully undertake and complete the services required by this Request for Proposal by any means deemed appropriate.
- 6.4.6 The University reserves the right to conduct site inspections of any facility(s) serviced by the bidder(s) to assist in judging the bidder's ability to provide the services required by this Request for Proposal. This applies to all facilities services by the bidder or any subcontractor to the bidder. This right extends to all facilities of which the University is aware, or about which it becomes aware, that the bidder is servicing, whether or not the facility is listed in the bidder's proposal.

6.5 Negotiation and Best And Final Offer (BAFO)

After evaluating bid proposals, the evaluation committee may enter into negotiations with each bidder in the competitive range, unless there are too many highly rated proposals to evaluate efficiently. In this situation, UMDNJ may limit the competitive range to the number of proposals that will permit efficient competition among the most highly rated proposals. The primary purpose of negotiations is to maximize UMDNJ's ability to get the best value, based on the requirements and evaluation criteria set forth in the RFP. Negotiations may involve the identification of significant proposal weaknesses, ambiguities and other deficiencies that could limit a bidder's award potential, including payments. More rounds of negotiations may be held with one bidder in the competitive range than with another. Negotiations will be structured to safeguard information and ensure that all bidders in the competitive range are treated fairly. When the evaluation committee determines to conclude negotiations, all bidders in the competitive range will be so notified and advised of the time and place for submission of best and final offers. The best and final offer can modify any aspect of the bid proposal, provided mandatory RFP requirements are satisfied and further provided that the revised cost proposal is

not higher than the original cost proposal. Any revised cost proposal that is not equal to or lower in cost than the original cost proposal will be rejected as non-responsive.

Evaluation of the best and final offers (BAFO) will be on the basis of cost and the evaluation criteria set forth in the RFP. If, after review of the best and final offers, clarification is required, it may be sought from the bidders. If further negotiation is desired after evaluation of the revised proposals, it will be followed by another BAFO opportunity. UMDNJ reserves the right to reassess the competitive range before proceeding with a subsequent round of negotiations and BAFO submissions and to remove from the competitive range any proposal that is no longer considered to be a leading contender for award. After evaluation of the final BAFO submissions, the evaluation committee will recommend to the Vice President for award the responsible bidder(s) whose bid proposal(s), conforming to the RFP, is most advantageous to UMDNJ, cost and other factors considered. The Vice President may accept, reject or modify the recommendation of the evaluation committee. The Vice President may negotiate further increases in costs with the selected bidder.

Negotiations will only be conducted in those circumstances where they are deemed by UMDNJ to be in UMDNJ's best interests and to maximize the UMDNJ's ability to get the best value. Therefore, bidders are advised to submit their best technical and cost proposals in response to this RFP, because UMDNJ may, after evaluation, make a contract award based on the content of these initial submissions, without further negotiation with any bidder.

All contacts, records of initial evaluations, any correspondence with bidders related to any request for clarification, negotiation or BAFO, any revised technical and/or cost proposals, the Evaluation Committee Report and the Award Recommendation, will remain confidential until a Notice of Intent to Award a contract is issued.

6.6 Contract Award

The Contract shall only be awarded after a full evaluation has been completed. Bidders who submit a proposal are not guaranteed a Contract award. The Contract shall be awarded with reasonable promptness by written notice to that responsible and responsive bidder whose bid, conforming to the Request for Proposal, will be most advantageous to UMDNJ, price and other factors considered. Any or all bids may be rejected when the Vice President of Supply Chain Management determines that it is in the public interest to do so.

6.7 Bidder's Right to Challenge a Contract Award

Except in cases of emergency, bidders have the right to protest a proposed contract award.

A bidder's protest must be submitted to the buyer of record with a copy to the Vice President of Supply Chain Management ("Vice President") within ten (10) days of receipt of notice to the bidder that it did not receive a contract award for its submitted bid proposal or notice that an award had been made to another bidder. The protest period may be shortened by the Vice President of Supply Chain Management. If the protest period is shortened or a protest period is not authorized due to emergency, all bidders will receive notice of the shortened protest period or emergency in the notice sent to bidder on the award of the contract.

Notices of Contract award under this section may be faxed, e-mailed, sent by regular mail or by any other means, excluding telephonic communication, conducive to transmitting the notice. If notice is sent by regular mail, the recipient is deemed to have received the notice three (3) days after mailing.

If a bidder files a protest to a contract award under this section, the bidder must set forth in writing with specificity the basis of the protest. At the time of the protest filing, the bidder must also submit all documentation supporting the basis of the protest. Failure to comply with these requirements may lead to rejection of the protest and UMDNJ award of the contract.

