1.0 INFORMATION FOR BIDDERS

1.1 Purpose and Intent of the Procurement

1.1.1 Purpose

This Request for Proposal (RFP) is issued by the University of Medicine and Dentistry of New Jersey (UMDNJ), Department of Purchasing Services on behalf of University Behavioral HealthCare and its component University Corrections Health Care (UCHC) unit pursuant to a service agreement ("Agreement") between UMDNJ and the New Jersey Department of Corrections (NJDOC).

The purpose of this RFP is to select one or more companies to contract with UMDNJ to provide electrocardiograph (ECG) equipment, related supplies and associated analysis for inmates and civilly committed residents of the New Jersey Department of Corrections' (NJDOC). UMDNJ is interested in receiving proposals from professionally qualified firms that perform all aspects of the required work as detailed in section 3.0 Scope of work. Services under this contract will begin on or about February 1, 2010.

1.1.2 Intent

It is the University's intent to award a contract to one or more firms to provide ECG equipment, analysis and interpretive services for the inmates and civilly committed residents of the NJDOC who require this service, as one part of an overall program to provide medical and dental services for the NJDOC's adult correctional facilities.

Any contract will be awarded to a responsible bidder whose bid, conforming to this request for proposal, is most advantageous to the UMDNJ, price and other factors considered.

1.2 Background

UBHC is the integrated behavioral healthcare system of the UMDNJ. UCHC is the healthcare unit of UBHC, providing medical and mental health services to inmates of the UNDOC.

UMDNJ, through UCHC, became the provider of health care services to NJDOC inmates and resident populations beginning October 1, 2008, pursuant to a service agreement ("Agreement") between UMDNJ and NJDOC. UMDNJ is seeking proposals through an open and competitive bid process to subcontract with the University to provide electrocardiogram (ECG) equipment and related analysis for the inmate and resident populations of NJDOC. The healthcare services that UCHC provides to NJDOC inmates and residents includes a full range of medical and dental services, both provided by direct provision of healthcare personnel and through subcontracted program support services.

UMDNJ supports NJDOC policy that electrocardiogram (ECG) equipment and analysis will be made available when an inmate's or resident's health would be adversely affected without such treatment, i.e. medical necessity within a prison setting.

The specific sites at which inmates and residents are located who may require medically necessary electrocardiogram (ECG) equipment and related analysis and related equipment are

situated throughout the State of New Jersey. The addresses and the census of the fourteen state prisons and two specialized residential programs are listed below. The number of units that have been utilized at each site is indicated below. This listing is for informational purposes only and is not guarantee of future requirements.

1.4.4 Bidder Responsibility

The bidder assumes sole responsibility for the complete effort required in this Request for Proposal. By submitting a proposal in response to this Request for Proposal, the bidder represents that it has satisfied itself, from its own investigation, of all the requirements of this Request for Proposal. UMDNJ is not responsible for any debts or payments incurred by the bidder in the performance of this Contract.

1.4.5 Cost Liability

UMDNJ assumes no responsibility and bears no liability for costs incurred by bidders in the preparation and submittal of proposals in response to this Request for Proposal.

1.4.6 Contents of Bid Proposal

The entire content of every bid proposal will be publicly opened and becomes a public record. This is the case notwithstanding any statement to the contrary made by a bidder in its bid proposal. All information submitted by bidders in response to a bid solicitation is considered public information, except as may be exempted from disclosure by the Open Public Records Act, N.J.S.A. 47:1A-1 et seq. and the common law.

A bidder may designate specific information as not subject to disclosure when the bidder has a good faith legal/factual basis for such assertion. UMDNJ reserves the right to make the determination and will advise the bidder accordingly. The location in the bid proposal of any such designation should be clearly stated in a cover letter.

A separate Ownership Disclosure Form, Affirmative Action Employee Information Report and, if applicable, foreign (out of State) corporate registration must be supplied by each party to the joint venture.

1.4.9 HIPAA Compliance

As a State Agency, New Jersey State regulations require that we obtain documentation regarding our vendor "HIPAA Compliance" status. In order to be in compliance and conduct business with your company for the procurements of goods and/or services, it will be necessary for your company to complete a Business Associate Agreement. This agreement involves the access to protected health information that is considered protected pursuant to federal, state and/or local laws and regulations in accordance with the privacy requirements of the "HIPAA" – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

The HIPAA privacy rules permit disclosure of patient information without authorization in certain situations in which no business associate agreement is needed. However, in the day to day interaction of providing the devices and services under this Request for Proposal, the Contractor may well have access to information unrelated to the patient receiving the medical device. For example, the Contractor's representative may be in a patient room with a patient not receiving a device. A Contractor's representative may have discussions with a physician regarding the Contractor's device and receive patient information by way of an example for future cases. A Contractor's representative may see another patient's X-rays while in a room reviewing a patient's records. For these and similar reasons, it is prudent to have a business associate agreement in place to safeguard these patients' rights to privacy.

1.4.10 Business Registration Notice

All New Jersey and out of State business organizations must obtain a Business Registration Certificate (BRC) from the Department of the Treasury, Division of Revenue, prior to conducting business with the State of New Jersey. Proof of valid business registration must be submitted by a bidder with its bid proposal. Failure to submit such valid business registration with a bid will render the bid materially non-responsive. The business registration form (Form NJ-REG) can be found online at <http://www.state.nj.us/treasury/revenue/busregcert.htm>.

Nonetheless, if an employee, contractor or agent believes that the organization's response is deficient and unresponsive, the employee shall bring these concerns to UMDNJ's Office of Ethics and Compliance. If such follow-up still does not trigger an investigation, after a reasonable period of time, the employee, contractor or agent has the ability to bring his/her concerns to the appropriate government agency under the relevant Federal and/or State laws.

