INTRODUCTION

Polk County, a political subdivision of the State of Florida, is soliciting proposals from qualified firms for water utilities financial planning and analysis services. Polk County, Florida operates 47 water production facilities, 10 wastewater treatment facilities, and 3 reclaim water systems throughout the County. The utility services 57,000 water connections, 40,000 wastewater connections and 3,600 reclaim water connections. The utility annual revenue is \$44 million and we expect to issue bonds to cover a \$30 million dollar per year Capital Improvement Plan (CIP) over the next 5 years. We have 6 different Regional Systems, but only charge one rate. It is anticipated that the majority of work awarded under this contract will be for services related to preparing Revenue Sufficiency Analysis and Bond Feasibility Reports to be included in bond offering documents.

SCOPE OF SERVICES

Financial Planning Tasks

1. Rate Study:

Polk County desires to maintain rates that recover the cost of service from water, wastewater, and reuse services, miscellaneous charges, and connection fees based solely on the cost of providing the service. A comprehensive rate study is conducted typically every 5 to 10 years. The study will determine that revenue is sufficient to meet all present and future operating and capital costs, that charges for services recover the cost of providing the service, and that the rates are designed to provide encouragement for essential domestic use as well as encourage conservation by using a penalty structure for excessive use.

2. Revenue Sufficiency Analysis

The analysis must provide a multi-year projection (usually 5 years, but must have the capability to project up to 40 years) of the sufficiency of a utility's revenues to meet all of its current and projected operating expenses, capital expenses, bond covenants, and reserve requirements. The analysis should be able to be used interactively with immediate results, when at a minimum; any one of the following parameters is adjusted: customer growth, rate increases/decreases, operating expense, capital expense, finance interest rate, investment interest rate, effects of capitalized interest, frequency of financing, and connection fee increases and decreases. It is desired that a single dash board be used to display the results and be useful to demonstrate the effects of changes in variables to management and elected officials.

3. Bond Financial Feasibility Reports

Provide a historical and estimated future projection of the revenue and expenses of the utility in order to demonstrate the ability of Polk County to repay the desired borrowing amount(s). These reports will be published in the bond offering documents and will require interaction with the firm performing the engineering report, Financial Advisor, Bond Counsel, and Rating agencies. Bond Issues will range between \$50 million and \$80 million every two years based on current projections

4. Connection Fee Study

Develop capital charges that are designed to recover the cost of building water production and wastewater treatment facilities, and distribution and collection systems needed to serve new development.

5. Utility System Valuation Reports

Determine the value of a utility system for potential divestment or acquisition, and express an opinion and financial analysis showing results and if it meets current bond covenants.

QUALIFICATIONS

The individual or firm awarded this contract must have extensive experience in water utility financial planning for Financial Planning and Analysis Services in each Financial Planning Task listed above in the Scope of Services. Only those firms who have the ability and experience necessary to perform all of the tasks listed above in the Scope of Services will be considered.

Vendors must possess a Polk County Local Business Tax Receipt (f/k/a Business License) in order to do business with the Polk County Board of County Commissioners. A copy of such license must be provided to the Procurement Division before award is made to the successful vendor.

AGREEMENT

The term of this agreement will be for one (1) year. The County shall have the option of extending the agreement for two (2) additional one (1) year periods, as approved by the County, at the same terms and conditions by giving the firm written notice not less than thirty (30) days prior to the expiration of the initial term.

SUBMITTAL

Submittals should not contain information in excess of that requested, must be concise, and must specifically address the issues of this RFP. The responses shall be in the same order as the selection and evaluation procedures. Proposals are to be printed double-sided. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to this solicitation are not desired and may be construed as an indication of the proposer's lack of cost consciousness. Elaborate artwork, expensive visual aids, and other presentation aids are neither necessary nor desired, unless specifically requested. The original proposal responses and each copy shall be contained within a separate three (3) ring binder. Each item below shall have a tab divider and labeled as such.