The protest will be reviewed and addressed with reasonable promptness. If deemed necessary by Vice President, a hearing may be held on the merits of the protest. In all cases, the Vice President will notify the bidder of the final determination on the protest.

C. Business Associate shall notify, in writing, the Covered Entity when the Business Associate discovers a Breach of Unsecured PHI. A Breach is deemed to have been discovered by a Business Associate as of the first day on which Business Associate (by its employee, officer, or other agent) knows or would have known of such Breach by exercising reasonable diligence. 2. To the extent possible, provide the identity of each Individual whose Unsecured PHI was, or is reasonably believed to have been, Breached, and any other information that the Covered Entity is required to include in the notice to affected Individuals under 45 C.F.R. 164.404(c), either at the time of notice of Breach to the Covered Entity or as promptly thereafter as information becomes available. This provision also shall apply to PHI that is in the possession of subcontractors or agents of Business Associate.

In the event that Business Associate determines that returning or destroying the PHI is infeasible, Business Associate shall provide to Covered Entity written notification of the conditions that make return or destruction infeasible within thirty (30) calendar days of such request. In such case, Business Associate shall extend the protections of this BAA to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such PHI. This provision also shall apply to PHI that is in the possession of subcontractors or agents of Business Associate.

3. Should the Business Associate make a disclosure of PHI in violation of this BAA, Covered Entity shall have the right to immediately terminate any contract, other than this BAA, then in force between the Parties, including the Underlying Agreement.

4. The provisions of this Section IV.C. shall survive the termination of this BAA and the Underlying Agreement for any reason.

In the event of any such breach or threatened breach by Business Associate, Covered Entity shall be entitled to (i) immediately enjoin and restrain Business Associate from any continuing violations and (ii) reimbursement for reasonable attorneys' fees, costs and expenses incurred as a proximate result of the breach. The remedies in this Section V shall be in addition to any action for damages and/or other remedy available to Covered Entity for such breach.

5.12 Auditing

The Contractor shall be required to maintain all pertinent financial and accounting records and evidence pertaining to the performance of all services provided to the UMDNJ. All records so maintained shall be in accordance with Generally Accepted Accounting Principles (GAAP), SSAE 16 and other procedures specified by UMDNJ. The Contractor shall maintain for all accounts appropriate ledger records that reflect the original balance, additional charges, adjustments, collections, commissions and all payments received in order to settle disputes that arise from the services, including any collection activities and to provide a clear audit trail for UMDNJ. The Contractor shall maintain books, records, documents and other evidence pertaining to the administrative costs and expenses of the contract to properly reflect all revenues, all direct and apportioned net costs, and all other costs and expenses which relate to the performance of the contract. All documentation and/or correspondence shall be maintained by the Contractor in a case file or on an automated system approved by UMDNJ. UMDNJ and/or its authorized representatives shall have the right to access all records that pertain to work performed under this contract. This includes UMDNJ's right to access financial and accounting records that support the Contractor's billing for services provided at any time during the contract period and for three (3) years from the expiration date and final payment on said contract. All records of the Contractor relating to this contract shall be retained for five (5) years following the date of final payment under this contract. Nothing in this contract shall be construed to permit or authorize the Contractor to destroy or eliminate documents, records or files in violation of any statute or rule governing the Contractor's retention of records.

If the Contractor is providing services under the contract with the University, then Contractor is required to have an annual SSAE 16 audit of its internal controls. This audit must report both on controls placed in operation and on tests of the operating effectiveness of the systems that run the Contractor's applications or transactions. The annual tests must correspond with each of the University's fiscal year, which is the twelve-month period ending June 30. Audit reports should be sent to the University Internal Audit Department and to the University's Supply Chain Management Department no later than 30 days after the report is issued to Contractor.

5.13 Contractor Reporting

UMDNJ may request the Contractor to report, from time to time, on the number and nature of purchasing transactions being handled under this contract. This information may include, but is not limited to, the number of items purchased, the dollar value of items purchased, etc.

5.14 Computation of Time

5.15 Warranty of Supplies

5.15.1 Notwithstanding inspection and acceptance by the UMDNJ of supplies under the contract or any provision of this contract concerning the conclusiveness of any provision of this contract that at time of delivery:

- (a) All supplies furnished under this contract will be free from defects in material or workmanship and will conform with the specifications and all other requirements of this contract; and,
- (b) The preservation, packaging, packing, and marking, and the preparation for, and method of, shipment of such supplies will conform with the requirements of this contract.

