

REQUEST FOR PROPOSAL FROM THE WORLD INITIATIVE FOR SOY IN HUMAN HEALTH (WISHH)

I. DATE

September 1, 2022

II. PROJECT OBJECTIVE

The purpose of this Request for Proposal (RFP) is to identify a contractor to implement future ASA/WISHH activities in Uzbekistan. The future activities will be funded by U.S. Department of Agriculture (USDA) market development programs and may include: organizing professional conferences; scheduling appointments for technical consultant visits; recruiting trade team members; managing animal feeding trials; providing trade servicing to importers, buyers and soy processors; helping with proposal development; and assisting with ASA/WISHH staff travel.

III. ORGANIZATION BACKGROUND

The American Soybean Association (ASA) was founded in 1920 by soybean farmers and extension workers to promote soy for high protein applications in developmental settings. Overseas activities initiated in the mid-1950s, and to date ASA has worked in over 80 countries. The World Initiative for Soy in Human Health (WISHH) was founded in 2000 to expand the work of the American Soybean Association (ASA) in developing and emerging markets to improve health, nutrition and food security, building the groundwork for future markets of soy. WISHH provides services in food technology, business development, nutrition services, and program and proposal development. WISHH expertise extends its network into additional areas, such as aquaculture and animal feed.

ASA/WISHH connects trade and development to strengthen agricultural value chains in emerging markets, creating trade and long-term demand for U.S. soy. Trade can improve lives worldwide for both farmers and consumers. U.S. soy trade in emerging markets is pivotal to improve accessibility, affordability, and acceptability of high-quality plant and animal-sourced proteins in developing economies. Rising incomes in emerging economies generate further opportunity for trade. ASA/WISHH builds opportunity for long-term trade by improving agricultural value chains, human and animal nutrition, and farmer net incomes. ASA/WISHH initiatives broadly fit in two arenas: (1) trade-building long-term, early-stage market development, and (2) trade-building international agriculture and economic development. The St. Louis-based program operates in sub-Saharan Africa, Asia and Central America.

ASA/WISHH offers proven feed sector capacity and decades of accumulated knowledge from ASA programs. Principal approaches include market and economic assessments, technical assistance and capacity building, food and feed trials and demonstrations, farmer field days, youth mentorship programs, food and feed value chain development, and market linkages.

ASA/WISHH achieves its mission by working in close partnership with: (1) the public sector (e.g., USDA, USAID, U.S. land grant universities, and host country governments), (2) the private sector (e.g., U.S. exporters and trade associations: Qualified State Soybean Boards and U.S. Soybean Export Council), and (3) private voluntary organizations. The Program draws upon the resources and experience of these partners and the services of a cadre of ASA/WISHH consultants with technical expertise in agricultural, international and commercial development spheres. ASA/WISHH relies on decades of experience in food commercial development and agricultural development programming. The Program takes pride in its growing portfolio of success with U.S. government-funding, including USDA (Food for Progress, McGovern-Dole, Global Broad-Based Initiative, Foreign Market Development, Market Access Program, Emerging Markets Program, Agricultural Trade Program and Quality Samples Program) and USAID funding in both prime and sub-recipient capacities. ASA/WISHH has also attracted both private sector and other complementary funding sources from various donors to build on and leverage core funding from Qualified State Soybean Boards.

WISHH's objective is to increase the international consumption of soy protein in the human, livestock, and aquaculture sectors in new markets and thereby create new opportunities for soybeans and providing higher economic returns to U.S. soybean producers.

IV. SCOPE OF WORK

The selected contractor is required to be based in Uzbekistan. (ASA/WISHH is also posting for a contractor for Kazakhstan and is open to having the same contractor implementing activities in both countries, providing they are based in either Uzbekistan or Kazakhstan. A separate proposal is required for Kazakhstan). Working with ASA/WISHH St. Louis headquarter staff, the selected contractor would implement USDA funded activities. ASA/WISHH would allocate a certain number of days to implement each activity. Activities will be determined on USDA funding and recommendations from the 2020 Uzbekistan market assessment.

Experience working with Uzbekistani livestock and poultry producers, feed millers, oilseed processors, importers, buyers and trade associations is preferred.

Activity expenses would be paid directly by ASA/WISHH to vendors whenever possible. Submission of other expenses (travel, printing, etc.) would be reimbursed on actual expenses through the submission of receipts and invoices.

The selected contractor would submit quarterly reports which will be used to complete the required donor reports.