This information shall be provided to all UMDNJ employees and all contractors and agents of UMDNJ.

With respect to software computer programs and/or source codes developed for UMDNJ, the work shall be considered "work for hire," i.e., UMDNJ, not the Contractor or subcontractor, shall have full and complete ownership of all software computer programs and/or source codes developed. To the extent that any of such materials may not, by operation of the law, be a work made for hire in accordance with the terms of this Agreement, Contractor or subcontractor hereby assigns to UMDNJ all right, title and interest in and to any such material, and the UMDNJ shall have the right to obtain and hold in its own name and copyrights, registrations and any other proprietary rights that may be available.

All financial, statistical, personnel and/or technical data supplied by UMDNJ to the Contractor are confidential. The Contractor is required to use reasonable care to protect the confidentiality of such data. Any use, sale or offering of this data in any form by the Contractor, or any individual or entity in the Contractor's charge or employ, will be considered a violation of this contract and may result in contract termination and the Contractor's suspension or debarment from UMDNJ contracting. In addition, such conduct may be reported to the State Attorney General for possible criminal prosecution.

The Contractor is not permitted to issue news releases pertaining to any aspect of the services being provided under this contract without prior written consent of the Vice President of Supply Chain Management.

However, any claim against UMDNJ relating to a final decision by the Vice President of Supply Chain Management regarding contract award rescission, contract interpretation, Contractor performance and/or contract reduction, suspension or termination shall not accrue, and the time period for performing any act required by N.J.S.A. 59:8-8 or 59:13-5 shall not commence, until a decision is rendered by the Superior Court of New Jersey, Appellate Division (or by the Supreme Court of New Jersey, if appealed) that such final decision by the Vice President of Supply Chain Management was improper.

4.15.2 Remedies

Nothing in the contract shall be construed to be a waiver by UMDNJ of any warranty, expressed or implied, or any remedy at law or equity, except as specifically and expressly stated in writing executed by the Vice President of Supply Chain Management.

4.16 Form of Compensation and Payment

The Contractor must submit invoices to UMDNJ with supporting documentation evidencing that the product and/or work for which payment is sought has been satisfactorily completed. Invoices must reference the Contract number and Purchase Order number and also must be in strict accordance with the prices and discounts that were submitted and accepted with this proposal. When applicable, invoices should reference the appropriate Request for Proposal price sheet line number from the Contractor's bid proposal. All invoices must be approved by UMDNJ before payment will be authorized.

UMDNJ will issue payment for goods and services within forty-five (45) days of the receipt and acceptance of goods and/or services by the using department, whichever is later. Vendors shall not submit an invoice to Accounts Payable until the vendor receives a Purchase Order from UMDNJ for the goods and/or services. Vendors shall also not date an invoice that is before the date the Purchase Order is issued by UMDNJ.

Vendors may propose a discount for payments made before the 45 day period. UMDNJ may exercise the discretion to take advantage of such early payment terms.

4.16.1 Payment for Special Projects/Additional Work

Invoices must also be submitted for any special projects, additional work or other items properly authorized and satisfactorily completed under the contract. Invoices shall be submitted according to the payment schedule agreed upon when the work was authorized and approved. Payment can

only be made for work when it has received all required written approvals and has been satisfactorily completed.

4.17 Additional Work and/or Special Projects

The Contractor shall not begin performing any additional work or special projects without first obtaining written approval from the Vice President of Supply Chain Management.

In the event that the need for additional work and/or a special project arises, UMDNJ will submit such a request to the Contractor in writing. The Contractor must present a written proposal to perform the additional work/special project to UMDNJ. The proposal should provide justification for the necessity of the additional work/special project. The relationship between the additional work/special project being requested and the work required by the Contractor under the base contract must be clearly established by the Contractor in its proposal for performing the additional work/special project. The Contractor's written proposal must provide a detailed description of the work to be performed, broken down by task and subtask. The proposal should contain details on the level of effort, including hours, labor categories, etc., necessary to complete the additional work.

The written proposal must detail the cost necessary to complete the additional work in a manner consistent with the contract. The written cost proposal must be based upon the hourly rates, unit costs or other cost elements submitted by the Contractor in the Contractor's original bid proposal submitted in response to this Request for Proposal. Whenever possible, the cost proposal should be a firm, fixed cost to perform the required work. The firm fixed price should specifically reference and be tied directly to costs submitted by the Contractor in its original bid proposal. A payment schedule, tied to successful completion of tasks and subtasks, must be included.

Upon receipt of the Contractor's written proposal, it shall be forwarded to the Vice President of Supply Chain Management for written approval. Complete documentation from the using agency, confirming the need for the additional work/special project, must be submitted.

No additional work and/or special project may commence without the Vice President of Supply Chain Management's written approval. In the event the Contractor proceeds with additional work and/or special projects without the written approval of the Vice President of Supply Chain Management, it shall be at the Contractor's sole risk. UMDNJ shall be under no obligation to pay for work done without the Vice President of Supply Chain Management's written approval.

4.18 Option to Reduce Scope of Work

UMDNJ has the option, in its sole discretion, to reduce the scope of work for any task or subtask called for under this contract. In such an event, the Vice President of Supply Chain Management shall provide advanced, written notice to the Contractor.

Upon receipt of such written notice, the Contractor will submit, within five (5) working days to the Vice President of Supply Chain Management, an itemization of the work effort already completed by task or subtasks. The Contractor shall be compensated for such work effort according to the applicable portions of its cost proposal.

