1. How to respond to Request for Proposals (RFPs):

All proposals shall be submitted and identified with the firm name and manually signed. Unsigned proposals shall not be considered.

2. How to amend a proposal before due date and time:

After a proposal has been filed and the offeror desires to amend the response, the offeror may do so before the due date and time by filing an amendment fully identified with the original proposal submitted by number, commodity and submission date. All of the conditions and provisions of the request for proposal (RFP) shall be in effect. This must be submitted before the date and time for receipt of proposals as set forth in the RFP.

3. Facsimile Response Not Allowed

Proposals will not be accepted in response to this RFP, by facsimile, modem, telephone or other electronic means. Furthermore, no proposal will be accepted that is not legible and clear.

TERMS AND CONDITIONS OF REQUEST FOR PROPOSAL

Calculation of time in days and hours shall exclude Saturdays, Sundays and major holidays.

1. Negotiations

This is a negotiated procurement. Negotiations is a procedure that includes the receipt of proposals from offerors, permits bargaining and usually affords an opportunity to revise offers before award of contract. Bargaining - in the sense of discussion, persuasion, alteration of initial assumption and positions and give and take may apply to price, schedule, technical requirements, type of contract, or other terms of a proposed contract.

2. Binding Contract

A proposal received in response to a Request for Proposal (RFP) is an offer that can be accepted by Milwaukee Transport Services (MTS) to create a binding contract.

3. Right to Award Without Negotiations

MTS reserves the right to make an award on the basis of the original proposal, without negotiations with an offeror.

4. Award

In awarding a contract, price is but one factor to be considered, and award is not required to be made to the lowest responsive, responsible offeror. Award shall be made to the responsive, responsible firm whose proposal overall is the most advantageous to MTS as determined by MTS, Materials Management. MTS reserves the right to accept or reject a portion, any or all proposals when in the opinion of the Director of Materials Management is in the best interest of MTS.

5. Trade Secrets

In the event sections of the response qualify as "trade secrets" as defined in Section 134.90(1)© of the Wisconsin State Statutes a written request for a pledge of confidentiality must be submitted with the response. Should MTS disagree with the respondents request for a pledge of confidentiality, the material so submitted will be returned to the respondent without evaluation. Therefore, MTS suggests that only those items that truly qualify as "trade secrets" be designated confidential.

6. RFP Content

All materials submitted with regard to this RFP shall become the property of MTS and may be returned only at MTS's option.

7. Oral Presentations

MTS reserves the right to schedule oral presentations for any respondents as it sees fit. If a respondent is invited to make an oral presentation, MTS will provide guidelines for the presentation at the time the invitation is extended, and any invitee(s) will be given adequate notice of the scheduled presentation date.

8. Defaulting Respondents Excluded

No proposals will be accepted from any person, firm or corporation that has failed to perform faithfully any previous contract with MTS unless said person, firm or corporation has been reinstated on the eligible list of respondents by the Director of Materials Management.

9. Delays In Delivery

Delays in delivery caused by bona fide strikes, government priority or requisition, riots, fires, sabotage, acts of God or any other delays deemed by the Director of Materials Management to be clearly and unequivocally beyond the contractor's control, will be recognized. The vendor may be relieved of meeting the delivery time specified if vendor files with the Director of Materials Management a request for extension of time, signed by a responsible official, giving in detail all the essential circumstances which upon verification by Director of Materials Management justifies such extension.

10. Delivery Terms

Proposals shall include delivery costs to the specified delivery point, all transportation charges prepaid and borne by you. (Proposals stating "F.O.B., shipping point with transportation charges prepaid" or any other deviations will not be considered.)

11. Taxes

MTS is exempt from Federal Excise Taxes and Wisconsin State Sales Tax. Proposals shall be submitted without such taxes.

12. Code Of Ethics

The Milwaukee County Code of Ethics states in part, "No person may offer to give to any Public official or employee or his immediate family, and no Public official or employee or his immediate family may solicit or receive anything of value pursuant to an understanding that such officers or employees' vote, official actions or judgment would be influenced thereby."

