1.2 Background

UMDNJ is the nation's largest freestanding public health sciences university. It includes eight (8) schools on five (5) campuses. It is a statewide system of health sciences education, biomedical research and healthcare delivery. UMDNJ was founded in 1970 to consolidate New Jersey's health professions education and during the last two decades it has become the core of the state's healthcare delivery system. Additional information about the University, its multiple locations, schools and healthcare facilities is available at:

<http://www.umdj.edu/homepage/index.html>

The University Hospital is a 519-bed acute care hospital owned and operated by UMDNJ and located in the Central Ward of Newark. As the primary teaching hospital of the New Jersey Medical School in Newark, the hospital is committed to the provision of high quality patient care, medical education, clinical research and community service.

With an active medical staff of 790, The University Hospital is an integral part of the largest medical teaching program in the state, and trains 308 medical residents from the New Jersey Medical School's Graduate Medical Education programs. Medical education occurs in virtually every clinical specialty. The hospital also serves as the focus for other schools of the University providing on-site training for the New Jersey Dental School, School of Nursing, and School of Health Related Professions and Allied Health.

While the University Hospital serves as a referral center for many of the state's most advanced medical services and specialty care programs, The University Hospital is also a major source of primary care and serves as a safety net hospital for the Greater Essex Community and the State of New Jersey. The hospital operates over 50 different outpatient clinics and programs. In fiscal year 2007, The University Hospital had 221,371 ambulatory care visits, 22,192 inpatient admissions, 14,003 surgery procedures, 1,926 deliveries and 92,169 emergency room visits.

The University Hospital provides a significant number of jobs within its operations for minorities and for residents of its local community. Its roots are in the Newark Agreements signed in 1968 guaranteeing training and jobs for the community in exchange for land committed to medical college development. With an annual budget of approximately \$600M, The University Hospital is one of the largest employers in the City of Newark and is committed to serving as one of the region's economic stabilizers.

The Department of Radiology consists of two clinical divisions: General Diagnostic Radiology and Radiation Oncology. Its facilities are available to adult and pediatric patients hospitalized at UMDNJ-University Hospital, outpatients, and patients referred directly by private physicians. The University Hospital's Department of Radiology performs various types of interventional imaging procedures on a daily schedule and emergency basis.

On September 24, 2008, Governor Corzine issued Executive Order 117, which is designed to enhance New Jersey's efforts to protect the integrity of procurement decisions and increase the public's confidence in procurement. 5.0 PROPOSAL PREPARATION AND SUBMISSION INSTRUCTIONS

5.1 General

The bidder must follow instructions contained in this RFP and in the bid cover sheet in preparing and submitting its bid proposal. The bidder is advised to read thoroughly and to follow all instructions.

The information required to be submitted in response to this RFP has been determined to be essential in the bid evaluation and contract award process. Any qualifying statements made by the bidder to the RFP's requirements could result in a determination that the bidder's proposal is materially non-responsive. Each bidder is given wide latitude in the degree of detail it elects to offer or the extent to which plans, designs, systems, processes and procedures are revealed. Each bidder is cautioned, however, that insufficient detail may result in a determination that the bid proposal is materially non-responsive or, in the alternative, may result in a low technical score being given to the bid proposal.

The bidder is instructed to clearly identify any requirement of this RFP that the bidder cannot satisfy.

5.2 Proposal Delivery and Identification

In order to be considered a bid proposal must arrive at the Department of Purchasing Services in accordance with the instructions on the RFP cover sheet. Bidders submitting proposals are cautioned to allow adequate delivery time to ensure timely delivery of proposals. UMDNJ regulations mandate that late proposals are ineligible for consideration. The exterior of all bid proposal packages must be labeled with the Request for Proposal identification number, final bid opening date and the buyer's name.

5.3 Number of Bid Proposal Copies

Each bidder must submit one (1) complete original bid proposal, clearly marked as the "ORIGINAL" bid proposal. Each bidder should also submit five (5) full, complete and exact copies of the original. The copies required are necessary in the evaluation of the bid. It is suggested that the bidder make and retain a complete copy of its bid proposal.