4.19 Suspension of Work

The Vice President of Supply Chain Management may, for valid reason, issue a stop order directing the Contractor to suspend work under the contract for a specific time. The Contractor shall be paid until the effective date of the stop order. The Contractor shall resume work upon the date specified in the stop order or upon such other date as the Vice President of Supply Chain Management may thereafter direct in writing. The period of suspension shall be deemed added to the Contractor's approved schedule of performance. The Vice President of Supply Chain Management and the Contractor shall negotiate an equitable adjustment, if any, to the contract price.

4.20 Changes in Law

Whenever an unforeseen change in applicable law or regulation affects the services that are the subject of this contract, the Contractor shall advise the Vice President of Supply Chain Management in writing and include in such written transmittal any estimated increase or decrease in the cost of its performance of the services as a result of such change in law or regulation. The Vice President of Supply Chain Management and the Contractor shall negotiate an equitable adjustment, if any, to the contract price.

4.21 Material Safety Data Sheets

Upon request, the Contractor shall furnish material safety data sheets (MSDS), or manufacturers' equivalent information sheets, on the products and/or chemicals used in performing the services specified in this Request for Proposal to the University's Project Manager. These sheets must list complete chemical ingredients including the percentage composition of each ingredient on the mixture (down to 0.1%), the chemical abstract services numbers for those substances listed any potentially hazardous products which may give off gas during or following application. Failure to do so may constitute reason for termination of the contract.

4.22 Items Ordered and Delivered

University departments are authorized to order, and the Contractor is authorized to ship, only those items covered by the contract. If a review of orders placed by a department reveals that material other than that covered by the Contract has been ordered and delivered, such delivery shall be a violation of the terms of the Contract and may be considered, by the Vice President of Supply Chain Management, in the termination of the Contract or in the award of any subsequent Contract(s). The Vice President of Supply Chain Management may take such steps as are necessary to have the items returned by the department, regardless of the time between the date of delivery and discovery of the violation. In such event, the Contractor shall reimburse the University the full purchase price.

4.23 Timely Delivery

The Contract involves items that are necessary for the continuation of ongoing, critical services. Any delay in delivery of these items would disrupt University services and could force the University to immediately seek alternative sources of supply on an emergency basis. Timely delivery is critical to meeting the University's ongoing needs.

4.24 Chapter 51 / Executive Order 117 Compliance and 2-year Vendor Certification

In order to safeguard the integrity of State government procurement by imposing restrictions to insulate the award of State contracts from political contributions that pose the risk of improper influence, purchase of access, or the appearance thereof, Public Law 2005, c.51, was signed into law on March 22, 2005. On September 24, 2008, Governor Corzine issued Executive Order 117, which is designed to enhance New Jersey's efforts to protect the integrity of procurement decisions and increase the public's confidence in procurement. The Executive Order builds upon the provisions of Chapter 51. The State Treasurer or his designee shall review the Disclosures submitted pursuant to this section, as well as any other pertinent information concerning the contributions or reports thereof by the intended awardee, prior to award, or during the term of the contract, by the Contractor. If the State Treasurer determines that any contribution or action by the Contractor constitutes a breach of contract that poses a conflict of interest in the awarding of the contract under this solicitation the State Treasurer shall disqualify the Business Entity from award of such contract.

4.25 New Jersey Election Law Enforcement Commission Requirement

The Contractor is advised of its responsibility to file an annual disclosure statement on political contributions with the New Jersey Election Law Enforcement Commission (ELEC), pursuant to N.J.S.A. 19:44A-20.13 (P.L. 2005, c.271, section 3) if the Contractor receives in excess of \$50,000 from a public entity in a calendar year. It is the Contractor's responsibility to determine if filing is necessary. Failure to so file can result in the imposition of financial penalties by ELEC. Additional information about this requirement is available from ELEC at 888-313-3532 or at www.elec.state.nj.us.

4.26 No Non-Compete Clause

The Contractor shall not enter into agreements with employees, independent contractors or any other party which contain "Not to Compete" or "Non-Competition" provisions that would in any way restrict the ability of UMDNJ to provide services in their facilities.

4.27 Foreign (out of State) Corporations

All foreign corporations receiving a notice of Contract award shall be afforded seven (7) days thereafter to register with the State of New Jersey, Department of the Treasury's Division of Revenue. <http://www.state.nj.us/treasury/revenue/busregcert.htm>

This Contract and any and all litigation arising there from or related thereto shall be governed by the applicable laws, regulations and rules of evidence of the State of New Jersey without reference to conflict of laws principles.

4.29 Tax Exempt Status

UMDNJ is tax exempt. N.J.S.A. 54:32b-1, et. seq., exempts the material listed in this RFP from New Jersey State Sales or Use Taxes.

4.30 Late Delivery and Liquidated Damages

The Contractor must immediately advise the Vice President of Supply Chain Management of any circumstance or event that could result in the late completion of any task or subtask required to be completed on or by a certain date.

The Contractor shall not be liable for any failure or delay in performance under the Contract to the extent said failures or delays are proximately caused by causes beyond the Contractor's reasonable control and occurring without its fault or negligence, including, without limitation, failure of suppliers, subcontractors, and carriers, to substantially meet its performance obligations under the Contract, provided that, as a condition to the claim of non-liability, the contractor shall give UBHC prompt written notice, with full details following the occurrence of the cause relied upon, and that the contractor must prove that it took reasonable steps to minimize delay or damages caused by foreseeable events and that the Contractor substantially fulfilled all non-excused obligations. Dates by which performance obligations are scheduled to be met will be extended for a period of time equal to the time lost due to any delay so caused.

