INSTRUCTIONS TO BIDDERS:

1. INVITATION TO BID (ITB) REVIEW: Bidders shall carefully review this ITB for defects and questionable or objectionable material. Bidders' comments concerning defects and questionable or objectionable material in the ITB must be made in writing and received by the purchasing authority at least ten (10) days before the bid opening date. This will allow time for an amendment to be issued if one is required. It will also help prevent the opening of a defective bid, upon which award cannot be made, and the resultant exposure of bidders' prices. Bidders' original comments should be sent to the purchasing authority listed on the front of this ITB.

2. BID FORMS: Bidders shall use this and attached forms in submitting bids. A photocopied bid may be submitted.

3. SUBMITTING BIDS: Envelopes containing bids must be sealed, marked, and addressed as shown in the example below. Do not put the ITB number and opening date on the envelope of a request for bid information. Envelopes with ITB numbers annotated on the outside will not be opened until the scheduled date and time.

Prices quoted in bids must be exclusive of federal, state, and local taxes. If the bidder believes that certain taxes are payable by the State, the bidder may list such taxes separately, directly below the bid price for the affected item. The State is exempt from Federal Excise Tax except the following:

- Coal - Internal Revenue Code of 1986 (IRC), Section 4121 - on the purchase of coal;

4. SPECIFICATIONS: Unless otherwise specified in the ITB, product brand names or model numbers specified in this ITB are examples of the type and quality of product required, and are not statements of preference. If the specifications describing an item conflict with a brand name or model number describing the item, the specifications govern. Reference to brand name or number does not preclude an offer of a comparable or better product, if full specifications and descriptive literature are provided for the product. Failure to provide such specifications and descriptive literature may be cause for rejection of the offer.

5. FIRM OFFER: For the purpose of award, offers made in accordance with this ITB must be good and firm for a period of ninety (90) days from the date of bid opening.

6. EXTENSION OF PRICES: In case of error in the extension of prices in the bid, the unit prices will govern; in a lot bid, the lot prices will govern.

7. BID PREPARATION COSTS: The State is not liable for any costs incurred by the bidder in bid preparation.

8. CONSOLIDATION OF AWARDS: Due to high administrative costs associated with processing of purchase orders, a single low bid of \$50 or less may, at the discretion of the State, be awarded to the next low bidder receiving other awards for consolidation purposes. This paragraph is not subject to the protest terms enumerated in "*INSTRUCTION TO BIDDERS*", "*FILING A PROTEST*" above.

9. CONTRACT FUNDING: Bidders are advised that funds are available for the initial purchase and/or the first term of the contract. Payment and performance obligations for succeeding purchases and/or additional terms of the contract are subject to the availability and appropriation of funds.

10. CONFLICT OF INTEREST: An officer or employee of the State of Alaska may not seek to acquire, be a party to, or possess a financial interest in, this contract if (1) the officer or employee is an employee of the administrative unit that supervises the award of this contract; or (2) the officer or employee has the power to take or withhold official action so as to affect the award or execution of the contract.

11. ASSIGNMENT(S): Assignment of rights, duties, or payments under a contract resulting from this ITB is not permitted unless authorized in writing by the State of Alaska, Department of Administration, Division of General Services. 13. HOLD HARMLESS: The contractor will indemnify, save harmless and defend the State, its officers, agents and employees from any and all claims or actions for injuries or damages sustained by any person or property arising directly or indirectly from the contractor's performance of this contract; however, this provision has no effect, if, but only if, the sole proximate cause of the injury or damage is the State's negligence.

14. FORCE MAJEURE: (Impossibility to perform) The contractor is not liable for the consequences of any failure to perform, or default in performing, any of its obligations under this Agreement, if that failure or default is caused by any unforeseeable Force Majeure, beyond the control of, and without the fault or negligence of, the contractor. For the purposes of this Agreement, Force Majeure will mean war (whether declared or not); revolution; invasion; insurrection; riot; civil commotion; sabotage; military or usurped power; lightning; explosion; fire; storm; drought; flood; earthquake; epidemic; quarantine; strikes; acts or restraints of governmental authorities affecting the project or directly or indirectly prohibiting or restricting the furnishing or use of materials or labor required; inability to secure materials, machinery, equipment or labor because of priority, allocation or other regulations of any governmental authorities.