No person(s) with a personal financial interest in the approval or denial of a contract being considered by a County department or with an agency funded and regulated by a County department, may make a campaign contribution to any County official who has approval authority over that contract during its consideration. Contract consideration shall begin when a contract is submitted directly to a County department or to an agency until the contract has reached final disposition, including adoption, county executive action, proceedings on veto (if necessary) or departmental approval. This provision does not apply to those items covered by Section 9.15 unless and acceptance by an elected official would conflict with this section. The language in Section 9.05(2)(1) shall be included in all Request for Proposals (RFP) and bid documents.

13. Funding - MTS Operating Contract

If funds are not appropriated for payment of this contract, the Purchaser may terminate contract at the end of any fiscal year upon 30 days written notice.

MTS operates the transit system for, and under an agreement with Milwaukee County, Wisconsin. All multi-year contracts/agreements with MTS are contingent upon Milwaukee County retaining MTS as the operator of the transit system. The continuation of this agreement beyond December 31 of any given year, shall be contingent upon MTS receiving the necessary funding from the government agency.

14. Insurance

If the termination is for default, the notice shall state the manner in which the contractor has failed to perform the requirements of the contract. The Contractor shall account for any property in its possession paid for from funds received from Milwaukee County, or property supplied to the Contractor by Milwaukee County. If the termination is for default, Milwaukee County may fix the fee, if the contract provides for a fee, to be paid the contractor in proportion to the value, if any, of work performed up to the time of termination. The Contractor shall promptly submit its termination claim to Milwaukee County and the parties shall negotiate the termination settlement to be paid the Contractor.

If the termination is for the convenience of Milwaukee County, the Contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination.

If, after serving a notice of termination for default, Milwaukee County determines that the Contractor has as excusable reason for not performing, such as strike, fire, flood, events which are not the fault of and are beyond the control of the contractor, Milwaukee County, after setting up a new work schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

- (3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(B) of this section.

(D) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of the title 18 and section 231 of title 31 of the United States Code.

(iii) The contractor or subcontractor shall make the records required under paragraph (a)(3)(I) of this section available for inspection, copying, or transcription by authorized representatives of the Federal Transit Administration or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. (4) Apprentices and trainees –

(i) Apprentices – Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training, or with a State Apprenticeship Agency recognized by the Bureau, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator of the Wage and Hour Division of the U.S. Department of Labor determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Bureau of Apprenticeship and Training, or a State Apprenticeship Agency recognized by the Bureau, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees – Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor,

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

(7) **Contract termination: debarment** – A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided 29 CFR 5.12.

PATENT AND RIGHTS IN DATA

37 CFR Part 401

49 CFR Parts 18 and 19

CONTRACTS INVOLVING EXPERIMENTAL, DEVELOPMENTAL, OR RESEARCH WORK.

- A. Rights in Data** – This following requirements apply to each contract involving experimental, developmental or research work:
- (1) The term “subject data” used in this clause means recorded information, whether or not copyrighted, that is delivered or specified to be delivered under the contract. The term includes graphic or pictorial delineation in media such as drawings or photographs; text in specifications or related performance or design-type documents; machine forms such as punched cards, magnetic tape, or computer memory printouts; and information retained in computer memory. Examples include, but are not limited to: computer software, engineering drawings and associated lists, specifications, standards, process sheets, manuals, technical reports, catalog item identifications, and related information. The term “subject data” does not include financial reports, cost analyses, and similar information incidental to contract administration.
 - (2) The following restrictions apply to all subject data first produced in the performance of the contract to which this Attachment has been added:
 - (a) Except for its own internal use, the Purchaser or Contractor may not publish or reproduce subject data in whole or in part, or in any manner or form, nor may the Purchaser or Contractor authorize others to do so, without the written consent of the Federal Government, until such time as the Federal Government may have either released or approved the release of such data to the public; this restriction on publication, however, does not apply to any contract with an academic institution.
 - (b) In accordance with 49 C.F.R. § 18.34 and 49 C.F.R. § 19.36, the Federal Government reserves a royalty-free, non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use,

for “Federal Government purposes,” any subject data or copyright described in subsections (2)(b)1 and (2)(b)2 of this clause below. As used in the previous sentence, “for Federal Government purposes,” means use only for the direct purposes of the Federal Government. Without the copyright owner’s consent, the Federal Government may not extend its Federal license to any other party.