5.15.2 Upon written notice of any breach of warranty, UMDNJ may either:

- (a) By written notice require the prompt correction or replacement of any supplies or part thereof (including preservation, packaging, packing, and marking) that do not conform with the requirements of this contract; or
- (b) Retain such supplies, whereupon the contract price thereof shall be reduced by an amount equitable under the circumstances and the Contractor shall promptly make appropriate repayment.

If the contract provides for inspection of supplies by sampling procedures, UMDNJ may, at its option, determine the quantity of supplies or parts thereof which are subject to this paragraph in accordance with such sampling procedures.

When return, correction or replacement is required, UMDNJ shall return the supplies and transportation charges and responsibility for such supplies while in transit shall be borne by the Contractor.

If the Contractor fails or refuses to correct or replace the non-conforming supplies within a period of ten (10 days) (or such longer period as UMDNJ may authorize in writing) after receipt of notice from UMDNJ specifying such failure or refusal, UMDNJ may, by contract or otherwise, correct or replace them with similar supplies and charge to the Contractor the cost occasioned to UMDNJ thereby. In addition, if the Contractor fails to furnish timely disposition instructions, UMDNJ may dispose of the non-conforming supplies for the Contractor's account in a reasonable manner, in which case UMDNJ is entitled to reimbursement from the Contractor or from the proceeds for the reasonable expenses of the care and disposition of the non-conforming supplies, as well as for excess costs incurred or to be incurred.

Any supplies or parts thereof corrected or furnished in replacement pursuant to this clause shall also be subject to all the provisions of this clause to the extent as supplies initially delivered.

5.15.7 The word "supplies" as used herein includes related services.

5.15.8 The rights and remedies of UMDNJ provided in this clause are in addition to and do not limit any rights afforded to UMDNJ by any other clause of the contract.

5.15.9 Failure to agree upon any determination to be made under this clause shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

5.16 Material and Workmanship

Unless otherwise specifically provided in this contract, all equipment, material, and articles covered by this contract are to be new and of the most suitable grade for the purpose intended. The Contractor shall number all other identifying data and information respecting the performance, capacity, nature, and rating of the machinery and mechanical and other equipment, which the Contractor contemplates incorporating in the work. When required by this contract or when called for by UMDNJ, the Contractor shall furnish for approval by UMDNJ full information concerning the material or articles (including, but not limited to, items such as Material Safety Data (MSD) sheets), which the Contractor contemplates incorporating in the work. No materials will be accepted unless MSD's have been provided and the containers are labeled according to OSHA 29CFR 1910, 1200 and the New Jersey Right to Know Law. When so directed, samples shall be submitted for approval, and this shall be done at the Contractor's expense, with all shipping charges prepaid. Machinery, equipment, material, and articles installed or used without required approval shall be at the risk of subsequent rejection.

5.17 Inspection and Tests

All supplies shall be subject to inspection and test by UMDNJ.

5.18 Price Fluctuation During Contract

Unless otherwise noted by UMDNJ, all prices quoted shall be firm through issuance of a contract or purchase order and shall not be subject to increase during the period of the contract.

In the event of a manufacturer's or Contractor's price decreases during the contract period, UMDNJ shall receive the full benefit of such price reduction on any undelivered purchase order and on any subsequent order placed during the contract period. The Executive Director of Materials Management must be notified in writing of any price reduction within five (5) days of the effective date.

Failure to report price reductions will result in cancellation of contract for cause, pursuant to the provisions of these Standard Terms and Conditions.

5.19 Delivery Costs

All shipments must be made “F.O.B. Destination.” Regardless of the method of quoting shipments, the Contractor shall assume all costs, liability and responsibility for the delivery of merchandise in good condition to UMDNJ.

“F.O.B. Destination” does not cover “spotting, but does include delivery on the receiving platform at any destination within UMDNJ, unless otherwise specified. No additional charges will be allowed for any additional transportation costs resulting from partial shipments made at the Contractor’s convenience when a single shipment is ordered. The weights and measures of UMDNJ shall govern.

Any relationships subject to this provision shall be reported in writing forthwith to the Executive Commission on Ethical Standards, which may grant a waiver of this restriction upon application of the UMDNJ officer or employee or upon a finding that the present or proposed relationship does not present the potential, actuality or appearance of a conflict of interest.

No bidder or contractor shall influence, or attempt to influence or cause to be influenced, any UMDNJ officer or employee in his official capacity in any manner which might tend to impair the objectivity or independence of judgment of said officer or employee.