16. CONTRACT EXTENSION: Unless otherwise provided in this ITB, the State and the successful bidder/contractor agree: (1) that any holding over of the contract excluding any exercised renewal options, will be considered as a month-to-month extension, and all other terms and conditions shall remain in full force and effect and (2) to provide written notice to the other party of the intent to cancel such month-to-month extension at least thirty (30) days before the desired date of cancellation.

17. DEFAULT: In case of default by the contractor, for any reason whatsoever, the State of Alaska may procure the goods or services from another source and hold the contractor responsible for any resulting excess cost and may seek other remedies under law or equity.

SPECIAL CONDITIONS:

1. SUPPLEMENTAL TERMS AND CONDITIONS: Bids including supplemental terms and conditions will be accepted, but supplemental conditions that conflict with those contained in the ITB or that diminish the State's rights under any contract resulting from this ITB will be considered null and void. The State is not responsible for identifying conflicting supplemental terms and conditions before issuing a contract award. After award of the contract (1) if conflict arises between a supplemental term or condition included in the bid and a term or condition of the ITB, the term or condition of the ITB will prevail; and (2) if the State's rights are diminished as a result of application of a supplemental term or condition included in the bid, the supplemental term or condition will be considered null and void.

2. ORDER DOCUMENTS: Except as specifically allowed under this ITB, an ordering agency will not sign any vendor contract. The State is not bound by a vendor contract signed by a person who is not specifically authorized to sign for the State under this ITB. The State of Alaska Purchase Order, Contract Award and Delivery Order are the only order documents that may be used to place orders against the contract(s) resulting from this ITB.

3. BILLING INSTRUCTIONS: Invoices must be billed to the ordering agency's address shown on the individual Purchase Order, Contract Award or Delivery Order, not to the Division of General Services. The ordering agency will make payment after it receives the merchandise or service and the invoice. Questions concerning payment must be addressed to the ordering agency.

4. COMPATIBILITY: Contractors will be required to assist the State in determining the compatibility of their devices with other contracted devices. At the State's request, contractors will be required to demonstrate their equipment's claimed compatibility. Compatibility of offered devices will not be a criterion for award of the bid. However, it will be a factor in the hardware selection process from subsequent contracts resulting from this ITB. Successful bidders/contractors are required, on request by the State, to provide all published data pertinent to the offered devices' compatibility with other peripheral devices.

5. INTENDED USE: Except to the extent the State relies on representations made by the vendor, the State of Alaska agrees, with respect to the machines and programming, to accept responsibility for (1) their selection to achieve the State's intended results, (2) their use, and (3) the results obtained therefrom.

6. ASSOCIATED COSTS: Bid prices must include all costs associated with shipping, packing and delivery to the specified FOB point, as well as any costs necessary to provide guarantee/warranty service, operating manual, and operating software and documentation specified in the ITB.

7. CONTINUING OBLIGATION OF CONTRACTOR: Notwithstanding the expiration date of a contract resulting from this ITB, the contractor is obligated to fulfill its responsibilities until warranty, guarantee, maintenance and parts availability requirements have completely expired.

8. PATENTS AND COPYRIGHTS: A vendor will, at its expense, defend the State against any claim that any machines or programming supplied hereunder infringe a patent or copyright in the United States or Puerto Rico, and will pay all costs, damages and attorney's fees that a court finally awards as a result of such claim. To qualify for such defense and payment, the State must: (1) give the vendor prompt written notice of any such claim; and (2) allow the vendor to control, and fully cooperate with the vendor in, the defense and all related settlement negotiations. The vendor's obligation under this section is conditioned on the State's agreement that if the operation of the machines or programming becomes, or in the vendor's opinion are likely to become, the subject of such a claim, the State will permit the vendor, at its option and expense, either to procure the right for the State to continue using the machines or programming, or to replace or modify them so that they are non-infringing but still meet the State's needs as originally contracted. The vendor shall have no obligation with respect to any such claim based upon the State's modification of the machine or programming or their combination, operation or use with apparatus, data or programs not furnished by the vendor. This section states the vendor's entire obligation to the State regarding infringement.