5.0 PROPOSAL PREPARATION AND SUBMISSION INSTRUCTIONS

5.1 General

The bidder must follow instructions contained in this Request for Proposal and in the bid cover sheet in preparing and submitting its bid proposal. The bidder is advised to read thoroughly and to follow all instructions.

The information required to be submitted in response to this Request for Proposal has been determined to be essential in the bid evaluation and contract award process. Any qualifying statements made by the bidder to the Request for Proposal's requirements could result in a determination that the bidder's proposal is materially non-responsive. Each bidder is given wide latitude in the degree of detail it elects to offer or the extent to which plans, designs, systems, processes and procedures are revealed. Each bidder is cautioned, however, that insufficient detail may result in a determination that the bid proposal is materially non-responsive or, in the alternative, may result in a low technical score being given to the bid proposal.

The bidder is instructed to clearly identify any requirement of this Request for Proposal that the bidder cannot satisfy.

5.2 Proposal Delivery and Identification

In order to be considered for award a bid proposal must arrive at the Department of Purchasing Services in accordance with the instructions on the Request for Proposal cover sheet. Bidders submitting proposals are cautioned to allow adequate delivery time to ensure timely delivery of proposals. UMDNJ regulations mandate that late proposals are ineligible for consideration. The exterior of all bid proposal packages must be labeled with the Request for Proposal identification number, final bid opening date and the buyer's name.

5.3 Number of Bid Proposal Copies

Each bidder must submit one (1) complete original bid proposal, clearly marked as the "ORIGINAL" bid proposal. Each bidder should also submit six (6) full, complete and exact copies of the original, clearly marked as "COPY". The copies required are necessary in the evaluation of the bid. It is suggested that the bidder make and retain a complete copy of its bid proposal.

5.4 Proposal Form and Content

The proposal should follow the format indicated in the following Sections of this Request for Proposal. The bidder should limit their response to one volume, if at all possible, with that volume divided into the four (4) following subsections:

5.5 Subsection 1 – Forms

The following forms are required with bidder's proposal and shall be submitted with bidder's proposal:

5.5.1 Ownership Disclosure Form

The bidder must complete the attached Ownership Disclosure Form. A complete Ownership Disclosure Form must be received prior to, or accompanying, the bid. Failure to do so will preclude the award of a contract.

5.5.2 Business Registration Notice

All New Jersey and out of State business organizations must obtain a Business Registration Certificate (BRC) from the Department of the Treasury, Division of Revenue, prior to conducting business with the State of New Jersey. Proof of valid business registration must be submitted by a bidder with its bid proposal. Failure to submit such valid business registration with a bid will render the bid materially non-responsive. The business registration form (Form NJ-REG) can be found online at:

<http://www.state.nj.us/treasury/revenue/gettingregistered.htm#busentity>

The following forms are required before Contract award and may be submitted with bidder's proposal:

5.5.3 Affirmative Action

The bidder must complete the attached Affirmative Action Employees Information Report, or, in the alternative, supply either a New Jersey Affirmative Action Certificate, or evidence that the bidder is operating under a federally approved or sanctioned affirmative action program. The requirement is a precondition of entering into a valid and binding contract.

5.5.4 Business Associate Agreement

The bidder must complete the attached Business Associate Agreement, involving the access to protected health information that is considered protected pursuant to federal, state and/or local laws and regulations in accordance with the privacy requirements of the "HIPAA" – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

5.5.5 Executive Order 117 Compliance and Certification

Effective November 15, 2008, all UMDNJ contractors are required to comply with Executive Order 117. In the early Fall of 2008, Governor Jon S. Corzine signed Executive Order No. 117, which is designed to enhance New Jersey's efforts to protect the integrity of government contractual decisions and increase the public's confidence in government. The Executive Order builds on the provisions of P.L. 2005, c. 51 ("Chapter 51"), which limits contributions to certain

political candidates and committees by for-profit business entities that are, or seek to become, State government vendors.

Bidders should submit the Executive Order 117 Certification with their bid proposal. If the bidder fails to submit the Executive Order 117 Certification, the bidder, if selected for contract award, must submit and comply with Executive Order 117 requirements before the contract award can be finalized. The Executive Order 117 Certification with instructions may be found on the UMDNJ Purchasing Services Department's website at: <http://www.umdj.edu/purchweb/vendors/index.htm>

5.6 Subsection 2 – Technical Proposal

In this Section, the bidder shall describe its approach and plans for accomplishing the work outlined in the Scope of Work Section, Section 3.0. The bidder must set forth its understanding of the requirements of this RFP and its ability to successfully complete the contract. Bidders are reminded to refer back to Section 3.0 of the RFP, and address the requirements under the Section. . When preparing its technical response, it is strongly suggested for clarity and order that the bidder's technical response follow the sections of the RFP in order. This section of the proposal should contain at least the following information.

5.6.1 Management Overview

The bidder shall set forth its overall technical approach and plans to meet the requirements of the RFP in a narrative format. This narrative should convince UMDNJ that the bidder understands the objectives that the contract is intended to meet, the nature of the required work and the level if effort necessary to successfully complete the contract. The narrative should convince UMDNJ that the bidder's general approach and plans to undertake and complete the contract are appropriate to the tasks and subtasks involved.

Mere reiterations of RFP tasks and subtasks are strongly discouraged, as they do not provide insight into the bidder's ability to complete the contract. The bidder's response to this Section should be designed to convince UMDNJ that the bidder's detailed plans and approach proposed to complete the Scope of Work are realistic, attainable and appropriate and that the bidder's proposal will lead to successful contract completion.