5.4 Proposal Form and Content

The proposal should follow the format indicated in the following Sections of this RFP. The bidder should limit their response to one volume, if at all possible, with that volume divided into three (3) sections as indicated below.

5.5 Section 1 – Forms

The following forms are required and shall be submitted with bidder's bid proposal:

5.5.1 Ownership Disclosure Form

The bidder must complete the attached Ownership Disclosure Form. A complete Ownership Disclosure Form must be received prior to, or accompanying, the bid. Failure to do so will preclude the award of a contract.

5.5.2 Business Registration Notice

All New Jersey and out of State business organizations must obtain a Business Registration Certificate (BRC) from the Department of the Treasury, Division of Revenue, prior to conducting business with the State of New Jersey. Proof of valid business registration must be submitted by a bidder with its bid proposal. Failure to submit such valid business registration with a bid will render the bid materially non-responsive. The business registration form (Form NJ-REG) can be found online at: <http://www.state.nj.us/treasury/revenue/gettingregistered.htm#busentity>

Forms required before contract award. The following forms may be submitted with the bid proposal.

5.5.3 Affirmative Action

The bidder should complete the attached Affirmative Action Employees Information Report, or, in the alternative, supply either a New Jersey Affirmative Action Certificate, or evidence that the bidder is operating under a Federally approved or sanctioned affirmative action program. The requirement is a precondition of entering into a valid and binding contract.

5.5.4 Business Associate Agreement

The bidder should complete the attached Business Associate Agreement, involving the access to protected health information that is considered protected pursuant to federal, state and/or local laws and regulations in accordance with the privacy requirements of the “HIPAA” – Health Insurance Portability and Accountability Act of 1996. The requirement is a precondition of entering into a valid and binding contract.

5.5.5_ Executive Order 117 Compliance and Certification

Effective November 15, 2008, all UMDNJ contractors are required to comply with Executive Order 117. In the early Fall of 2008, Governor Jon S. Corzine signed Executive Order No. 117, which is designed to enhance New Jersey’s efforts to protect the integrity of government contractual decisions and increase the public’s confidence in government. The Executive Order builds on the provisions of P.L. 2005, c. 51 (“Chapter 51”), which limits contributions to certain political candidates and committees by for profit business entities that are, or seek to become, State government vendors.

Bidders should submit the Executive Order 117 Certification with their bid proposal. If the bidder fails to submit the Executive Order 117 Certification, the bidder, if selected for contract award, must submit and comply with Executive Order 117 requirements before the contract award can be finalized. The Executive Order 117 Certification with instructions may be found on the UMDNJ Purchasing Services Department’s website at: <http://www.umdj.edu/purchweb/vendors/index.htm>

5.6 Subsection 2 - Technical Response

A bidder's failure to fully, properly and accurately complete all of the information required by Section 7.0 of the RFP may result in their bid being considered non-responsive.

5.6.1 Overall Technical Approach and Plans

In narrative format, the bidder shall describe its approach and plans for accomplishing the work outlined in the Scope of Work Section, Section 3.0. The bidder must set forth its understanding of the requirements of this RFP and its ability to successfully complete the Contract. This narrative should convince UMDNJ that the bidder understands the objectives that the Contract is intended to meet, the nature of the required work and the level of effort necessary to successfully complete the Contract. The narrative should convince UMDNJ that the bidder's general approach and plans to undertake and complete the contract are appropriate to the tasks and subtasks involved.

Mere reiterations of RFP tasks and subtasks are strongly discouraged as they do not provide insight into the bidder's ability to complete the Contract. The bidder's response to this Section should be designed to convince UMDNJ that the bidder's detailed plans and approach proposed to complete the Scope of Work are realistic, attainable and appropriate and that the bidder's proposal will lead to successful Contract completion.