9. RISK OF LOSS OR DAMAGE: During the period on-order machines are in transit or in possession of the State, up to, and including the date of installation, as specified by the ITB, or up to, and including the date of acceptance as specified by the State (pursuant to an Acceptance Test) if applicable, contractor and its insurers, if any, relieve the State of responsibility for all risk of loss of, or damage to, the machines except for loss or damage caused by nuclear reaction, nuclear radiation or radioactive contamination for which the State is legally liable. Thereafter, all risk of loss of, or damage to, such machines shall be on the State, except as described in "*SPECIAL CONDITIONS*", "*WARRANTIES*" below.

10. CONTRACTOR'S LIABILITY FOR INJURY TO PERSONS OR DAMAGE TO PROPERTY: Contractor shall be liable for damages arising out of injury to persons and/or damage to the real or tangible personal property before or after acceptance, delivery, installation and use of the equipment either at the contractor's site or at the State's place of business, provided that the injury or damage was caused by the fault or negligence of the contractor or defect of the equipment. Contractor shall not be liable for damages arising out of, or caused by, alterations to the equipment (other than alterations performed or caused by contractor's officers, employees or agents); attachments made by the State; damages to said alterations or attachments that may result from the normal operation and maintenance of contractor's equipment, or for losses occasioned by the State's fault or negligence. Nothing in this contract shall limit the contractor's direct liability, if any, to third parties and employees of the State for any remedy which may exist under law in the event a defect in the manufacture of the equipment, or the negligent acts or omissions of contractor, its officers, employees, or agents, is the cause of injury to such person.

11. LIMITATION OF REMEDIES: Contractor's liability for damages to the State for any cause shall be limited to the greater of \$100,000 or the purchase price of the specified equipment which caused the damage or that is the subject matter of, or is directly related to, the cause of action. The foregoing limitation of liability will not apply to the payment of costs, damages, and attorney's fees referred to in the section, "*PATENTS AND COPYRIGHT PROTECTION*" above, or to claims for personal injury or damage to real property or tangible personal property caused by the contractor's negligence or defect of equipment. Contractors will not be liable to the State for any lost profits, lost savings or incidental damages or other consequential damages sustained by the State, except as provided in AS 45.02.719.

12. WARRANTIES: Contractor warrants that the equipment, when installed, will be in good working order and will conform to the contractor's official published specifications and the technical specifications of the ITB. Manufacturer's standard warranty provisions for the purchased equipment to the extent that they are not inconsistent with the terms of these Contractual Provisions, shall apply beginning on the date of installation. Maintenance charges, if applicable, shall not begin until the date of

of expiration of the warranty period. The use of the equipment will be under the State's exclusive management and control. The State agrees that the contractor will not be liable for any damages caused by the State's failure to fulfill State responsibilities or by the State's negligence.

13. SEVERABILITY: If any provision of this contract is declared by a court to be illegal or in conflict with any law, the validity of the remaining terms and provisions shall not be affected; and the rights and obligations of the parties shall be construed and enforced as if the contract did not contain the particular provision held to be invalid.

14. TITLE: Title passes to the State for each item at FOB destination.

15. SECURITY INTEREST: Contractor reserves a purchase money security interest in each machine. This interest will be satisfied by payment in full hereunder. In addition, when applicable, the security interest will be satisfied by the return to contractor by the State, of parts in respect to feature additions or model conversions that involve the removal of parts which become the property of contractor. The State agrees to sign appropriate documents to permit contractor to perfect the contractor's purchase money security interest.

16. GENERAL: The State certifies that it is purchasing this equipment for its own use and not for remarketing, and will not assign the on-order equipment to any party other than the contractor or contractor's affiliate without written consent of the contractor, which shall not be unreasonably withheld. The State reserves the right to sign any agreement which is deemed to be beneficial to the State. The State's ITB, the contractor's response, and the resulting Contract Award will be the complete and exclusive statement of the agreement between the parties, superseding all proposals or prior agreements, oral or written, and all other communication between the parties relating to the subject matter hereof.

Fax: 907-269-5794
TDD: 907-269-6719

COMPLIANCE WITH ADA: By signature of their bid the bidder certifies that they comply with the Americans with Disabilities Act of 1990 and the regulations issued thereunder by the federal government.

Services or activities furnished to the general public on behalf of the state must be fully accessible. This is intended to ensure that agencies are in accordance with 28 CFR Part 35 Section 35.130 and that services, programs or activities furnished to the public through a contract do not subject qualified individuals with a disability to discrimination based on the disability.