5.6.2 Contract Management

The bidder should describe its specific plans to manage, control and supervise the contract to ensure satisfactory contract completion according to the required schedule. The plan should include the bidder's approach to communicate with UMDNJ, including, but not limited to, status meetings, status reports, etc.

5.6.3 Contract Schedule

The bidder should include a contract schedule. If key dates are a part of this RFP, the bidder's schedule should incorporate such key dates and should identify the completion date for each task and sub-task required by the Scope of Work. Such schedule should also identify the associated deliverable items(s) to be submitted as evidence of completion of each task and/or subtask.

The bidder is required to use standard Project Management methodology consistent with UMDNJ project management methodology for project implementation. The vendor should identify the contract scheduling and control methodology to be used and should provide the rationale for choosing such methodology. The use of GANTT, Pert or other charts is at the option of the bidder.

5.6.4 Potential Problems

The bidder should set forth a summary of any and all problems that the bidder anticipates during the term of the Contract. For each problem identified, the bidder should provide its proposed solution.

5.7 **Section 3 – Organizational Support and Experience**

The bidder should include information relating to its organization, personnel, and experience, including, but not limited to, references, together with contact names and telephone numbers, evidencing the bidder's qualifications and capabilities to perform the services required by this RFP.

5.7.1 Locations

The bidder should include the location of the bidder's office that will be responsible for managing the contract. The bidder should include the telephone number and name of the individual to contact.

The bidder should also provide a listing of all the company's location(s).

5.7.2 Organizational Chart (Contract Specific)

The bidder should include a contract organizational chart, with names showing management, supervisory and other key personnel (including subcontractor's management, supervisory or other key personnel) to be assigned to the contract. The chart should include the labor category and title of each such individual. The organizational chart should demonstrate the vendor's staffing capacity to provide the services/implementation in the proposal.

5.7.3 Résumés

Detailed résumés should be submitted for all management, supervisory and key personnel to be assigned to the contract. Résumés should be structured to emphasize relevant qualifications and experience of these individuals in successfully completing contracts of a similar size and scope to those required by this RFP. Résumés should clearly identify previous experience in completing similar contracts. Beginning and ending dates should be given for each similar contract. A description of the contracts should be given and should demonstrate how the individual's work on the completed contract related to the individual's ability to contribute to the successfully providing the services required by this RFP. With respect to each similar contract, the bidder should include the name and address of each reference together with a person to contact for a reference check and telephone number.

The bidder must have qualified and experienced HL7 resources on staff.

5.7.4 Backup Staff

The bidder should include a list of backup staff that may be called upon to assist or replace primary individuals assigned. Backup staff must clearly be identified in the proposal as backup staff.

5.7.5 Organization Chart (Entire Firm)

The bidder should include an organizational chart showing the bidder's entire organizational structure. This chart should show the relationship of the individuals assigned the contract to the bidder's overall organizational structure.

5.7.6 Experience of Bidder on Contracts of Similar Size and Scope

The bidder should provide a comprehensive listing of contracts of similar size and scope that it has successfully completed, as evidence of the bidder's ability to successfully complete the services required by this RFP. Emphasis should be placed on contracts that are similar in size and scope to those required by this RFP. A description of all such contracts should include and should show how such contracts relate to the ability of the firm to complete the services required by this RFP. For each such contract, the bidder should provide the name and telephone number of a contact person for the other contract party. Beginning and ending dates should also be given for each contract.

5.7.7 Financial Capability of the Bidder

In order to provide UMDNJ with the ability to judge the bidder's financial capacity and capabilities to undertake and successfully complete the contract, the bidder should submit certified financial statements to include a balance sheet, income statement and statement of cash flow, and all applicable notes for the most recent calendar year or the bidder's most recent fiscal year. If certified financial statements are not available, the bidder should provide either a reviewed or compiled statement from an independent accountant setting forth the same information required for the certified financial statements, together with a certification from the Chief Executive Officer and the Chief Financial Officer, that the financial statements and other information included in the statements fairly present in all material respects the financial condition, results of operations and cash flows of the bidder as of, and for, the periods presented in the statements. In addition, the bidder should submit a bank reference.

Vendors should provide the most recent financial statements at the time of the submission of the bid and again (if more current) at time of contract award. If the information is not supplied with the bid proposal, UMDNJ may still require the bidder to submit it. If the bidder fails to comply with the request within five (5) business days, UMDNJ may deem the proposal non-responsive.

A bidder may designate specific financial information as not subject to disclosure when the bidder has a good faith legal/factual basis for such assertion. Bidder may submit specific financial documents in a separate, sealed package clearly marked "Confidential-Financial Information" along with the Bid Proposal. UMDNJ reserves the right to make the determination to accept the assertion and shall so advise the bidder. This information will be treated as confidential under provisions of Open Public Records Act and the common law

5.7.8 Subcontractor(s)

5.7.8.1 Should the bidder propose to utilize a subcontractor(s) to fulfill any of its obligations, the bidder shall be responsible for the subcontractor's(s): (a) performance; (b) compliance with all of the terms and conditions of the contract; and, (c) compliance with the requirements of all applicable laws.

5.7.8.2 The bidder should provide detailed description of services to be provided by each subcontractor, referencing the applicable Section or subsection of this RFP.

5.7.8.3 The bidder should provide detailed résumés for each subcontractor's management supervisory and other key personnel that demonstrate knowledge, ability and experience relevant to that part of the work, which the subcontractor is designated to perform.