1. Any subject data developed under that contract, whether or not copyright has been obtained; and
 2. Any rights of copyright purchased by the Purchaser or Contractor using Federal assistance in whole or in part provided by FTA.
- (c) When FTA awards Federal assistance for experimental, developmental, or research work, it is FTA’s general intention to increase transportation knowledge available to the public, rather than to restrict the benefits resulting from the work to participants in that work. Therefore, unless FTA determines otherwise, the Purchaser and the Contractor performing experimental, developmental, or research work required by the underlying contract to which this Attachment is added agrees to permit FTA to make available to the public, either FTA’s license in the copyright to any subject data developed in the course of that contract, or a copy of the subject data first produced under the contract for which a copyright has not been obtained. If the experimental, developmental, or research work, which is the subject of the underlying contract, is not completed for any reason whatsoever, all data developed under that contract shall become subject data as defined in subsection (a) of this clause and shall be delivered as the Federal Government may direct. This subsection (c), however, does not apply to adaptations of automatic data processing equipment or programs for the Purchaser or Contractor’s use whose costs are financed in whole or in part with Federal assistance provided by FTA for transportation capital projects.
- (d) Unless prohibited by state law, upon request by the Federal Government, the Purchaser and the Contractor agree to indemnify, save, and hold harmless the Federal Government, its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the Purchaser or Contractor of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under that contract. Neither the Purchaser nor the contractor shall be required to indemnify the Federal Government for any such liability arising out of the wrongful act of any employee, official, or agents of the Federal Government.
- (e) Nothing contained in this clause on rights in data shall imply a license to the Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Federal Government under any patent.
- (f) Data developed by the Purchaser or Contractor and financed entirely without using Federal assistance provided by the Federal Government that has been incorporated into work required by the underlying contract to which this Attachment has been added is exempt from the requirements of subsections (b), (c), and (d) of this clause, provided that the Purchaser or Contractor identifies that data in writing at the time of delivery of the contract work.
- (g) Unless FTA determines otherwise, the Contractor agrees to include these requirements in each subcontract for experimental, developmental, or research work financed in whole or in part with Federal assistance provided by FTA.
- (3) Unless the Federal Government later makes a contrary determination in writing, irrespective of the Contractor’s status (i.e., a large business, small business, state government or state instrumentality, local government, nonprofit organization, institution of higher education, individual, etc.), the Purchaser and the Contractor agree to take the necessary actions to provide, through FTA, those rights in that invention due the Federal Government as described in U.S. Department of Commerce regulations, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” 37 C.F.R. Part 401.
- (4) The Contractor also agrees to include these requirements in each subcontract for experimental, developmental, or research work financed in whole or in part with Federal assistance provided by FTA.
- B. **Patent Rights** – This following requirements apply to each contract involving experimental, developmental, or research work:
- (1) **General** – If any invention, improvement, or discovery is conceived or first actually reduced to practice in the course of or under the contract to which this Attachment has been added, and that invention, improvement, or discovery is patentable under the laws of the United States of America or any foreign country, the Purchaser and

Contractor agree to take actions necessary to provide immediate notice and a detailed report to the party at a higher tier until FTA is ultimately notified.

- (2) Unless the Federal Government later makes a contrary determination in writing, irrespective of the Contractor's status (a large business, small business, state government or state instrumentality, local government, nonprofit organization, institution of higher education, individual), the Purchaser and the Contractor agree to take the necessary actions to provide, through FTA, those rights in that invention due the Federal Government as described in U.S. Department of Commerce regulations, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," 37 C.F.R. - 3) If the manufacturer represents that the vehicle was previously tested, the vehicle being sold should have the identical configuration and major components as the vehicle in the test report, which must be provided to the recipient prior to recipient's final acceptance of the first vehicle. If the configuration or components are not identical, the manufacturer shall provide a description of the change and the manufacturer's basis for concluding that it is not a major change requiring additional testing.
- 4) If the manufacturer represents that the vehicle is "grandfathered" (has been used in mass transit service in the United States before October 1, 1988, and is currently being produced without a major change in configuration or components), the manufacturer shall provide the name and address of the recipient of such a vehicle and the details of that vehicle's configuration and major components.