5.6.2 Contract Management

The bidder should describe its specific plans to manage, control and supervise the Contract to ensure satisfactory Contract completion according to the required schedule. The plan should include the bidder's approach to communicate with UMDNJ, including, but not limited to, status meetings, status reports, etc.

The bidder must provide information which demonstrates that they have prior experience with the operation and management of hospitals and a familiarity with the quality of work expected of similar institutions. The bidder must indicate the number of years in business and list the contracts award and references.

5.7.2 Locations

5.7.3 Organizational Chart

The bidder should include an organizational chart showing the bidder's entire organizational structure. This chart should show the relationship of the individuals assigned the Contract to the bidder's overall organizational structure.

5.7.4 Bidder's Financial Capability

The bidder should provide proof of its firm's financial capacity and capabilities to undertake and successfully provide goods/services required under this Contract. A financial statement for the most recent fiscal year or bank reference is acceptable. The University reserves the right to check and evaluate the firm's financial capacity and capability by any means deemed appropriate. The submission of this information with the bid is desired by the University, but is not mandatory. However, if a bidder chooses not to include this information with its bid, this information may be requested from the bidder during the evaluation process. If the bidder is requested to submit this information during the evaluation process, the bidder will be required to submit it, and failure to do so will be cause for finding the bid non-responsive.

5.7.5 Subcontractor(s)

5.7.5.1 Should the bidder propose to utilize a subcontractor(s) to fulfill any of its obligations, the bidder shall be responsible for the subcontractor's(s): (a) performance; (b) compliance with all of the terms and conditions of the contract, and (c) compliance with the requirements of all applicable laws.

5.7.5.2 The bidder should provide detailed description of services to be provided by each subcontractor, referencing the applicable Section or subsection of this RFP.

5.7.5.4 The bidder should provide documented experience demonstrating that each subcontractor has successfully performed work on contracts of a similar size and scope to the work that the subcontractor is designated to perform in the bidder's proposal.

5.8 Subsection 4 - Cost Proposal

5.8.1 All bidders must submit their cost proposal in accordance with the Price Sheet(s) included in Section 8.0 of this Request for Proposal. Failure to submit all information required will result in the bid being considered non-responsive. Each bidder is requested to hold its cost proposal firm for a minimum of 120 days so that an award can be made.

5.8.2 Each bidder should also provide a comprehensive listing of all labor categories that may be used to perform additional work and/or special projects or according to the additional work and/or special project clause(s) of this RFP. Loaded hourly rates are to be submitted for all labor categories that the bidder anticipates may be required to perform additional work and/or special projects.

Failure to include a labor category along with a loaded hourly rate will exclude that category from eligibility to perform additional work and/or special projects under the contract resulting from this RFP. Each bidder may submit labor categories for additional work that are not included in the base proposal to perform the Scope of Work required by this RFP.

Each bidder may also submit any additional price or cost information that the bidder feels may be required to perform any additional work and/or special projects required by this RFP.

ONLY price and costing information provided by the bidder in its original bid proposal submitted in response to this Request for Proposal may later be used for additional work and/or special projects to be paid against the Contract resulting from this Request for Proposal.

NOTE: The bidder's signature on the cover of this Request for Proposal guarantees that prices set forth within the preprinted price lists and/or catalogs will govern for the period of the Contract. The bidder also acknowledges that, notwithstanding any reference to price escalation clauses, FOB shipping point, and shipping charges contained in the preprinted price lists, catalogs, and/or literature, such references shall not be part of any Contract awarded as a result of this Request for Proposal.

Once submitted there can be NO alterations or modifications to the pricing of the original proposal without UMDNJ approval.

6.0 PROPOSAL EVALUATION AND CONTRACT AWARD

6.1 Proposal Evaluation Committee

Proposals may be evaluated by an Evaluation Committee composed of members of affected departments together with representative(s) from the Department of Purchasing Services. Representatives from other governmental agencies may also serve on the Evaluation Committee. On occasion, the Evaluation Committee may choose to make use of the expertise of an outside consultant in an advisory role.