5.7.8.4 The bidder should provide documented experience demonstrating that each subcontractor has successfully performed work on contracts of a similar size and scope to the work that the subcontractor is designated to perform in the bidder's proposal.

5.8 Section 4 – Cost Proposal

The bidder must submit all requested pricing information. Failure to submit all requested pricing information may result in the bidder's proposal being considered materially non-responsive. Each bidder must hold its price(s) firm for a minimum of one hundred twenty (120) days following bid opening to permit the completion of the evaluation of proposals received and the contract award process.

Once Submitted there can be NO alterations or modifications to the pricing of the original proposal without UMDNJ approval.

5.8 Subsection 4 - Cost Proposal

All bidders must submit their cost proposal in accordance with the Price Sheet(s) included in Section 8.0 of this Request for Proposal. Failure to submit all information required will result in the bid being considered non-responsive. Each bidder is requested to hold its cost proposal firm for a minimum of 120 days so that an award can be made.

The bidder must submit its price list for every year of the Contract.

ONLY price and costing information provided by the bidder in its original bid proposal submitted in response to this Request for Proposal may later be used for additional work and/or special projects to be paid against the Contract resulting from this Request for Proposal.

NOTE: The bidder's signature on the cover of this Request for Proposal guarantees that prices set forth within the preprinted price lists and/or catalogs will govern for the period of the Contract. The bidder also acknowledges that, notwithstanding any reference to price escalation clauses, FOB shipping point, and shipping charges contained in the preprinted price lists, catalogs, and/or literature, such references shall not be part of any Contract awarded as a result of this Request for Proposal.

Once submitted there can be NO alterations or modifications to the pricing of the original proposal without UMDNJ approval.

6.0 PROPOSAL EVALUATION AND CONTRACT AWARD

6.1 Evaluation Committee

Bids will be evaluated by an Evaluation Committee composed of members of affected departments together with representative(s) from the Department of Purchasing Services. Representatives from other governmental agencies may also serve on the Evaluation Committee. On occasion, the Evaluation Committee may choose to make use of the expertise of an outside consultant in an advisory role.

6.2 Oral Presentation and/or Clarification of Bids

A bidder may be required to give an oral presentation to the Evaluation Committee concerning its bid proposal. The Evaluation Committee may also require a bidder to submit written responses to questions regarding its bid.

The purpose of such communication with a bidder, either through an oral presentation or a letter of clarification, is to provide an opportunity for the bidder to clarify or elaborate on its bid. The original bid, as submitted, however, cannot be supplemented, changed, or corrected in any way during the evaluation process. No comments regarding other bids are permitted. Bidders may not attend presentations made by their competitors.

It is within the Evaluation Committee's discretion whether to require a bidder to give an oral presentation or require a bidder to submit written responses to questions regarding its bid. Action by the Evaluation Committee in this regard should not be construed to imply acceptance or rejection of a bid. The Purchasing Services' buyer is the sole point of contact regarding any request for an oral presentation or written clarification.

6.3 Evaluation Criteria

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate bid proposals received in response to this Request for Proposal. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process.

- 6.3.1 The quality of the services proposed and their conformance to the requirements of this Request for Proposal.
- 6.3.2 The bidder's detailed approach and plans to perform the services required by the Scope of Work Section of this RFP.
- 6.3.3 The bidder's documented experience in successfully providing clinical laboratory testing services to institutions of similar size and scope as UMDNJ.
- 6.3.4 The overall ability of the bidder to mobilize, undertake and successfully complete the Contract. This judgment will include, but not be limited to the following factors: the

number and qualifications of management, supervisory and other staff proposed by the bidder to complete the contract, the availability and commitment to the contract of the bidder's management, supervisory and other staff proposed, the bidder's contract management plan, including the bidder's organizational chart, the bidder's financial stability, and the bidder's internal investment in resource and development.

6.3.5 The bidder's cost proposal.

6.4 University's Right to Consider Additional Information

6.4.1 The Vice President of Supply Chain may obtain any information determined to be appropriate regarding the ability of the bidder to supply and/or render the service required by this Request for Proposal.

6.4.2 The Vice President of Supply Chain may consider such other factors that, in the opinion of the Vice President, are important in evaluating the bidder's proposal and awarding Contracts as determined to be in the best interest of the University.

6.4.3 The University reserves the right to request all bidders to explain the method used to arrive at any or all cost or pricing figures.

6.4.4 When making the Contract award decision, the University may consider evidence of formal or other complaints against any bidder(s) by the University for Contracts held in the past or present by the bidder.

6.4.5 The University reserves the right to check the bidder's financial capacity and ability to successfully undertake and complete the services required by this Request for Proposal by any means deemed appropriate.

6.4.6 The University reserves the right to conduct site inspections of any facility(s) serviced by the bidder(s) to assist in judging the bidder's ability to provide the services required by this Request for Proposal. This applies to all facilities services by the bidder or any subcontractor to the bidder. This right extends to all facilities of which the University is aware, or about which it becomes aware, that the bidder is servicing, whether or not the facility is listed in the bidder's proposal.

6.5 Contract Award

The Contract shall only be awarded after a full evaluation has been completed. Bidders who submit a proposal are not guaranteed a Contract award. The Contract shall be awarded with reasonable promptness by written notice to that responsible and responsive bidder whose bid, conforming to the Request for Proposal, will be most advantageous to UMDNJ, price and other factors considered. Any or all bids may be rejected when the Vice President of Supply Chain Management determines that it is in the public interest to do so.