PREFERENCE QUALIFICATION: In order to qualify for an Employment Program Preference, an Alaskans With Disabilities Preference or an Employers Of People With Disabilities Preference, a bidder must add value by actually performing, controlling, managing, and supervising the services provided, or a bidder must have sold supplies of the general nature solicited to other state agencies, governments, or the general public.

CONTRACT PERFORMANCE LOCATION: By signature on their bid, the bidder certifies that all services provided under this contract by the contractor and all subcontractors shall be performed in the United States. Failure to comply with this requirement may cause the state to reject the bid or proposal as non-responsive, or cancel the contract.

HUMAN TRAFFICKING: By signature on their bid, the bidder certifies that the bidder is not established and headquartered or incorporated and headquartered in a country recognized as Tier 3 in the most recent United States Department of State's Trafficking in Persons Report.

The most recent United States Department of State's Trafficking in Persons Report can be found at the following website: <http://www.state.gov/g/tip/>.

Failure to comply with this requirement will cause the state to reject the bid as non-responsive, or cancel the contract

CONTRACT INTENT: This Invitation to Bid (ITB) is intended to result in the purchase of the specified SourceFire or equivalent hardware, software and maintenance including one year of Gold level support. There are three annual Gold level support renewal options, through approximately December 31, 2013.

NOTICE OF INTENT TO AWARD: After the responses to this ITB have been opened and evaluated, a tabulation of the bids will be prepared. This tabulation, called a Notice of Intent to Award, serves two purposes. It lists the name of each company or person that offered a bid and the price they bid. It also provides notice of the state's intent to award a contract(s) to the bidder(s) indicated. A copy of the Notice of Intent will be mailed to each company or person who responded to the ITB. Bidders identified as the apparent low responsive bidders are instructed not to proceed until a Purchase Order, Contract Award, Lease, or some other form of written notice is given by the contracting officer. A company or person who proceeds prior to receiving a Purchase Order, Contract Award, Lease, or some other form of written notice from the contracting officer does so without a contract and at their own risk.

PAYMENT FOR STATE PURCHASES: Payment for agreements under \$500,000 for the undisputed purchase of goods or services provided to a state agency, will be made within 30 days of the receipt of a proper billing or the delivery of the goods or services to the location(s) specified in the agreement, whichever is later. A late payment is subject to 1.5% interest per month on the unpaid balance. Interest will not be paid if there is a dispute or if there is an agreement that establishes a lower interest rate or precludes the charging of interest.

CONTRACT ADMINISTRATION: The administration of this contract is the responsibility of the Enterprise Technology Services Contracting Officer.

SHIPPING DAMAGE: The state will not accept or pay for damaged goods. The contractor must file all claims against the carrier(s) for damages incurred to items in transit from the point of origin to the ultimate destination. The state will provide the contractor with written notice when damaged goods are received. The state will deduct the cost of the damaged goods from the invoice prior to payment. The contractor must file all claims against the carrier(s) for reimbursement of the loss.

INDEMNIFICATION: The contractor shall indemnify, hold harmless, and defend the contracting agency from and against any claim of, or liability for error, omission or negligent act of the contractor under this agreement. The contractor shall not be required to indemnify the contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the contractor and the independent negligence of the Contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis. "Contractor" and "Contracting agency", as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term "independent negligence" is negligence other than in the Contracting agency's selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor's work.

INSURANCE: Without limiting contractor's indemnification, it is agreed that contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this agreement the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits. Certificates of Insurance must be furnished to the contracting officer prior to beginning work and must provide for a 30-day prior notice of cancellation, non-renewal or material change of conditions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the contractor's services. All insurance policies shall comply with, and be issued by insurers licensed to transact the business of insurance under AS 21.

Proof of insurance is required for the following:

Failure to supply satisfactory proof of insurance within the time required will cause the state to declare the bidder non-responsible and to reject the bid.

BRAND AND MODEL OFFERED: Unless otherwise specified, when brand names and model numbers are used to specify the type and quality of the goods desired, bidders must clearly indicate the brand names and model numbers they intend to provide. The bidder's failure to identify the brand and model offered will cause the state to consider the offer non-responsive and reject the bid.

ANNOTATED LITERATURE: Bidders must annotate their product literature to identify for the state the location of the supporting information regarding each product specification set out in this ITB. A bidder's failure to comply with this clause, within the time set by the state, will cause the state to consider the offer non-responsive and reject the bid.