6.2 Oral Presentation and/or Clarification of Bids

A bidder may be required to give an oral presentation to the Evaluation Committee concerning its bid proposal. The Evaluation Committee may also require a bidder to submit written responses to questions regarding its bid.

The purpose of such communication with a bidder, either through an oral presentation or a letter of clarification, is to provide an opportunity for the bidder to clarify or elaborate on its bid. The original bid, as submitted, however, cannot be supplemented, changed, or corrected in any way during the evaluation process. No comments regarding other bids are permitted. Bidders may not attend presentations made by their competitors.

It is within the Evaluation Committee's discretion whether to require a bidder to give an oral presentation or require a bidder to submit written responses to questions regarding its bid. Action by the Evaluation Committee in this regard should not be construed to imply acceptance or rejection of a bid. The Purchasing Services' buyer is the sole point of contact regarding any request for an oral presentation or written clarification.

6.3 Evaluation Criteria

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate bid proposals received in response to this RFP. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process.

6.3.1 The bidder's general approach and plans to meet the service, repair and maintenance for UH Diagnostic Imaging Equipment requirements of this RFP.

6.3.2 The bidder's detailed approach and plans to perform the service, repair and maintenance for UH Diagnostic Imaging Equipment required by the Scope of Work Section of this RFP.

6.3.3 The bidder's documented experience in successfully completing contracts of a similar size and scope of those required by this RFP.

6.3.4 The qualifications and experience of the bidder's management, supervisory, technicians or other key personnel assigned to the contract, with emphasis on documented experience and certification in successfully completing work on contracts of similar size and scope to those required by this RFP.

6.3.5 The overall ability of the bidder to mobilize, undertake and successfully complete the contract. This judgment will include, but not be limited to, the following factors: the number and qualifications of management, supervisory, technicians and other staff proposed by the bidder to complete the contract, the availability and commitment to the contract of the bidder's management, supervisory and technicians other staff proposed and the bidder's contract management plan, including the bidder's contract organizational chart.

6.3.6 The bidder's cost proposal.

6.4 University's Right to Consider Additional Information

6.4.1 The Vice President of Supply Chain Management may obtain any information determined to be appropriate regarding the ability of the bidder to supply and/or render the service required by this RFP.

6.4.2 The Vice President of Supply Chain Management may consider such other factors that, in the opinion of the Vice President of Supply Chain Management, are important in evaluating the bidder's proposal and awarding contracts as determined to be in the best interest of the University.

6.4.3. The University reserves the right to request all bidders to explain the method used to arrive at any or all cost or pricing figures.

6.4.4 When making the contract award decision, the University may consider evidence of formal or other complaints against any bidder(s) by the University for contracts held in the past or present by the bidder. 6.4.5 The University reserves the right to check the bidder's financial capacity and ability to successfully undertake and complete the services required by this RFP by any means deemed appropriate.

6.4.6 The University reserves the right to conduct site inspections of any facility(s) serviced by the bidder(s) to assist in judging the bidder's ability to provide the services required by this RFP. This applies to all facilities services by the bidder or any sub-contractor to the bidder. This right extends to all facilities of which the University is aware, or about which it becomes aware, that the bidder is servicing, whether or not the facility is listed in the bidder's proposal.

6.5 Contract Award

The contract shall be awarded with reasonable promptness by written notice to that responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to UMDNJ, price and other factors considered. Any or all bids may be rejected when the Vice President of Supply Chain Management determines that it is in the public interest to do so.