6.6 NEGOTIATION AND BEST AND FINAL OFFER (BAFO) After evaluating bid proposals, the evaluation committee may enter into negotiations with each bidder in the competitive range, unless there are too many highly rated proposals to evaluate efficiently. In this situation, UMDNJ may limit the competitive range to the number of proposals that will permit efficient competition among the most highly rated proposals. The primary purpose of negotiations is to maximize UMDNJ's ability to get the best value, based on the requirements and evaluation criteria set forth in the RFP. Negotiations may involve the identification of significant proposal weaknesses, ambiguities and other deficiencies that could limit a bidder's award potential, including payments. More rounds of negotiations may be held with one bidder in the competitive range than with another. Negotiations will be structured to safeguard information and ensure that all bidders in the competitive range are treated fairly. When the evaluation committee determines to conclude negotiations, all bidders in the competitive range will be so notified and advised of the time and place for submission of best and final offers. The best and final offer can modify any aspect of the bid proposal, provided mandatory RFP requirements are satisfied and further provided that the revised payment proposal is not higher than the original payment proposal. Any revised payment proposal that is not equal to or lower in payment than the original payment proposal will be rejected as nonresponsive. Evaluation of the best and final offers will be on the basis of payment and the evaluation criteria set forth in the RFP. If, after review of the best and final offers, clarification is required, it may be sought from the bidders. If further negotiation is desired after evaluation of the revised proposals, it will be followed by another BAFO opportunity. UMDNJ reserves the right to reassess the competitive range before proceeding with a subsequent round of negotiations and BAFO submissions and to remove from the competitive range any proposal that is no longer considered to be a leading contender for award. After evaluation of the final BAFO submissions, the evaluation committee will recommend to the Vice President for award the responsible bidder(s) whose bid proposal(s), conforming to the RFP, is most advantageous to the State, payment and other factors considered. The Vice President may accept, reject or modify the recommendation of the Evaluation Committee. The Vice President may negotiate further increases in payment with the selected bidder. Negotiations will only be conducted in those circumstances where they are deemed by UMDNJ to be in UMDNJ's best interests and to maximize the UMDNJ's ability to get the best value. Therefore, bidders are advised to submit their best technical and payment proposals in response to this RFP, because the UMDNJ may, after evaluation, make a contract award based on the content of these initial submissions, without further negotiation with any bidder. All contacts, records of initial evaluations, any correspondence with bidders related to any request for clarification, negotiation or BAFO, any revised technical and/or payment proposals, the Evaluation Committee Report and the Award Recommendation, will remain confidential until a Notice of Intent to Award a contract is issued.

6.7 Bidder's Right to Challenge a Contract Award

Except in cases of emergency, bidders have the right to protest a proposed contract award.

A bidder's protest must be submitted to the buyer of record with a copy to the Vice President of Supply Chain Management ("Vice President") within ten (10) days of receipt of notice to the bidder that it did not receive a contract award for its submitted bid proposal or notice that an award had been made to another bidder. The protest period may be shortened by the Vice President of Supply Chain Management. If the protest period is shortened or a protest period is not authorized due to emergency, all bidders will receive notice of the shortened protest period or emergency in the notice sent to bidder on the award of the contract.

Notices of Contract award under this section may be faxed, e-mailed, sent by regular mail or by any other means, excluding telephonic communication, conducive to transmitting the notice. If notice is sent by regular mail, the recipient is deemed to have received the notice three (3) days after mailing.

If a bidder files a protest to a contract award under this section, the bidder must set forth in writing with specificity the basis of the protest. At the time of the protest filing, the bidder must also submit all documentation supporting the basis of the protest. Failure to comply with these requirements may lead to rejection of the protest and UMDNJ award of the contract.

The protest will be reviewed and addressed with reasonable promptness. If deemed necessary by Vice President, a hearing may be held on the merits of the protest. In all cases, the Vice President will notify the bidder of the final determination on the protest.

7.0 BIDDER'S DATA SHEETS (FORMS TO BE COMPLETED BY BIDDER)

The University has established a 25 percent goal for Small Businesses.

Small Businesses - A small business is now defined as having its principal place of business in New Jersey, gross annual revenues of \$12 million or less and no more than 100 full time employees.

A. New Jersey Business – this may be calculated in one of two ways:

- 1) 51% or more of its employees work in New Jersey as evidenced by payment of New Jersey unemployment taxes; or
- 2) 51% or more of its business activities take place in New Jersey as evidenced by payment of New Jersey income/business taxes.

B. 100 or fewer employees – a sole proprietorship, partnership or corporation having 100 or fewer employees, not including seasonal and part-time employees who work less than 90 days annually, if seasonal and part-time employees are normal to the industry. This does not include a consultant engaged by the business for work to be performed on a contract not related to the contract for which the small business is seeking eligibility.

C. Gross annual revenues may not exceed \$12 million.

Construction Contract - any contract involving any construction, renovation, reconstruction, rehabilitation, alteration, conversion, extension, demolition, repair or other changes or improvements of any kind whatsoever of any structure or facility. The term also includes the supervision, inspection and other on-site functions incidental to actual construction.

III. **IMPLEMENTING DOCUMENT**

A. Requirements:

- up to \$12 million

3. Program Requirements

Public contracting entities are now subject to meeting a 25% minimum overall goal collectively for the three categories of small business.

4. New Reporting Requirement

Public contracting authorities must now report annually on their outreach efforts.

5. Important Process Change

5.9.5 Trained mechanics are regularly employed to make necessary repairs to equipment in the territory from which the service request might emanate within a forty-eight (48) hour period or within the time accepted as industry practice.

5.9.6 During the warranty period, the Contractor shall replace immediately any material which is rejected for failure to meet the requirements of the contract.

