Synopsis:

Added: May 08, 2009 6:39 pm

The General Services Administration (GSA), Public Buildings Service (PBS) Contracting and Facilities Division (PGE) is seeking contractors to provide Nationwide Laser Scanning and Related Professional Services.

The Government intends to award five National Indefinite Delivery - Indefinite Quality (IDIQ) contracts pursuant to procedures established by the Brooks Act and FAR Subpart 36.6, with a base year and four 1-year options, for a total of five (5) years. Of the five potential awards, up to three awards will be awarded to Unrestricted Businesses and up to three awards will be 100% Set-Aside for Small Businesses. Each contract, whether Unrestricted or Small Business ventures would require numerous specialty consultants and subcontractors. The contracts would be nationwide in geographic scope (i.e. all States and US Territories). The Government reserves the right to make multiple awards.

Market Analysis. A Sources Sought Notice (GS-00P-09-CY-0076) was published in FedBizOpps on February 4, 2009, inviting contractors to participate in a market analysis to determine the capability and availability of small business firms to provide nationwide Laser Scanning Services for the Public Buildings Service (PBS). A total of 32 firms responded by the closing date of February 19, 2009. As a result, it has been determined that this requirement can be partially set-aside for small businesses.

Background. In July 2003, the General Services Administration (GSA), Public Buildings Service (PBS), Office of the Chief Architect and Construction Programs (OCA-CP) established the National 3D-4D-BIM Program. To date, OCA-CP has initiated over 70+ capital projects across the nation using an array of 3D, 4D, and Building Information Modeling (BIM) technologies in support of GSA business needs. BIM visualization, coordination, simulation, and optimization from three-dimensional (3D), four-dimensional (4D), and BIM computer technologies serve GSA in meeting customer design, construction, and program requirements. GSA is committed to a strategic and incremental implementation of 3D, 4D, BIM technologies. Further information on GSA's BIM Program can be found at www.gsa.gov/bim.

GSA renovation and new construction projects are located throughout the United States and may include: Federal Office Buildings, Federal Courthouses, Border Stations, Laboratories, Warehouses, Childcare Facilities, and other types of real property. Although not required, it is considered advantageous for the prime contractor (or its subcontractors) to have an office located near the GSA Regional Offices before contract award. The GSA Regions are (1) New England, Boston, MA; (2) Northeast & Caribbean, New York, NY; (3) Mid Atlantic, Philadelphia, PA; (4) Southeast-Sunbelt, Atlanta, GA; (5) Great Lakes, Chicago, IL; (6) The Heartland, Kansas City, MO; (7) Greater Southwest, Fort Worth, TX; (8)

[questions and answers - 6-3-09.doc](#) (87.50 Kb)

Description: Please see attached Questions and Answers. Please be advised that Evaluation Factor #3 has been changed to remove the submittal of Subcontracting Plans and Standard Forms 294 and 295. Evaluation Factor #3 shall NOW read as follows:

Factor 3: Past Performance (25%)

Firms must demonstrate an acceptable past performance history, within the last five (5) years prior to the date of this solicitation. Firms shall submit a minimum of 1 reference information (i.e., project contact and telephone/email address) for each of the project examples submitted in relation to the "Technical Competence & Project Examples" evaluation factor. Since each firm is required to submit a minimum of 3 examples, a minimum of 3 references are required for each firm.

The Firm's past performance in carrying out the work of a comparable nature will be evaluated under the following factors: a) quality of the services; b) timeliness of performance; c) business relations; d) cost control; and e) compliance with subcontracting plan goals (including the subcontracting plan goals for small disadvantage business (SDB) concerns and monetary targets for SDB participation).

In the case of a firm for whom information on past performance is not available or inadequate to evaluate past performance, the firm will not be evaluated favorably or unfavorably on past performance.

In addition to the above, the following information will be evaluated:

- If the Firm provided higher quality deliverables than expected
- Past project came in under budget/ahead of schedule

- Specific examples of above-and-beyond customer service and support.

Contracting Office Address:

1800 F Street, NW, Room 4302
Washington, District of Columbia 20405

Place of Performance:

Nationwide

United States