6.6 NEGOTIATION AND BEST AND FINAL OFFER (BAFO)

After evaluating bid proposals, the evaluation committee may enter into negotiations with each bidder in the competitive range, unless there are too many highly rated proposals to evaluate efficiently. In this situation, UMDNJ may limit the competitive range to the number of proposals that will permit efficient competition among the most highly rated proposals. The primary purpose of negotiations is to maximize UMDNJ's ability to get the best value, based on the requirements and evaluation criteria set forth in the RFP. Negotiations may involve the identification of significant proposal weaknesses, ambiguities and other deficiencies that could limit a bidder's award potential, including payments. More rounds of negotiations may be held with one bidder in the competitive range than with another. Negotiations will be structured to safeguard information and ensure that all bidders in the competitive range are treated fairly. When the evaluation committee determines to conclude negotiations, all bidders in the competitive range will be so notified and advised of the time and place for submission of best and final offers. The best and final offer can modify any aspect of the bid proposal, provided mandatory RFP requirements are satisfied and further provided that the revised payment proposal is not higher than the original payment proposal. Any revised payment proposal that is not equal to or lower in payment than the original payment proposal will be rejected as nonresponsive. Evaluation of the best and final offers will be on the basis of payment and the evaluation criteria set forth in the RFP. If, after review of the best and final offers, clarification is required, it may be sought from the bidders. If further negotiation is desired after evaluation of the revised proposals, it will be followed by another BAFO opportunity. UMDNJ reserves the right to reassess the competitive range before proceeding with a subsequent round of negotiations and BAFO submissions and to remove from the competitive range any proposal that is no longer considered to be a leading contender for award. After evaluation of the final BAFO submissions, the evaluation committee will recommend to the Vice President of Supply Chain Management for award the responsible bidder(s) whose bid proposal(s), conforming to the RFP, is most advantageous to the State, payment and other factors considered. The Vice President of Supply Chain Management may accept, reject or modify the recommendation of the Evaluation Committee. The Vice President of Supply Chain Management may negotiate further increases in payment with the selected bidder.

Negotiations will only be conducted in those circumstances where they are deemed by UMDNJ to be in UMDNJ's best interests and to maximize the UMDNJ's ability to get the best value. Therefore, bidders are advised to submit their best technical and payment proposals in response to this RFP, because the UMDNJ may, after evaluation, make a contract award based on the content of these initial submissions, without further negotiation with any bidder.

All contacts, records of initial evaluations, any correspondence with bidders related to any request for clarification, negotiation or BAFO, any revised technical and/or payment proposals, the Evaluation Committee Report and the Award Recommendation, will remain confidential until a Notice of Intent to Award a contract is issued.

6.7 Bidder's Right to Challenge a Contract Award

Except in cases of emergency, bidders have the right to protest a proposed contract award.

A bidder's protest must be submitted to the buyer of record with a copy to the Vice President of Supply Chain Management ("Vice President") within ten (10) days of receipt of notice to the bidder that it did not receive a contract award for its submitted bid proposal or notice that an award had been made to another bidder. The protest period may be shortened by the Vice President of Supply Chain Management. If the protest period is shortened or a protest period is not authorized due to emergency, all bidders will receive notice of the shortened protest period or emergency in the notice sent to bidder on the award of the contract.

Notices of contract award under this section may be faxed, e-mailed, sent by regular mail or by any other means, excluding telephonic communication, conducive to transmitting the notice. If notice is sent by regular mail, the recipient is deemed to have received the notice three (3) days after mailing.

If a bidder files a protest to a contract award under this section, the bidder must set forth in writing with specificity the basis of the protest. At the time of the protest filing, the bidder must also submit all documentation supporting the basis of the protest. Failure to comply with these requirements may lead to rejection of the protest and UMDNJ award of the contract.

The protest will be reviewed and addressed with reasonable promptness. If deemed necessary by Vice President of Supply Chain Management, a hearing may be held on the merits of the protest. In all cases, the Vice President of Supply Chain Management will notify the bidder of the final determination on the protest.

7.0 BIDDER'S DATA SHEETS (FORMS TO BE COMPLETED BY BIDDER)

The bidder should fully complete and submit the following Bidder's Data Sheets. Failure to satisfactorily complete and submit the Bidder's Data Sheets may result in a determination that your bid is non-responsive, resulting in rejection of your bid.