5.9.7 All services rendered to UMDNJ shall be performed in strict and full accordance with the specifications stated in the contract. The contract shall not be considered complete until final approval by UMDNJ is rendered.

5.10 Delivery Guarantees

Deliveries shall be made at such time and in such quantities as ordered in strict accordance with conditions contained in the solicitation document.

The Contractor shall be responsible for the delivery of material in first class condition to UMDNJ under this contract, and in accordance with good commercial practice.

Items delivered must be strictly in accordance with the solicitation document.

Mere acceptance of delivery shall not constitute acceptance on behalf of UMDNJ.

In the event delivery goods or services is not made within the number of days stipulated or under the schedule defined in the solicitation document, UMDNJ reserves the right to obtain the material or service from any available source, with the difference in price, if any, to be paid by the Contractor for its failure to meet its contractual commitments.

5.11 Maintenance of Records

The Contractor shall maintain records for products and/or services delivered against the contract for a period of five (5) years from the date of final payment. Such records shall be made available to UMDNJ upon request for purposes of conducting an audit or for ascertaining information regarding dollar volume or number of transactions.

5.12 Auditing

UMDNJ reserves the right to audit, or cause to be audited, the Contractor's books and accounts pertaining to UMDNJ at any time during the term of the contract and for five (5) years thereafter.

5.13 Contractor Reporting

5.15 Warranty of Supplies

5.15.1 Notwithstanding inspection and acceptance by the UMDNJ of supplies under the contract or any provision of this contract concerning the conclusiveness of any provision of this contract that at time of delivery:

__ (a) All supplies furnished under this contract will be free from defects in material or workmanship and will conform with the specifications and all other requirements of this contract; and,

__ (b) The preservation, packaging, packing, and marking, and the preparation for, and method of, shipment of such supplies will conform with the requirements of this contract.

5.15.2 Upon written notice of any breach of warranty, UMDNJ may either:

_ (a) By written notice require the prompt correction or replacement of any supplies or part thereof (including preservation, packaging, packing, and marking) that do not conform with the requirements of this contract; or

_ (b) Retain such supplies, whereupon the contract price thereof shall be reduced by an amount equitable under the circumstances and the Contractor shall promptly make appropriate repayment.

5.15.3 If the contract provides for inspection of supplies by sampling procedures, UMDNJ may, at its option, determine the quantity of supplies or parts thereof which are subject to this paragraph in accordance with such sampling procedures.

5.15.4 When return, correction or replacement is required, UMDNJ shall return the supplies and transportation charges and responsibility for such supplies while in transit shall be borne by the Contractor.

5.15.5 If the Contractor fails or refuses to correct or replace the non-conforming supplies within a period of ten (10 days) (or such longer period as UMDNJ may authorize in writing) after receipt of notice from UMDNJ specifying such failure or refusal, UMDNJ may, by contract or otherwise, correct or replace them with similar supplies and charge to the Contractor the cost occasioned to UMDNJ thereby. In addition, if the Contractor fails to furnish timely disposition instructions, UMDNJ may dispose of the non-conforming supplies for the Contractor's account in a reasonable manner, in which case UMDNJ is entitled to reimbursement from the Contractor or from the proceeds for the reasonable expenses of the care and disposition of the non-conforming supplies, as well as for excess costs incurred or to be incurred.

5.15.6 Any supplies or parts thereof corrected or furnished in replacement pursuant to this clause shall also be subject to all the provisions of this clause to the extent as supplies initially delivered.

5.15.7 The word "supplies" as used herein includes related services.

5.15.8 The rights and remedies of UMDNJ provided in this clause are in addition to and do not limit any rights afforded to UMDNJ by any other clause of the contract.

5.15.9 Failure to agree upon any determination to be made under this clause shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

5.16 Material and Workmanship

Unless otherwise specifically provided in this contract, all equipment, material, and articles covered by this contract are to be new and of the most suitable grade for the purpose intended. The Contractor shall number all other identifying data and information respecting the

performance, capacity, nature, and rating of the machinery and mechanical and other equipment, which the Contractor contemplates incorporating in the work. When required by this contract or when called for by UMDNJ, the Contractor shall furnish for approval by UMDNJ full information concerning the material or articles (including, but not limited to, items such as Material Safety Data (MSD) sheets), which the Contractor contemplates incorporating in the work. No materials will be accepted unless MSD's have been provided and the containers are labeled according to OSHA 29CFR 1910, 1200 and the New Jersey Right to Know Law. In the event of a manufacturer's or Contractor's price decreases during the contract period, UMDNJ shall receive the full benefit of such price reduction on any undelivered purchase order and on any subsequent order placed during the contract period. The Executive Director of Materials Management must be notified in writing of any price reduction within five (5) days of the effective date.

Failure to report price reductions will result in cancellation of contract for cause, pursuant to the provisions of these Standard Terms and Conditions.

5.19 Delivery Costs

All shipments must be made "F.O.B. Destination." Regardless of the method of quoting shipments, the Contractor shall assume all costs, liability and responsibility for the delivery of merchandise in good condition to UMDNJ.

"F.O.B. Destination" does not cover "spotting, but does include delivery on the receiving platform at any destination within UMDNJ, unless otherwise specified. No additional charges will be allowed for any additional transportation costs resulting from partial shipments made at the Contractor's convenience when a single shipment is ordered. The weights and measures of UMDNJ shall govern.

Any relationships subject to this provision shall be reported in writing forthwith to the Executive Commission on Ethical Standards, which may grant a waiver of this restriction upon application of the UMDNJ officer or employee or upon a finding that the present or proposed relationship does not present the potential, actuality or appearance of a conflict of interest.
