PROJECT: R216871 - Learning Management System
DUE: March 24, 2011 at 2:00 pm local time

This Addendum is part of the bidding and contract documents and modifies the original bidding document.

Questions and answers:

- Q. Hypothetically, if the University is to host the learning management system, would the University be purchasing Oracle on its own? In the past, the University has been licensing Oracle from Blackboard for use with Vista.
- A. Respondents are to provide the University with the cost to deploy their system. Respondents could provide the cost to deploy with, or without, Oracle. If there are database options available (Oracle vs SQL or MySQL) it would appropriate to note those options. All costs to acquire the system are to be indicated along with an explanation of what is included in the pricing.