SUPPORTING INFORMATION: The state strongly desires that bidders submit all required technical, specification, and other supporting information with their bid, so that a detailed analysis and determination can be made, by the contracting officer that the product offered meets the ITB specifications and that other requirements of the ITB have been met. However, provided a bid meets the requirements for a definite, firm, unqualified, and unconditional offer, the state reserves the right to request supplemental information from the bidder, after the bids have been opened, to ensure that the products offered completely meet the ITB requirements. The requirement for such supplemental information will be at the reasonable discretion of the state and may include the requirement that a bidder will provide a sample product(s) so that the state can make a first-hand examination and determination.

A bidder's failure to provide this supplemental information or the product sample(s), within the time set by the state, will cause the state to consider the offer non-responsive and reject the bid.

FIRM, UNQUALIFIED AND UNCONDITIONAL OFFER: Bidders must provide enough information with their bid to constitute a definite, firm, unqualified and unconditional offer. To be responsive a bid must constitute a definite, firm, unqualified and unconditional offer to meet all of the material terms of the ITB. Examples of confidential information include, but are not limited to: technology infrastructure, architecture, financial data, trade secrets, equipment specifications, user lists, passwords, research data, and technology data (infrastructure, architecture, operating systems, security tools, IP addresses, etc).

A contractor's failure to comply with this requirement will cause the state to seek remedies under breach of contract.

ACCESSORIES: When accessories are supplied, they must be certified to be compatible with the rest of the equipment. Certification will be written evidence satisfactory to the state that the accessories are compatible. The bidder's failure to supply this evidence within the time required by the state will cause the state to consider the bid non-responsive and reject the bid.

DISCONTINUED ITEMS: In the event an item is discontinued by the manufacturer during the life of the contract, another item may be substituted, provided that the contracting officer makes a written determination that it is equal to or better than the discontinued item and provided that it is sold at the same price or less than the discontinued item.

DELIVERY: Indicate, in the space provided under "Bid Schedule", the time required to make delivery after the receipt of an order. Failure to make an entry in the space provided will be construed as an offer to deliver within THIRTY (30) calendar days after the receipt of an order. Bids that specify deliveries in excess of THIRTY (30) calendar days after the receipt of an order will be considered non-responsive and the bids will be rejected.

DELIVERY CONFIRMATION: Bidders must obtain a confirmation from the manufacturer that the items offered are scheduled for production in sufficient time to meet the scheduled delivery dates. A copy of the manufacturer's confirmation may be included with the bid or submitted within 10 days of the state's request. The ordering agency will only make payment after it receives the merchandise or service and the invoice. Question concerning payment must be addressed to the ordering agency.

THIRD-PARTY FINANCING AGREEMENTS NOT ALLOWED: Because of the additional administrative and accounting time required of state agencies when third party financing agreements are permitted, they will not be allowed under this contract.

CONTINUING OBLIGATION OF CONTRACTOR: Regardless of the terms and conditions of any third-party financing agreement, the contractor agrees that none of its responsibilities under this contract are transferable and that the contractor alone will continue to be solely responsible until the expiration date of the contract. Such responsibilities include, but are not limited to, the provision of equipment, training, warranty service, maintenance, parts and the provision of consumable supplies. By signature on the face page of this ITB the bidder acknowledges this requirement and indicates unconditional acceptance of this continuing obligation clause.

PACKAGING: The cost of all packaging must be included in the price bid. All packaging must be new and suitable for shipment and short-term warehouse storage.

WARRANTY: The contractor warrants every unit purchased against faulty materials and workmanship for a minimum period of at least twelve (12) months. If, during this period, faults develop with the unit or components of the unit, they will be repaired or replaced without any cost, including any transportation or freight cost, to the state. Bids, which include supplemental warranties, will be accepted, but supplemental warranties that conflict with or diminish the state's rights under this warranty clause will be considered null and void. The state is not responsible for identifying conflicting warranty conditions before issuing a contract award. After award of the contract:

1. if a conflict arises between the supplemental warranty and the warranty in this ITB, the warranty in the ITB will prevail; and
2. if the state's rights are diminished as a result of application of the supplemental warranty, the supplemental warranty will be considered null and void and the ITB warranty will prevail.

By signature on the face page of this ITB the bidder acknowledges this requirement and indicates unconditional acceptance of this warranty clause.
